Federal Energy Regulatory

Commission

[Project No. 2244–000]

Energy Northwest; Notice of

Authorization for Continued Project

Operation

March 4, 2010.

On March 7, 2008, Energy Northwest,

licensee for the Packwood Lake

Hydroelectric Project, filed an

Application for a New License pursuant

to the Federal Power Act (FPA) and the

Commission’s regulations thereunder.

The Packwood Lake Hydroelectric

Project is located on Lake Creek, a

tributary to the Cowlitz River, in Lewis

County in southwestern Washington.

The license for Project No. 2244 was

issued for a period ending February 28,

2010. Section 15(a)(1) of the FPA, 16

U.S.C. 808(a)(1), requires the

Commission, at the expiration of a

license term, to issue from year-to-year

an annual license to the then licensee

under the terms and conditions of the

prior license until a new license is

issued, or the project is otherwise

disposed of as provided in section 15 or

any other applicable section of the FPA.

If the project’s prior license waived the

applicability of section 15 of the FPA,

then, based on section 9(b) of the

Administrative Procedure Act, 5 U.S.C.

558(c), and as set forth at 18 CFR

16.21(a), if the licensee of such project

has filed an application for a subsequent

license, the licensee may continue to

operate the project in accordance with

the terms and conditions of the license

after the minor or minor part license

expires, until the Commission acts on

its application. If the licensee of such a

project has not filed an application for

a subsequent license, then it may be

required, pursuant to 18 CFR 16.21(b),
to continue project operations until the

Commission issues someone else a

license for the project or otherwise

orders disposition of the project.

If the project is subject to section 15 of

the FPA, notice is hereby given that an

annual license for Project No. 2244 is

issued to Energy Northwest for a

period effective March 1, 2010 through

February 28, 2011, or until the issuance

of a new license for the project or other

disposition under the FPA, whichever

comes first. If issuance of a new license

(or other disposition) does not take

place on or before February 28, 2011,

notice is hereby given that, pursuant to

18 CFR 16.18(c), an annual license

under section 15(a)(1) of the FPA is

renewed automatically without further

order or notice by the Commission,

unless the Commission orders

otherwise. If the project is not subject to

section 15 of the FPA, notice is hereby

given that Energy Northwest is

authorized to continue operation of the

Packwood Lake Hydroelectric Project,

until such time as the Commission acts

on its application for a subsequent

license.
