visitor experience. Importantly, in 2003, NARA completed a two year renovation of the Rotunda and constructed additional exhibit space at the same time. Since the rededication of the Rotunda six years ago, visitors are no longer forced to shuffle past the documents at a regimented pace as the commenter states. Rather, visitors are permitted to enter the Rotunda in small groups to view the documents in any order they wish for as long as they wish. This system permits individuals and families to study the documents and discuss their meaning while also permitting visitors with limited time to satisfy their curiosity with a quick glance.

For the past five years, the staff has monitored the NAE’s informal visitor comment log as well as letters received from visitors requesting and demanding that NARA eliminate all photography. Comments such as these vastly outnumber those requesting permission for flash photography usage. The requests from visitors to eliminate photography usually ask us to do so for three reasons: the ultraviolet light is detrimental to the documents; visitors using cameras do not bother to look at or read the documents; and those taking photographs keep other visitors from viewing the exhibits as they use excessive amounts of time lining up and blocking people from intruding into their camera shot.

The National Archives serves roughly a million visitors every year. During peak tourist season, the NAE can accommodate up to 4,500 each day. Over the past five years, the agency has monitored visitor traffic flow in the Rotunda of the NAE on a continual basis to improve the visitor experience. It has long been noted that visitors with cameras disrupt and dramatically slow down the flow of visitors and frustrate many of the eager visitors who are forced to wait to view our country’s founding documents. By eliminating all filming, photographing and videotaping by the public in the exhibit areas, NARA expects to eliminate delays, and provide its visitors with a more rewarding experience. For those visitors who wish to take home an image of the documents, the National Archives Shop has facsimiles of various sizes and price ranges available for purchase. NARA also provides visitors with the ability to access and print digital images of the documents from the Boeing Learning Center free of charge. Finally, NARA has posted high quality images of documents on display at the NAE on its Web site http://www.archives.gov; visitors can download or print these images from their personal computers at no cost.

One final comment dealing with enforcement of the proposed rule suggested that any visitor with a photographic device on their person would be turned away and that overzealous security guards might subject visitors to harassment or bodily harm. NARA can assure this commenter that those hypothetical behaviors and policies will not happen. Visitors with photographic devices will be allowed to enter the building with their cameras, cell phones, and other photographic equipment. However, they will be met by appropriate signage and security personnel throughout the NAE to explain the “no photography” rule. In the event that a visitor makes the mistake of displaying or attempting to use a photographic device, they would first be warned that such behavior is not allowed. If, after they have received a warning, they continue to ignore the “no photography” rule they will be politely escorted from the building.

BILLING CODE 7515–01–P

LIBRARY OF CONGRESS

Copyright Office

37 CFR Part 202

[DOcket No. RM 2009–3]

Mandatory Deposit of Published Electronic Works Available Only Online

AGENCY: Copyright Office, Library of Congress.

ACTION: Interim Rule.

SUMMARY: The Copyright Office of the Library of Congress is adopting an interim regulation governing mandatory deposit of electronic works published in the United States and available only online. The regulation establishes that online-only works are exempt from mandatory deposit until a demand for deposit of copies or phonorecords of such works is issued by the Copyright Office. It also states that categories of online-only works subject to demand will first be identified in the regulations, and names electronic serials as the first such category for which demands will issue. In addition, the regulation sets forth the process for issuing and responding to a demand for deposit, amends the definition of a “complete copy” of a work for purposes of mandatory deposit of online–only works, and establishes new best edition criteria for electronic serials available only online.

EFFECTIVE DATE: February 24, 2010.

SUPPLEMENTARY INFORMATION: The fundamental goal of this rulemaking proceeding is to establish a qualified exemption from the mandatory deposit requirement of 17 U.S.C. 407 for works available only online. In July 2009, the Copyright Office published a Notice of Proposed Rulemaking in the Federal Register, 74 FR 34286 (July 15, 2009), seeking public comment on proposed amendments to its mandatory deposit regulations at 37 CFR 202.19 and 202.24, and Appendix B of Chapter 37. The notice proposed an exemption from
