noted that the Commission’s regulations provide mechanisms for individual licensees, with good cause, to apply for relief from the compliance date. (Reference: June 4, 2009, letter from R.W. Borchardt, NRC, to M.S. Fertel, Nuclear Energy Institute, ADAMS Accession No. ML091410404). The licensee’s request for an exemption is therefore consistent with the approach set forth by the Commission and discussed in the June 4, 2009, letter.

WCGS Schedule Exemption Request

The licensee provided detailed information in its letter dated December 15, 2009, requesting an exemption. The licensee describes a comprehensive plan to install equipment related to certain requirements in the new Part 73 rule and provides a timeline for achieving full compliance with the new regulation. The submittal contains security-related and safeguards information regarding the site security plan, details of the specific requirements of the regulation for which the site cannot achieve compliance by the March 31, 2010, deadline, justification for the extension request, a description of the required changes to the site’s security configuration, and a timeline with critical path activities that would bring the licensee into full compliance by December 31, 2010. The timeline provides dates indicating when (1) the various phases of the project begin and end (i.e., design, field construction and (2) critical equipment will be ordered, installed, tested and become operational. Notwithstanding the scheduler exemptions for these limited requirements, the licensee will continue to be in compliance with all other applicable physical security requirements as described in 10 CFR 73.55 and reflected in its current NRC approved physical security program. By December 31, 2010, WCGS will be in full compliance with the regulatory requirements of 10 CFR 73.55, as issued on March 27, 2009.

4.0 Conclusion for Part 73 Schedule Exemption Request

The NRC staff has reviewed the licensee’s submittals and concludes that the licensee has provided adequate justification for its request for an extension of the compliance date to December 31, 2010, for two specified requirements of 10 CFR 73.55.

Accordingly, the Commission has determined that pursuant to 10 CFR 73.5, “Specific exemptions,” an exemption from the March 31, 2010, compliance date is authorized by law and will not endanger life or property or the common defense and security, and is otherwise in the public interest. Therefore, the Commission hereby grants the required exemption.

The long-term benefits that will be realized when the WCGS equipment installation is complete justifies exceeding the full compliance date in the case of this particular licensee. The security measures that WCGS needs additional time to implement, are new requirements imposed by March 27, 2009, amendments to 10 CFR 73.55, and are in addition to those required by the security orders issued in response to the events of September 11, 2001. Therefore, it is concluded that the licensee’s actions are in the best interest of protecting the public health and safety through the security changes that will result from granting this exemption.

As per the licensee’s request and the NRC’s regulatory authority to grant an exemption from the March 31, 2010, deadline for the two requirements specified in WCNOC letter dated December 15, 2009, the licensee is required to be in full compliance by December 31, 2010. In achieving compliance, the licensee is reminded that it is responsible for determining the appropriate licensing mechanism (i.e., 10 CFR 50.54(p) or 10 CFR 50.90) for incorporation of all necessary changes to its security plans.

Pursuant to 10 CFR 51.32, “Finding of no significant impact,” the Commission has previously determined that the granting of this exemption will not have a significant effect on the quality of the human environment (75 FR 5631; February 3, 2010). This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 26th day of February 2010.
For the Nuclear Regulatory Commission.
Allen G. Howe,
Acting Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

SMALL BUSINESS ADMINISTRATION
[Disaster Declaration #12053 and #12054]

Iowa Disaster #IA–00022
AGENCY: U.S. Small Business Administration.
ACTION: Notice.

SUMMARY: This is a Notice of the Presidential declaration of a major disaster for Public Assistance Only for the State of Iowa (FEMA—1877—DR), dated 02/25/2010.

Incident: Severe Winter Storm and Snowstorm.

DATES: Effective Date: 02/25/2010.
Physical Loan Application Deadline Date: 04/26/2010.
Economic Injury (EIDL) Loan Application Deadline Date: 11/25/2010.

ADDRESSES: Submit completed loan applications to: U.S. Small Business Administration, Processing and Disbursement Center, 14925 Kingsport Road, Fort Worth, TX 76155.

SUPPLEMENTARY INFORMATION: Notice is hereby given that as a result of the President’s major disaster declaration on 02/25/2010, Private Non-Profit organizations that provide essential services of governmental nature may file disaster loan applications at the address listed above or other locally announced locations.

The following areas have been determined to be adversely affected by the disaster:

Primary Counties:

The Interest Rates are:

<table>
<thead>
<tr>
<th></th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>For Physical Damage: Non-Profit Organizations With Credit Available Elsewhere</td>
<td>3.625</td>
</tr>
<tr>
<td>Non-Profit Organizations Without Credit Available Elsewhere</td>
<td>3.000</td>
</tr>
<tr>
<td>For Economic Injury: Non-Profit Organizations With Credit Available Elsewhere</td>
<td>3.000</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The number assigned to this disaster for physical damage is 12053B and for economic injury is 12054B.

(Catalog of Federal Domestic Assistance Numbers 59002 and 59008)

James E. Rivera,
Associate Administrator for Disaster Assistance.
