

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act¹¹ and Rule 19b-4(f)(6) thereunder.¹² Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹³ and Rule 19b-4(f)(6)(iii) thereunder.¹⁴

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of the filing.¹⁵ However, pursuant to Rule 19b-4(f)(6)(iii),¹⁶ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because doing so will allow the Exchange to extend the Penny Pilot Program without interruption and expand the Penny Pilot Program on the same schedule as the other exchanges. Accordingly, the Commission designates the proposed rule change as operative upon filing with the Commission.¹⁷

In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change along with a brief description and the text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this pre-filing requirement.

¹⁷ For purposes only of waiving the operative delay for this proposal, the Commission has considered the proposed rule's impact on

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-61101; File No. SR-ISE-2009-99]

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Amending the Direct Edge ECN Fee Schedule

December 2, 2009.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 30, 2009, the International Securities Exchange, LLC (the "Exchange" or the "ISE") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Direct Edge ECN's ("DECN") fee schedule for ISE Members³ to (i) amend its fee schedule to reflect pass through charges of other market centers and (ii) make technical changes to the fee schedule. All of the changes described herein are applicable to ISE Members.

All of the changes described herein are applicable to ISE Members. The text of the proposed rule change is available on the Exchange's Internet Web site at <http://www.ise.com>.

² 17 CFR 240.19b-4.

³ References to ISE Members in this filing refer to DECEN Subscribers who are ISE Members.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

DECN, a facility of ISE, operates two trading platforms, EDGX and EDGA. On October 1, 2009,⁴ the Exchange added new fee categories for the INET order type. When a member routes to Nasdaq using the INET order type and removes liquidity on Tapes A or C, the member incurs a fee of \$0.0030 on either EDGA or EDGX. Such situation yields Flag "L". The INET order type sweeps the EDGA or EDGX book, and routes the remainder to Nasdaq. If the order is marketable, it removes liquidity from the EDGA or EDGX book, as applicable, first. If the order is non-marketable, the order posts on Nasdaq. With regards to a Member's use of the INET order type for Tapes A or C securities, Members routing an ADV: (i) Less than 5,000,000 shares are currently charged \$0.0030 per share, as described in the schedule; (ii) equal to or greater than 5,000,000 shares but less than 20,000,000 shares are currently charged \$0.0027 per share; (iii) equal to or greater than 20,000,000 shares but less than 30,000,001 shares are currently charged \$0.0026 per share; and (iv) equal to or greater than 30,000,001 shares are currently charged \$0.0025 per share. The rates, in all cases, are calculated for shares removed from Nasdaq. The Exchange believes that these tier-based rates incent Members to sweep the EDGA or EDGX book first and then offer a discounted rate to Nasdaq's rates if the remainder of the order is routed to Nasdaq. These discounted rates arise in part from reduced administrative costs associated with certain volume levels.

The Exchange proposes to amend these fees in order to reflect changes to

the actual transaction fees assessed by away markets. Specifically, the Exchange is proposing to amend its fee schedule to reflect changes to Nasdaq's best removal tier rate. For example, on November 1, 2009, the best removal tier rate increased on Nasdaq from \$0.0027 per share executed to \$0.0028 per share executed for Tape A & C securities.⁵ The Exchange now proposes to amend its fee schedule so that when Nasdaq's best removal tier rate changes, EDGA and EDGX's fees change as well, in lock step. The new language is proposed to read as follows:

Subscribers routing an average daily volume ("ADV"): (i) Less than 5,000,000 shares will be charged \$0.0030 per share, as described in the schedule; (ii) equal to or greater than 5,000,000 shares but less than 20,000,000 shares will be charged *Nasdaq's best removal tier rate* per share; (iii) equal to or greater than 20,000,000 shares but less than 30,000,001 shares will be charged *Nasdaq's best removal tier rate—\$0.0001* per share; and (iv) equal to or greater than 30,000,001 shares will be charged *Nasdaq's best removal tier rate—\$0.0002* per share. The rates, in all cases, are calculated for shares removed from Nasdaq. (emphasis added)

For the month of December this would equate to \$0.0028 per share for (ii), above, \$0.0027 per share for (iii), above, and \$0.0026 per share for (iv), as described above.

In addition, the Exchange proposes to make technical changes to the fee schedule. Effective November 1, 2009,⁶ the Exchange amended the meaning of several flags. In particular, the N and W flags are no longer used to reflect activity outside of regular market hours. The Exchange adopted flags 3–7 to reflect pre- and post-market activity. Therefore, the Exchange proposes to correct a reference in footnote 1 to the fee schedule to reflect this change. The new language is proposed to read as follows: In addition, subscribers can also qualify for a rebate of \$0.0032 per share for all liquidity posted on EDGX if they add or route at least 10,000,000 shares of average daily volume prior to 9:30 a.m. or after 4 p.m. (includes all flags except 6) AND add a minimum of 75,000,000 shares of average daily volume on EDGX in total, including during both market hours and pre and post-trading hours. (emphasis added)

⁵ See Securities Exchange Act Release No. 60959 (November 6, 2009), 74 FR 58672 (November 13, 2009)(SR-NASDAQ-2009-096).

⁶ See Securities Exchange Act Release No. 60914 (November 2, 2009), 74 FR 57726 (November 9, 2009)(SR-ISE-2009-88).

The changes discussed in this filing will become operative on December 1, 2009.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,⁷ in general, and furthers the objectives of Section 6(b)(4),⁸ in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its members and other persons using its facilities. In particular, providing tier-based rates for Members provide pricing incentives to market participants that route orders to DECEN, allowing DECEN to remain competitive. This tier-based rate arises in part from reduced administrative costs associated with certain volume levels. ISE notes that DECEN operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to DECEN. ISE believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to those members that opt to direct orders to DECEN rather than competing venues. Additionally, ISE believes that the proposed rates are equitable in that they apply uniformly to all Members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Act⁹ and Rule 19b-4(f)(2)¹⁰ thereunder. At any time within 60 days

DEPARTMENT OF STATE

[Public Notice 6834]

Review of Unused Presidential Permit: Port of Brownsville (Texas) International Bridges

SUMMARY: More than 12 years ago, the Department of State issued to the Brownsville Navigation District, a Presidential permit for two new international bridges, one for vehicular traffic and one for railroad traffic, between Brownsville, Texas, and Matamoros, Tamaulipas, Mexico. To date, the permit remains unused. The Department and other federal agencies are currently evaluating whether to revoke, modify, or retain as written this long-unused permit given the change of circumstances in the project area, development of nearby projects, inaction by the permittee, and apparent lack of interest in pursuing the corresponding projects in Mexico. The review is not a judgment regarding either the need for a new bridge or the merits of the Brownsville Navigation District's plan, but rather represents a recognition that the project for which this permit was issued has gone unimplemented longer than similar projects and, due to the passage of time, may no longer be viable. The Brownsville Navigation District provided a project status update, which is included in the Supplementary Information section below.

DATES: Interested members of the public are invited to submit written comments regarding this permit review on or before February 8, 2010 to Mr. Stewart Tuttle, U.S.-Mexico Border Affairs Coordinator, via e-mail at WHA-BorderAffairs@state.gov, or by mail at WHA/MEX—Room 3909, Department of State, 2201 C St., NW., Washington, DC 20520.

Information about Presidential permits is available at <http://www.state.gov/p/wha/rt/permit/>.

SUPPLEMENTARY INFORMATION: Executive Order 11423 of August 16, 1968, as amended, authorizes the Secretary of State to issue Presidential permits for the construction, connection, operation, and maintenance of facilities crossing the international borders of the United States, including, but not limited to, bridges and pipelines connecting the United States with Canada or Mexico.
