Proposed Project: Institutional Review Board/Independent Ethics Committee Forms Modification—OMB No. 0990-0279—Office for Human Research Protections.

Abstract: The Office for Human Research Protections (OHRP) is requesting a modification to the current Institutional Review Board (IRB) Independent Ethics Committee (IEC) Registration Form designed to provide a simplified procedure for institutions engaged in Department of Health and

Human Services (HHS) conducted or supported research to satisfy the assurance requirements of Section 491(a) of the Public Health Service Act and HHS regulations for the protection of human subjects at 45 CFR 46.103. The form is being modified to be consistent with IRB-Registration requirements that are included in the Office for Human Research Protections (OHRP) and the Food and Drug Administration (FDA) final rules on IRB registration requirements. Respondents for this information collection are institutions or organizations operating IRBs designated by an institution under

an assurance of compliance approved for federalwide use by OHRP under 45 CFR 46.103(a) and that review human subjects research conducted or supported by HHS, or, in the case of FDA's regulation, each IRB in the United States that reviews clinical investigations regulated by FDA under sections 505(i) or 520(g) of the Federal Food, Drug and Cosmetic Act; and each IRB in the United States that reviews clinical investigations that are intended to support applications for research or marketing permits for FDA-regulated products.
