SUPPLEMENTARY INFORMATION:**Background**

On December 24, 2008, the Department of Commerce ("Department") published a notice of initiation of an administrative review of fresh garlic from the People's Republic of China covering the period November 1, 2007 through October 31, 2008. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews, and Request for Revocation in Part*, 73 FR 79055 (December 24, 2008). The preliminary results of this administrative review are currently due no later than August 2, 2009.

Extension of Time Limit for Preliminary Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), the Department shall issue preliminary results in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the order for which the administrative review was requested. However, if the Department determines that it is not practicable to complete the review within the aforementioned specified time limits, section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2) allow the Department to extend the 245-day period to 365 days.

Pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2), we determine that it is not practicable to complete the results of this review within the original time limit. The Department needs additional time to analyze a significant amount of information, which was recently submitted, and to determine whether any additional information is required.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department has decided to extend the time limit for the preliminary results from 245 days to 365 days. The preliminary results will now be due no later than November 30, 2009. Unless extended, the final results continue to be due 120 days after the publication of the preliminary results, pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(1) of the Department's regulations.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: July 8, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION:**Background**

On March 9, 2009, the Department published *Stainless Steel Bar From*

Brazil: Preliminary Results of Antidumping Duty Administrative Review, 74 FR 10022 (March 9, 2009), in the **Federal Register** (*Preliminary Results*). The administrative review covers one producer/exporter of the subject merchandise, Villares Metals S.A. (VMSA).

We invited parties to comment on the *Preliminary Results*. On April 20, 2009, we received a case brief from the petitioners (Carpenter Technology Corporation, Valbruna Slater Stainless, Inc., Electralloy Corporation, a Division of G.O. Carlson, Inc., and Universal Stainless). On April 27, 2009, we received a rebuttal brief from the respondent, VMSA. We did not receive a request for a hearing.

The Department is conducting this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The scope of the order covers stainless steel bar (SSB). The term SSB with respect to the order means articles of stainless steel in straight lengths that have been either hot-rolled, forged, turned, cold-drawn, cold-rolled or otherwise cold-finished, or ground, having a uniform solid cross section along their whole length in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles, hexagons, octagons or other convex polygons. SSB includes cold-finished SSBs that are turned or ground in straight lengths, whether produced from hot-rolled bar or from straightened and cut rod or wire, and reinforcing bars that have indentations, ribs, grooves, or other deformations produced during the rolling process. Except as specified above, the term does not include stainless steel semi-finished products, cut-length flat-rolled products (*i.e.*, cut-length rolled products which if less than 4.75 mm in thickness have a width measuring at least 10 times the thickness, or if 4.75 mm or more in thickness having a width which exceeds 150 mm and measures at least twice the thickness), wire (*i.e.*, cold-formed products in coils, of any uniform solid cross section along their whole length, which do not conform to the definition of flat-rolled products), and angles, shapes and sections. The SSB subject to the order is currently classifiable under subheadings 7222.10.0005, 7222.10.0050, 7222.20.0005, 7222.20.0045, 7222.20.0075, and 7222.30.0000 of the Harmonized Tariff Schedule of the United States (HTSUS).
