(25 U.S.C. 1601 et seq.), Indian Health
Service Transfer Act ((42 U.S.C. 2001–
2004).

PURPOSE(S):
The purposes of this system are:
1. To ensure that IHS medical staff
members are qualified, competent and
capable of delivering quality health
services consistent with those of the
medical community at large and that
they are granted privileges
commensurate with their training and
competence and with the ability of the
facility to provide adequate support
equipment, services, and staff.
2. To inform health care
practitioner(s) and staff of health care
facilities, state or county health
professional societies or licensing
boards to whom the subject individual
may apply for clinical privileges,
membership or licensure, of the subject
individual’s professional competence,
character and ethical qualifications.
This may include information regarding
drug or alcohol abuse or dependency.
Within the Department such releases
may be made to personnel staffs of
DHHS Regional Offices.
3. To provide adverse health care
practice information to the National
Practitioner Data Bank-Healthcare
Integrity and Protection Data Bank
(NPDB–HIPDB) established under Title
IV of Public Law 99–660, the Health
Care Quality Improvement Act of 1986,
as amended, and Section 221(a) of
Public Law 104–191, the Health
Insurance Portability and
Accountability Act of 1996. The
purpose of such a release is to provide
information concerning a current or
former IHS medical staff member whose
professional health care activity failed
to conform to generally accepted
standards of professional medical
practice.
4. To provide health care practice
information concerning current or
former members of the IHS medical staff
with Commissioned Corps status to the
Division of Commissioned Personnel,
U.S. Public Health Service, so that an
informed decision may be made
concerning the promotion, retention, or
reassignment of the subject individual.

ROUTINE USES OF RECORDS MAINTAINED IN THE
SYSTEM, INCLUDING JOBS OF USERS AND
THE PURPOSES OF SUCH USES:
1. Records may be disclosed to
organizations authorized to conduct
evaluation studies concerning the
delivery of health care services by the
IHS (e.g., Joint Commission on the
Accreditation of Healthcare
Organizations).
2. IHS may disclose records consisting
of name, Social Security number,
employment history and any
professional qualification information
concerning medical staff membership
and privileges, professional
competence, clinical judgment and
personal character to a state or local
government health professional
licensing board, to the Federation of
State Medical Boards, to the NPDB–
HIPDB, and/or to a similar entity which
has the authority to maintain records
concerning the issuance, retention or
revocation of licenses or registrations
necessary to practice a health
professional occupation or specialty.
The purpose of this disclosure is to
inform medical profession licensing
boards and appropriate entities about
the health care practices of a current,
terminated, resigned, or retired IHS
medical staff member whose
professional health care activity
significantly failed to conform to
generally accepted standards of
professional medical practice. This will
be done within the guidelines for notice,
hearing, and review as delineated in the
medical staff bylaws for the IHS facility
and/or within other HHS or IHS
regulations or policies.
3. IHS may disclose biographic data
and information supplied by potential
applicants to (a) references listed on the
IHS medical staff and/or privileges
application and associated forms for the
purpose of evaluating the applicant’s
professional qualifications, experience,
and suitability, and (b) a state or local
government health profession licensing
board, to a health-related professional
organization, to the Federation of State
Medical Boards, and to the NPDB–
HIPDB or a similar entity for the
purpose of verifying that all claimed
background and employment data are
valid and all claimed credentials are
current and in good standing.
4. Records may be disclosed to other
Federal agencies (including the Office of
Personnel Management for subject
individuals applying for or maintaining
Civil Service appointments), to state and
local governmental agencies, and to
organizations in the private sector to
which the subject individual applies for
clinical privileges, membership or
licensure for the purpose of
documenting the qualifications and
competency of the subject individual to
provide health services in his/her health
profession based on the individual’s
professional performance while
employed by the IHS.
5. The Department may disclose
information from this system of records
to the Department of Justice, or to a
court or other tribunal, when (a) HHS,
or any component thereof, or (b) any
HHS employee in his or her official
capacity; or (c) any HHS employee in
his or her individual capacity where the
Department of Justice (or HHS, where it
is authorized to do so) has agreed to
represent the employee; or (d) the
United States or any agency thereof
where HHS determines that the
litigation is likely to affect HHS or any of
its components, is a party to litigation
or has an interest in such litigation, and
HHS determines that the use of such
records by the Department of Justice, the
court or other tribunal is relevant and
necessary to the litigation and would
help in the effective representation of
the governmental party, provided,
however, that in each case, HHS
determines that such disclosure is
compatible with the purpose for which
the records were collected.
Records may be disclosed to a
congressional office from the record of
an individual in response to a verified inquiry from the congressional office
made at the written request of that individual.
7. In the event that a system of records
maintained by the IHS to carry out its
functions indicates a violation or
potential violation of law, whether civil,
criminal, or regulatory in nature, and
whether arising by general statute or
particular program statute, or by
regulation, rule or order issued pursuant
thereto, the relevant records in the
system of records may be referred to the
appropriate agency, whether Federal,
state, or local, charged with enforcing or
implementing the statute or rule, regulation or order issued pursuant
thereto.

POLICIES AND PRACTICES FOR STORING,
RETRIEVING, ACCESSING, RETAINING, AND
DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:
File folders and computer-based or
electronic files.

RETRIEVABILITY:
Indexed and retrieved by name, Social
Security number, and any other
identifying numbers necessary to
establish the identity of an individual
whose record is maintained in the
system of records.

SAFEGUARDS:
1. Authorized Users: Access is limited
to authorized personnel for use in
the performance of their official duties.
Authorized personnel include:
Physician Recruitment and other Health
Professions Branch Staff and Area
Governing Board Members at IHS Area
Offices, and Service Unit Directors,
Clinical Directors and members of the
Credentials and Privilege Committee of
each IHS Service Unit. At each location
where records in this system will be
maintained, a list of personnel or
categories of personnel having an
official need-to-know has been
developed and is maintained.
2. Physical Safeguards: Records are
kept in locked metal filing cabinets or
in locked desk drawers in secured
rooms at all times when not actually in
use during working hours and at all
times during non-working hours. Record
storage areas, including file cabinets and
desks, are not left unattended or
unlocked during office hours, including
lunch hours. Computer-based or
electronic records are password
protected security and any additional
internal security for database (linked or
unlinked).
3. Procedural Safeguards: Persons
who have an official need-to-know are
entrusted with records from this system
of records and are instructed to
 safeguard the confidentiality of these
records and to destroy all copies or to
return such records when the need to
know has expired. Instructions include
the statutory penalties for
noncompliance. Proper charge-out
procedures are followed for the removal
of records from the area in which they
are maintained. Before an employee
who will control disclosure of records
can work with the records (i.e.,
employees who report to the system
manager) the system manager or
designee ensures that the employee has
received training in the safeguards
applicable to the records and is aware
of the actions to take to restrict
disclosure. When copying records for
authorized purposes, care is taken to
ensure that any imperfect pages are not
left in the reproduction room where
they can be read but are destroyed or
obliterated.

4. Implementation Guidelines: DHHS
Chapter 45–13 and supplementary
Chapter PHS.hf:45–13 of the General
Administration Manual; DHHS,
“Automated Information System
Program Handbook,” as amended;
DHHS IRM Policy HHS–IRM–
2000–0005, “IRM Policy for IT Security
for Remove Access; OMB Circular A–
130 “Management of Federal
Information Resources”; and E
347, 44 U.S.C. Ch. 36).

RETENTION AND DISPOSAL:
Records are maintained by IHS for at
least ten years after the individual’s
termination of employment or
association with IHS. Records of
unsuccessful applicants for medical
staff membership will be retained for
three years after his/her rejection. After
these periods of retention expire,
records are destroyed by shredding or
burning.
