Certain Tow-Behind Lawn Groomers and Certain Parts Thereof From the People’s Republic of China: Countervailing Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce (the Department) and the U.S. International Trade Commission (ITC), the Department is issuing a countervailing duty order on certain tow-behind lawn groomers and certain parts thereof (lawm groomers) from the People’s Republic of China (PRC).

DATES: Effective Date: August 3, 2009.

FOR FURTHER INFORMATION CONTACT: Gene Calvert or Jun Jack Zhao, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482–3586 and (202) 482–1396, respectively.

SUPPLEMENTARY INFORMATION:

Background

In accordance with section 705(d) of the Tariff Act of 1930, as amended (the Act), on June 19, 2009, the Department published its final determination in the countervailing duty investigation of lawn groomers from the PRC. See Certain Tow-Behind Lawn Groomers and Certain Parts Thereof From the People’s Republic of China: Final Affirmative Countervailing Duty Determination, 74 FR 29180 (June 19, 2009).

On July 27, 2009, the ITC notified the Department of its final determination, pursuant to section 705(b)(1)(A)(i) of the Act, that an industry in the United States is materially injured by reason of subsidized imports of subject merchandise from the PRC. See Certain Tow-Behind Lawn Groomers from China, USITC Pub. 4090, Investigation Nos. 701–TA–457 and 731–TA–1153 (Final) (July 2009).

Scope of the Order

The scope of this order covers certain non-motorized tow behind lawn groomers, manufactured from any material, and certain parts thereof. Lawn groomers are defined as lawn sweepers, aeration, dethatchers, and spreaders. Unless specifically excluded, lawn groomers that are designed to perform at least one of the functions listed above are included in the scope of this order, even if the lawn groomer is designed to perform additional non-subject functions (e.g., mowing).

All lawn groomers are designed to incorporate a hitch, of any configuration, which allows the product to be towed behind a vehicle. Lawn groomers that are designed to incorporate both a hitch and a push handle, of any type, are also covered by the scope of this order. The hitch and handle may be permanently attached or removable, and they may be attached on opposite sides or on the same side of the lawn mower. Lawn groomers designed to incorporate a hitch, but where the hitch is not attached to the lawn mower, are also included in the scope of the order.

Lawn sweepers consist of a frame, as well as a series of brushes attached to an axle or shaft which allows the brushing component to rotate. Lawn sweepers also include a container (which is a receptacle into which debris swept from the lawn or turf is deposited) supported by the frame. Aerators consist of a frame, as well as
For purposes of this order, “unassembled lawn groomers” consist of either (1) all parts necessary to make a fully assembled lawn grouser, or (2) any combination of parts, constituting a less than complete, unassembled lawn mower, with a minimum of two of the following “major components”: (1) An assembled or unassembled brush housing designed to be used in a lawn sweeper, where a brush housing is defined as a component housing the brush assembly, and consisting of a wrapper which covers the brush assembly and two end plates attached to the wrapper; (2) A sweeper brush; (3) An aerator or dethatcher weight tray, or similar component designed to allow weights of any sort to be added to the unit; (4) A spreader hopper; (5) A rotating spreader plate or agitator, or other component designed for distributing media in a lawn spreader; (6) Dethatcher tines; (7) Aerator spikes, plugs, or other aerating component; or (8) A hitch, defined as a complete hitch assembly comprising of at least the following two major hitch components, tubing and a hitch plate regardless of the absence of minor components such as pin or fasteners. Individual hitch component parts, such as tubing, hitch plates, pins or fasteners are not covered by the scope.

Also included in the scope of the order are modular units, consisting of a chassis that is designed to incorporate a component, tubing, a hitch, where the hitch may or may not be included, which allows modules that perform sweeping, aerating, dethatching, or spreading operations to be interchanged. Modular units—when imported with one or more lawn grooming modules—with a fully assembled net weight (i.e., without packing, additional weights, or accessories) of 200 pounds or less are covered by the scope of the order. The major components or parts of lawn groomers that are individually covered by this order under the term “certain parts thereof” are: (1) Brush housings, where the wrapper and end plates incorporating the brush assembly may be individual pieces or a single piece; and (2) weight trays, or similar components designed to allow weights of any sort to be added to a dethatcher or an aerator unit.

The scope of this order specifically excludes the following: (1) Agricultural implements designed to work (e.g., plow, burrow, till, etc.) soil, such as cultivators, harrows, and plows; (2) lawn or farm carts and wagons that do not groom lawns; (3) grooming products incorporating a motor or an engine for the purpose of operating and/or propelling the lawn grouser; (4) lawn groomers that are designed to be hand held or are designed to be attached directly to the frame of a vehicle, rather than towed; (5) “push” lawn grooming products that incorporate a push handle rather than a hitch, and which are designed solely to be manually operated; (6) dethatchers with a net assembled weight (i.e., without packing, additional weights, or accessories) of more than 100 pounds, or lawn groomers—sweepers, aerators, and spreaders—with a net fully-assembled weight (i.e., without packing, additional weights, or accessories) of more than 200 pounds; and (7) lawn rollers designed to flatten grass and turf, including lawn rollers which incorporate an aerator component (e.g., “drum-style” spike aerators).
countervailing duties, due to the Department’s discontinuation, effective March 24, 2009, of the suspension of liquidation.

In accordance with section 706 of the Act, the Department will direct CBP to reinstitute the suspension of liquidation for lawn groomers from the PRC, effective the date of publication of the ITC’s notice of final determination in the Federal Register, and to assess, upon further advice by the Department pursuant to section 706(a)(1) of the Act, countervailing duties for each entry of the subject merchandise in an amount based on the net countervailing subsidy rates for the subject merchandise, except for subject merchandise entered by Princeway Furniture (Dong Guan) Co., Ltd. and Princeway Limited, whose net subsidy rate is de minimis and, hence, is excluded from this order. This exclusion will apply only to subject merchandise both produced and exported by Princeway Furniture (Dong Guan) Co., Ltd. and Princeway Limited, on or after the date of publication of the ITC’s final injury determination in the Federal Register. CBP must require,1 at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the rates noted below:
