NUCLEAR REGULATORY COMMISSION

10 CFR Parts 1, 20, 30, 40, 55, 70, and 73

RIN 3150–A180

[NRC–2010–0083]

NRC Region II Address and Main Telephone Number Changes

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations to update the street address for its Region II office and to update the main telephone number. The Region II office move and telephone number change will take effect on April 12, 2010. Also, the relevant regulations that govern communications are amended to reflect that Virginia is now an Agreement State.

The street address of the NRC Region II office has been changed. The new address is incorporated into the following sections of the NRC’s regulations: §1.5(b)(2), Appendix D to 10 CFR Part 20, §§30.6(b)(2)(ii), 40.5(b)(2)(ii), 55.5(b)(2)(ii), 70.5(b)(2)(ii), and Appendix A to 10 CFR Part 73.

The telephone number for requesting NRC information has been changed. The new telephone number is incorporated into Appendix D to 10 CFR Part 20 and Appendix to Part 73 of the NRC’s regulations.

Virginia Is Now an Agreement State

In §§30.6(b)(2)(ii), 40.5(b)(2)(ii), and 70.5(b)(2)(ii), Virginia no longer appears because it is now an Agreement State.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this rule.

Paperwork Reduction Act Statement

This final rule does not contain information collection requirements and, therefore, is not subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid OMB control number.

Backfit Analysis

The NRC has determined that the backfit rule does not apply to this final rule; therefore, a backfit analysis is not required for this final rule because these amendments are administrative in nature and do not involve any provisions that would impose backfits as defined in 10 CFR Chapter I.

Congressional Review Act (CRA)

Under the CRA of 1996, the NRC has determined that this action is not a major rule and has verified this determination with the Office of Information and Regulatory Affairs of OMB.

Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective April 27, 2010. The compliance date for each SIAP, associated Takeoff Minimums, and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of April 27, 2010.
