The FAA hereby provides notice of intent to release certain airport properties, 15.819 acres at the Melbourne International Airport, Melbourne, Florida from the conditions, reservations, and restrictions as contained in a Quitclaim Deed agreement between the FAA and the City of Melbourne, dated August 6, 1947. The release of property will allow the Melbourne Airport Authority to dispose of the property for other than aeronautical purposes. The property is located in the the Southwest 1/4 of Section 21, Township 27 South, Range 37 East, Brevard County, Florida. The parcel is currently designated as non-aeronautical use. The property will be disposed of for the purpose of municipal use. The fair market value of the property has been determined by appraisal to be $1,061,211. The airport will receive fair market value for the property, which will be subsequently reinvested in another eligible airport improvement project.

Documents reflecting the Sponsor’s request are available, by appointment only, for inspection at the Melbourne International Airport and the FAA Airports District Office.

SUPPLEMENTARY INFORMATION: Section 125 of The Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (AIR–21) requires the FAA to provide an opportunity for public notice and comment prior to the “waiver” or “modification” of a sponsor’s Federal obligation to use certain airport land for non-aeronautical purposes.

DATE: Comments are due on or before April 16, 2010.

ADDRESSES: Documents are available for review at the Melbourne International Airport, and the FAA Airports District Office, 5950 Hazeltine National Drive, Suite 400, Orlando, FL 32822. Written comments on the Sponsor’s request must be delivered or mailed to: Rebecca R. Henry, Program Manager, Orlando Airports District Office, 5950 Hazeltine National Drive, Suite 400, Orlando, FL 32822–5024.

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner’s arguments in favor of relief.

Marquette Rail, LLC

[Docket Number FRA–2008–0081]

The Marquette Rail, LLC, has submitted a waiver request to permit field testing of the software-based dispatch system for low density lines identified as TrackAccess System. The waiver request addresses the requirements under 49 CFR 211.51.

TrackAccess is an electronic track occupancy system similar to the conventional block register. It is designed to protect the area of exclusive track occupancy given to roadway workers or train crew members by excluding the possibility of electronic issuance of conflicting track occupancy authorities. TrackAccess aims to reduce the potential for human errors associated with issuance of track occupancy authorities to roadway workers and train crews.

Marquette Rail, LLC, desires to commence field testing of the product on or about March 1, 2010, or as soon thereafter as practicable, contingent upon FRA’s acceptance and approval of this waiver request. Marquette Rail, LLC, is requesting a petition of regulatory relief from the following Federal regulation: 49 CFR 214.321(a)(1) Exclusive Track Occupancy.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA–2008–0081) and may be submitted by any of the following methods:

• Web site: http://www.regulations.gov. Follow the online instructions for submitting comments.

• Fax: 202–493–2551.

• Mail: Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue, SE., W12–140, Washington, DC 20590.

• Hand Delivery: 1200 New Jersey Avenue, SE., Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Communications received within 30 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility’s Web site at http://www.regulations.gov.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the document (or signing the document, if submitted on behalf of an association, business, labor union, etc.). You may review FRA’s Privacy Act Statement in the Federal Register published on April 11, 2000 [65 FR 19477] or at http://www.dot.gov/privacy.html.

Issued in Washington, DC, on March 10, 2010.

Grady C. Cothen, Jr.,
Deputy Associate Administrator for Safety Standards and Program Development.

Morton Buildings, Inc.

[Waiver Petition Docket Number FRA–2010–0015]

The Morton Buildings, Inc. (MBI) has petitioned FRA for a waiver of compliance from the requirements of 49 CFR 223.11 Safety Glazing Standards for Locomotives, 49 CFR 231.30 Locomotives used in Switching Service, 49 CFR Part 224 Reflectorization of Rail Freight Rolling Stock, and 49 CFR Part 229 Locomotive Safety Standards, for one Whiting Trackmobile. MBI is a manufacturer of steel clad buildings and the company is located in Morton, IL, with six other manufacturing locations. One of the six locations in Spencer, IA, is not served by rail and MBI provides for switching of approximately one hundred cars a year, utilizing a “Whiting Trackmobile” a self-propelled highway/rail vehicle.

MBI states in their request that they operate over 3.2 miles of former Soo Line track known as the North Railroad Spur Track, which they lease from the city of Spencer. MBI only provides service to itself, switching of cars is done in daylight hours, and they do not operate the trackmobile during inclement weather. The trackmobile is always operated in the lead position at speeds not to exceed 10 miles per hour. The approval of this request would allow for continued use of the Whiting Trackmobile for MBI operations.
