Members of the public seeking Social Security benefits must first file an application for the desired type of payment. The Internet Social Security Benefits Application (ISBA) is an online system that allows members of the public to apply electronically for Retirement Insurance Benefits, Disability Insurance Benefits, and Spouse’s Insurance Benefits. This information collection includes: (1) ISBA; (2) paper forms (Forms SSA–1, SSA–2, and SSA–16) for these various benefits; and (3) Modernized Claims System for these benefits, which allows SSA field office employees to enter information in an application system during interviews with applicants in a direct input process. For each part of this information collection, we ask applicants only those questions that are relevant to the specific type of benefit they are seeking. This information collection request (ICR) is for changes we are making to the ISBA application, including: (1) the ability for third parties to complete applications in ISBA and (2) redesign changes that will make the application less time-consuming. The respondents are applicants for Retirement, Disability, or Spouse’s Insurance Benefits or their third-party representatives.

Type of Request: Revision to an OMB-approved information collection.
