

manufacturer's progress in reducing children's exposure to lead from each part containing more than 300 ppm, specifying what actions have been taken with regard to each affected part. The report will also explain why any parts that remain above 300 ppm have not been able to be made inaccessible, substituted with another material, or made with a complying level of lead.

G. Any report submitted under paragraph F shall also identify the Bicycles and Related Products by model that the manufacturer intends to produce on or after July 1, 2011. The manufacturer shall provide a listing of each component part that is expected to be used in the production if its lead content is expected to exceed 100 ppm and will be accessible to children. For each such part the manufacturer shall explain why it is not feasible to make the part inaccessible or why it is not technologically feasible to reduce the lead content to 100 ppm or lower.

H. While the stay is in effect for particular Bicycles and Related Products, the Office of Compliance shall not prosecute any person for any violation of laws administered by the Commission based on the lead content of any part of, or replacement part for, those Bicycles and Related Products to which the stay applies, including provisions relating to certification of compliance, reporting of noncompliances, or the sale, offering for sale, importation, or exportation.

I. While the stay is in effect for particular Bicycles and Related Products, the Commission will not refuse admission into the United States of such Bicycles and Related Products based on the lead content of any part of such Bicycles and Related Products to which the stay applies or any replacement part for such Bicycles and Related Products as described in paragraph C.

J. This stay does not apply to Bicycles and Related Products that are stockpiled by the manufacturer, as that term is defined by 15 U.S.C. 2058(g)(2), and stockpiling is strictly prohibited.

K. The Commission hereby delegates to the Assistant Executive Director, Office of Compliance and Field Operations, authority to implement the stay of enforcement as specified here and the authority to modify provisions in individual cases where necessary due to unique or unforeseen circumstances.

The stay in no way limits the Commission's ability to take action with regard to Bicycles and Related Products for other safety-related issues including, but not limited to, failure to comply with the ban on lead-containing paint.

Dated: June 25, 2009.
