[Docket No. EL10–41–000]

EPIC Merchant Energy NJ/PA, LP, SESCO Enterprises, LLC, Coaltrain Energy, LP, Complainants, v. PJM Interconnection, LLC, Respondent; Notice of Complaint

February 17, 2010.

Take notice that on February 9, 2010, pursuant to section 206 of the Federal Power Act and Rule 206 of the Commission’s Rules of Practice and Procedure, 18 CFR 385.206 (2009), EPIC Merchant Energy NJ/PA, LP, SESCO Enterprises, LLC, and Coaltrain Energy LP (Complainants) filed a formal complaint against PJM Interconnection, LLC (Respondent), alleging that the Respondent is improperly allocating physical transmission line losses to virtual transactions and also distributing over-collected transmission line losses in a manner that discriminates against virtual Market Participants.

Complainants certify that copies of the complaint were served on the contacts for the Respondent as listed on the Commission’s list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent’s answer and all interventions, or protests must be filed on or before the comment date. The Respondent’s answer, motions to intervene, or protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the

Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at http://www.ferc.gov, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8650.

Comment Date: 5 p.m. Eastern Time on March 1, 2010.

Tatanka Wind Power, LLC, Complainant, v. Montana-Dakota Utilities Company, a Division of MDU Resources Group, Inc., Respondent; Notice of Complaint

February 17, 2010.

Take notice that on February 9, 2010, pursuant to section 206 of the Rules and Practice and Procedure, 18 CFR 385.206 and Order Nos. 2003 and 2003–A,¹ Tatanka Wind Power, LLC (Complainant) filed a formal complaint against Montana-Dakota Utilities Company, a division of MDU Resources Group, Inc. (Respondent), alleging that the Respondent improperly failed to repay Complainant for 100 percent of its costs incurred for network upgrades.

Tatanka certifies that copies of the complaint were served on the contacts for the Respondent as listed on the Commission’s list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent’s answer and all interventions, or protests must be filed on or before the comment date. The Respondent’s answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the

[Docket No. PF10–1–000]

National Fuel Gas Supply Corporation; Notice of Intent To Prepare an Environmental Assessment for the Planned Line N Projects, Notice of Public Scoping Meeting, and Request for Comments on Environmental Issues

February 18, 2010.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Line N Relocation and Interconnect Project and the Line N Compressor Installation Expansion Project (the Line N Projects), proposed by National Fuel Gas Supply Corporation (National Fuel), in Greene and Washington Counties, Pennsylvania (PA). The EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process we will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues need to be evaluated in the EA. Please note that the scoping period will close on March 22, 2010.

Comments may be submitted in written form or verbally. Further details on how to submit written comments are provided in the Public Participation section of this notice. In lieu of or in addition to written comments, we invite you to attend the public scoping meeting scheduled as follows:

**FERC Public Scoping Meeting—Line N Projects**

March 3, 2010, 6 p.m., Graysville Elementary, 1029 West Roy Furman Highway, Graysville, PA 15337.

This notice is being sent to the Commission’s current environmental mailing list for this project, which includes affected landowners; Federal, State, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with State law.

A fact sheet prepared by the FERC entitled “An Interstate Natural Gas Facility On My Land? What Do I Need To Know?” is available for viewing on the FERC Web site (http://www.ferc.gov/for-citizens/citizen-guides.asp). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission’s proceedings.

**Summary of the Planned Project**

National Fuel has proposed to construct, operate, and maintain the Line N Projects, which consist of the Line N Relocation and Interconnect Project (Line N R&I Project) and the Line N Compressor Installation Expansion Project (Line N CIE Project), located in Greene and Washington Counties, PA. The Line N Projects consists of the following facilities:

- The Line N R&I Project consists of the construction of approximately 17.5 miles of new 20-inch diameter natural gas pipeline and a new metering and regulating facility in Green County, PA.
- The Line N CIE Project consists of the construction of the new 5,000 horsepower Buffalo Compressor Station, and replacement of two miles of 20-inch diameter natural gas replacement pipeline located in Washington County, PA.

The general location of the project facilities is shown in Appendix 1.2

**Land Requirements for Construction**

Construction of the planned facilities would disturb about 157.6 acres of land for the aboveground facilities and the pipeline. Following construction, about 119.4 acres would be maintained for permanent operation of the project’s facilities; the remaining acreage would be restored and allowed to revert to former uses.

**The EA Process**

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to discover and address concerns the public may have about proposals. This process is referred to as “scoping”. The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this notice, the Commission requests public comments on the scope of the issues to address in the EA. All comments received will be considered during the preparation of the EA. To ensure your comments are considered, please carefully follow the instructions in the

---
