Title of Collection: American Time Use Survey (ATUS).

OMB Control Number: 1220-0175.

Affected Public: Individuals or households.

Total Estimated Number of Respondents: 13,240.

Total Estimated Annual Burden Hours: 4,358.

Total Estimated Annual Costs Burden: \$0.

Description: The ATUS is the Nation's first federally administered, continuous survey on time use in the United States. It measures, for example, time spent with children, working, sleeping, or doing leisure activities. In the United States, several existing Federal surveys collect income and wage data for individuals and families, and analysts often use such measures of material prosperity as proxies for quality of life. Time-use data substantially augment these quality-of-life measures. The data also can be used in conjunction with

wage data to evaluate the contribution of non-market work to national economies. This enables comparisons of production between nations that have different mixes of market and non-market activities. The ATUS develops nationally representative estimates of how people spend their time. Respondents also report who was with them during activities, where they were, how long each activity lasted, and if they were paid. All of this information has numerous practical applications for sociologists, economists, educators, government policymakers, businesspersons, health researchers, and others.

The ATUS data are collected on an ongoing, monthly basis, allowing analysts to identify changes in how people spend their time. The survey sample is drawn from households completing their final month of interviews for the Current Population Survey (CPS). Households are selected to ensure a representative demographic sample, and one individual from each household is selected to take part in one Computer Assisted Telephone Interview. The interview asks respondents to report all of their activities for one pre-assigned 24-hour day, the day prior to the interview. A short series of summary questions and CPS updates follows the core time diary collection.

For additional information, see related notice published at Vol. 74 FR 14160 on March 30, 2009.

Darrin A. King,

Departmental Clearance Officer.
