SUMMARY: EPA is proposing to approve revisions to the State Implementation Plan (SIP) as submitted by the Governor of North Dakota with a letter dated March 8, 2007. The revisions affect certain air pollution control rules regarding general provisions, open burning restrictions, permitting, and fugitive emissions. In addition, EPA is proposing to take direct final action approving a revision to a chapter of the SIP regarding an alternative monitoring plan for the Tesoro Mandan Refinery. EPA is also providing notice that on August 22, 2007, North Dakota was delegated authority to implement and enforce certain New Source Performance Standards, as in effect on January 31, 2006. In the “Rules and Regulations” section of this Federal Register, EPA is approving the State’s SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

DATES: Written comments must be received on or before June 26, 2008.

ACTION: Extension of timeline for publication of final rule.

SUMMARY: This notice announces an extension of the timeline for publication of the “Medicare and Medicaid Programs; Hospice Conditions of Participation” final rule. This notice is issued in accordance with section 1871(a)(3)(B) of the Social Security Act (the Act) which requires notice be provided in the Federal Register if a final regulation, due to exceptional circumstances, will take longer to publish than 3 years after the publication date of the proposed rule. In this case, the complexity of the rule and scope of comments warrants the extension of the timeline for publication.

DATES: Effective Date: This notice is effective on May 27, 2008.

FOR FURTHER INFORMATION CONTACT: Mary Rossi-Conjujou, (410) 786–6051, or Danielle Shearer, (410) 786–6617.

SUPPLEMENTARY INFORMATION:

I. Background

On May 27, 2005, we published in the Federal Register a proposed rule (70 FR 30840) that would establish new conditions of participation for Medicare-participating hospices. The proposed revisions would focus on the care delivered to patients and their families and the outcomes of that care by reflecting an interdisciplinary, patient-centered approach to care planning and delivery and allowing hospices flexibility in meeting quality standards.

II. Notice of Continuation

This notice announces an extension of the timeline for publication of a final rule responding to comments on the above proposed rule. Section 1871(a)(3)(B) of the Act requires the Secretary to publish final regulations no later than 3 years after the publication date of the proposed rule. To meet this 3-year timeframe, the final rule would have to be published by May 27, 2008. Section 1871(a)(3)(B) also provides that under “exceptional circumstances,” the Secretary may extend the initial targeted publication date of a final regulation. The Secretary is required, prior to the regulation’s previously established proposed publication date, to provide public notice of this extension in the Federal Register, including a brief explanation of the justification for the variation. This notice extends the timeline based on the following exceptional circumstances, which we believe, justify such an extension. We are not able to
meet the 3-year timeline for publication of the final rule due to the complexity of the rule and the large number of public comments we received.

We received a large volume of timely comments on the proposed rule. The commenters presented extremely complex and detailed policy and legal issues, which require extensive consultation, review, and analysis. Also, the development of the final rule requires collaboration among other agencies under the Department of Health and Human Services (DHHS).

We note that extensive coordination has been needed to ensure that these provisions follow guidelines and rules of all affected administrative agencies.

In addition, this final rule is extremely comprehensive because it updates and revises policies, some of which were originally established in 1983, regarding patient assessment, patient care planning and delivery, quality assessment and performance improvement, drug and biologicals management, inpatient care facilities, and the role of hospice care in long term care facilities. Therefore, the incorporation of these updates has required extensive time, outreach, and collaboration to ensure that the final rule’s provisions are consistent with current best practices in the provision of hospice services.

We believe that an extension of the publication timeline is necessary and appropriate to ensure that we are able to address all of the comments and issues raised in response to the May 27, 2005 proposed rule. Therefore, this notice extends the timeline for publication of the final rule until May 27, 2009.

Authority: Section 1871 of the Social Security Act (42 U.S.C. 1305hh).
(Catalog of Federal Domestic Assistance Program No. 93.773 Medicare—Hospital Insurance Program; and No. 93.774, Medicare—Supplementary Medical Insurance Program)

Dated: May 21, 2008.

Ann Agnew, Executive Secretary to the Department.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67
[Docket No. FEMA—B–7783]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Comments are requested on the proposed Base (1 percent annual-chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the proposed regulatory flood elevations for the reach described by the downstream and upstream locations in the table below. The BFEs and modified BFEs are a part of the floodplain management measures that the community is required either to adopt or show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition, these elevations, once finalized, will be used by insurance agents, and others to calculate appropriate flood insurance premium rates for new buildings and the contents in those buildings.

DATES: Comments are to be submitted on or before August 25, 2008.

ADDRESSES: The corresponding preliminary Flood Insurance Rate Map (FIRM) for the proposed BFEs for each community are available for inspection at the community’s map repository. The respective addresses are listed in the table below.

You may submit comments, identified by Docket No. FEMA–B–7783, to William R. Blanton, Jr., Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646–3151, or (e-mail) bill.blanton@dhs.gov.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646–3151 or (e-mail) bill.blanton@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities.

These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

Comments on any aspect of the Flood Insurance Study and FIRM, other than the proposed BFEs, will be considered. A letter acknowledging receipt of any comments will not be sent.

Administrative Procedure Act Statement. This matter is not a rulemaking governed by the Administrative Procedure Act (APA), 5 U.S.C. 553. FEMA publishes flood elevation determinations for notice and comment; however, they are governed by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and the National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq., and do not fall under the APA.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Executive Order 12866, Regulatory Planning and Review. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866, as amended.

Executive Order 13132, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.
