SYSTEM NAME:

Personnel Locator System, Environment and Natural Resources Division (ENRD-002).

SECURITY CLASSIFICATION:

Sensitive but unclassified.

SYSTEM LOCATION:

U.S. Department of Justice, Environment and Natural Resources Division, 950 Pennsylvania Ave., NW., Washington, DC 20530, and other ENRD field offices throughout the United States.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees, Student Aides, Law Clerks, Volunteers, Contractors and other personnel employed by or otherwise affiliated with the Environment and Natural Resources Division, U.S. Department of Justice.

CATEGORIES OF RECORDS IN THE SYSTEM:

The locator portion of the system will contain records filed by name of employee or affiliated personnel or individuals, including his or her position title; office location; office telephone and facsimile (fax) numbers; office address; professional electronic mail (e-mail) address(es); and optional voluntary photograph. Locator information will also include professional background records filed by name of employee or affiliated personnel, listing any voluntary, self-declared experience, skill or certification in the following areas: Law school name and year(s) of graduation; clerkships; bar memberships; advanced degrees earned; foreign language expertise; Notary Public commission. The emergency contact information module of the Personnel Locator System will contain comprehensive contact information from employees or affiliated personnel that may be used to contact the person named, or his/her authorized designee, in the event of an emergency during or outside of official duty hours. Information categories include home addresses and telephone numbers; cellular telephone numbers; pager numbers; other alternate telephone numbers where persons or their designees may be reached while away on travel, assigned work detail, or other extended absence from the office; electronic mail (e-mail) addresses; names, telephone numbers and e-mail addresses of family members or other emergency contacts; and other contact information persons may wish to provide. The system will also include audit information for emergency contact information to track changes that are updated by authorized emergency coordinators, managers and system administrators.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Authority to establish and maintain this system is contained in 5 U.S.C. 301 and 44 U.S.C. 3101, which authorize the

Attorney General to create and maintain federal records of agency activities, and is further described in 28 CFR 0.65 and 28 CFR 0.135, which give the Environment and Natural Resources Division authority to create and maintain federal records.

PURPOSE(S):

Division personnel collaborate on cases and matters requiring specialized legal expertise and often require assistance from colleagues with particular background or skills. The ENRD staff desires a centralized, searchable directory of employee expertise with associated locator information to facilitate professional contacts. ENRD desires to maintain its emergency contact database in the same system of records to assist with the ease of data entry and information updates for or by employees, and to simplify system maintenance for the system administrators. Submission of information to the PLS database is voluntary and electing not to participate will have no adverse impact on the selection, promotion or retention status of the non-participant.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(a) To a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of, and at the request of, the individual who is the subject of the record.

(b) To contractors, grantees, experts, consultants, students, and others performing or working on a contract, service, grant, cooperative agreement, or other assignment for the Federal Government, when necessary to accomplish an agency function related to this system of records.

(e) Where a record, either alone or in conjunction with other information,

indicates a violation or potential violation of law—criminal, civil, or regulatory in nature—the relevant records may be referred to the appropriate federal, state, local, territorial, tribal, or foreign law enforcement authority or other appropriate entity charged with the responsibility for investigating or prosecuting such violation or charged with enforcing or implementing such law.

SUPPLEMENTARY INFORMATION:

I. Background

Section 221(a) of Title II, Chapter 2 of the Trade Act of 1974, as amended by the Trade Act of 2002, authorizes the Secretary of Labor and the Governor of each state to accept petitions for certification of eligibility to apply for adjustment assistance. The petitions may be filed by a group of workers, their certified or recognized union or duly authorized representative, employers of such workers, one-stop operators or one-stop partners. ETA Form 9042A, Petition for Trade Adjustment Assistance and Alternative Trade Adjustment Assistance, and its Spanish

translation, ETA Form 9042A-1, Solicitud De Asistencia Para Ajuste, establish a format that may be used for filing such petitions.

Sections 222, 223 and 249 of the Trade Act of 1974, as amended, require the Secretary of Labor to issue a determination for groups of workers as to their eligibility to apply for Trade Adjustment Assistance (TAA). After reviewing all of the information obtained for each petition for Trade Adjustment Assistance filed with the Department, a determination is issued as to whether the statutory criteria for certification are met. The information collected in ETA Form 9043a, Business Confidential Data Request, ETA Form 9118, Business Confidential Non Production Questionnaire, and ETA Form 8562a, Business Confidential Customer Survey, will be used by the Secretary to determine to what extent, if any, increased imports or shifts in production have impacted the petitioning worker group.

II. Review Focus

ETA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

Type of Review: Extension, with revision, of OMB approved information collection.

Agency: Employment and Training Administration.
