Title: Evaluation of State Implementation of Section 303(k) of the Social Security Act.

OMB Number: 1205-0NEW.

Frequency: One-time Survey.

Affected Public: State Government.

Type of Response: Reporting.

Number of Respondents: 53.

Estimated Time Per Respondent: 2 hours.

Total Burden Hours: 106.

Total Burden Cost (capital/startup): 0.

Total Burden Cost (operating/maintaining): 0.

Description: The collection of this information is necessary to examine state implementation of section 303(k) of the Social Security Act (SSA) as to (1) status and effectiveness of state actions to meet the requirement of the law and operation guidance, and (2) whether the Secretary of Labor (Secretary) should recommend Congressional action to make revisions to the law. On August 9, 2004, Public Law (Pub.L.) 108-295, the "State Unemployment Tax Act (SUTA) Dumping Prevention Act of 2004" (Act)

was enacted which amended section 303(k) of the SSA by establishing a minimum nationwide standard for curbing a unemployment compensation tax rate manipulation schemes known as SUTA dumping. The Act requires the Secretary of Labor to conduct a study of state implementation and report to Congress by July 15, 2007 at section 2, F(b)(1). ETA now requests emergency approval to enable ETA's contractor sufficient time to distribute, collect, and analyze the state survey results and incorporate them into the study findings before the July 15, 2007, statutorily mandated submission date for the Secretary's report to Congress. The timing of the survey design and review request corresponds with the states' implementation of the detection systems, which began after enactment of the Federal law. If the survey design and distribution predated the implementation of state detection systems, states would be unable to provide useful data on the status and effectiveness of state actions to meet the requirement(s) of the Federal law and operation guidance.

Departmental Clearance Officer.

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

Negative Determinations for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In the following cases, the investigation revealed that the eligibility criteria for worker adjustment assistance have not been met for the reasons specified.

Because the workers of the firm are not eligible to apply for TAA, the workers cannot be certified eligible for ATAA.

TA-W-60,806A; *Berwick Offray LLC, South Centre, Bloomsburg, PA.*

The investigation revealed that the predominate cause of worker separations is unrelated to criteria (a)(2)(A)(I.C.) (increased imports) and (a)(2)(B)(II.C.) (shift in production to a foreign country under a free trade agreement or a beneficiary country under a preferential trade agreement, or there has been or is likely to be an increase in imports).
