competitiveness, as indicated by the
extent to which the investment:

high potential companies,” which are
deﬁned as companies with fewer than

Investments that grow the “Green Economy” (5%). Priority will be given to an application whose objectives support

the “green economy.” Such projects would:
• Promote renewable energy, energy
eﬃciency, and/or reuse, recycling, or
restoration that result in a green end-

energy commercialization center);

the U.S. Green Building Council’s
Leadership in Energy and
Environmental Design (LEED) system).

Applications will be evaluated to the
extent they produce identiﬁed green

energy capacity per year, carbon
emission offsets, overall energy savings,
or third-party veriﬁed green building
certiﬁcations.
