This one day forum provides an opportunity for Federal, State, Tribal, local and non-governmental partners to inform the Commission as it prepares its Final Report to the President and the Congress, due October 2010. Key issues that will be discussed at the workshop include children’s access to medical care, the provision of mental health services to children, and barriers to information and data sharing.

SUPPLEMENTARY INFORMATION: The National Commission on Children and Disasters is an independent Commission that shall conduct a comprehensive study to examine and assess the needs of children as they relate to preparation for, response to, and recovery from all hazards, building upon the evaluations of other entities and avoiding unnecessary duplication by reviewing the findings, conclusions, and recommendations of these entities. The Commission shall then submit a report to the President and the Congress on the Commission’s independent and specific findings, conclusions, and recommendations to address the needs of children as they relate to preparation for, response to, and recovery from all hazards, including major disasters and emergencies.
