Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109–364) with regard to limitations on the performance of lead system integrator functions by DoD contractors. On January 28, 2008, Section 802 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110–181) placed additional limitations on DoD’s use of lead system integrators. A second interim rule was published on July 15, 2009, amending the first interim rule. One comment was received after the comment period closed. The comment concerned the definitions of lead system integrator with system responsibility and lead system integrator without system responsibility. The comment was addressed in the interim rule published on July 15, 2009.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because application of the rule is limited to contractors performing lead system integrator functions for major DoD systems.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the proposed changes do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, et seq.

List of Subjects in 48 CFR Parts 225 and 252

Government procurement.

Amy G. Williams,
Editor, Defense Acquisition Regulations System.

Accordingly, the interim rule amending 48 CFR Parts 209, 237 and 252, which was published at 74 FR 34268 on July 15, 2009, is adopted as a final rule without change.
