hereby authorized to determine that circumstances no longer warrant the blocking of the property and interests in property of a person listed in the Annex to this order, and to take necessary action to give effect to that determination.

Sec. 8. This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Sec. 9. This order is effective at 12:01 a.m. eastern standard time on April 13, 2010. Barack Obama,

THE WHITE HOUSE,
April 12, 2010.

RIN 1625–AA09

Drawbridge Operation Regulation; CSX Railroad, Trout River, Mile 0.9, Jacksonville, FL

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is changing the regulation governing the operation of the CSX Railroad Bridge across the Trout River, mile 0.9, Jacksonville, Florida. This rule will allow the bridge to operate using an automated system, without an onsite bridge tender. Currently, the bridge is required to open on signal from 6 a.m. until 10 p.m.; and from 10 p.m. until 6 a.m. the draw shall open on signal if at least 12 hours notice is given.

DATES: This rule is effective June 4, 2010.

ADDRESSES: Comments and related materials received from the public, as well as documents mentioned in this preamble as being available in the docket, are part of docket USCG–2009–0249 and are available online by going to http://www.regulations.gov, inserting USCG–2009–0249 in the “Keyword” box, and then clicking “Search.” This material is also available for inspection or copying at the Docket Management
Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this proposed rule, call or e-mail Mr. Michael Lieberum,

Michael.b.lieberum@uscg.mil, Seventh Coast Guard District, Bridge Branch, 909 S.E. 1st Ave., Miami, FL 33131, telephone number 305–415–6744. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On June 4, 2009, we published a notice of proposed rulemaking (NPRM) entitled CSX Railroad, Trout River, mile 0.9, Jacksonville, FL in the Federal Register (74 FR 106). We received no comments on the proposed rule. No public meeting was requested, and none was held.

Background and Purpose

The bridge owner, CSX Railroad, has requested that the Coast Guard remove the existing regulations governing the operation of the CSX Railroad Bridge over the Trout River and allow the bridge to operate utilizing an automated system. The request is made because there are only four train transits per day that are short in duration. Under the proposed rule, the bridge would remain in the open position to vessel traffic at all times, closing only to accommodate train traffic.

The CSX Railroad Bridge is located on the Trout River, mile 0.9, Jacksonville, Florida. The current regulation governing the operation of the CSX Railroad Bridge is published in 33 CFR 117.337 and requires the bridge to open on signal from 6 a.m. until 10 p.m.; and from 10 p.m. until 6 a.m. the draw shall open on signal if at least 12 hours notice is given.

Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. This rule will provide less restrictive vessel traffic flow as the bridge will be in the open position and only lowered when a train approaches the bridge.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will have less of an impact on small entities as the bridge will be in the open position and will be closed for short periods of time as trains transit across this bridge.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), in the NPRM we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132. Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not economically significant and does not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency
REVISION OF PART 117—DRAWBRIDGE OPERATION REGULATIONS

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the publishing of an NPRM would be impracticable and contrary to public interest as immediate action is necessary to provide for the safety of life and property on navigable waters. The Coast Guard will issue broadcast notice to mariners to advise vessel operators of navigational restrictions. On-scene Coast Guard and local law enforcement vessels will also provide actual notice to mariners.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the Federal Register. Delaying the effective date would be contrary to public interest because the hazards associated with dredging projects could lead to severe injury, fatalities, and/or destruction of public property. Therefore, immediate action is needed to ensure the public's safety.

Basis and Purpose

This temporary safety zone is necessary to ensure the safety of the general public from the potential threat associated with the dredging project beginning at Tallas Island, St. Louis River. The Captain of the Port Duluth has determined this activity could pose significant risk to public safety and property. Establishing a safety zone to control vessel movement around the location of the work site will help prevent damage and injury to workers on the site, any recreational vessels, the public and help minimize the associated risks.

[Docket No. USCG–2010–0124]

RIN 1225–AA00

Safety Zone; St. Louis River, Tallas Island, Duluth, MN

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone around the Tallas Island area of the St. Louis River, Duluth, Minnesota. All vessels are prohibited from transiting the zone unless specifically authorized by the Captain of the Port or a designated representative. This temporary safety zone is necessary in order to ensure the safety of the general public from hazards associated with the dredging project.

DATES: Effective Date: this rule is effective in the CFR from May 5, 2010 until 11:59 p.m. November 30, 2010.

This rule is effective with actual notice for purposes of enforcement beginning 12:01 a.m. May 1, 2010 through 11:59 p.m. November 30, 2010.

ADDRESS: Documents indicated in this preamble as being available in the docket are part of docket USCG–2010–0124 and are available online by going to http://www.regulations.gov, inserting USCG–2010–0124 in the "Keyword" box, and then clicking "Search." They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary rule, call or e-mail LT Aaron Gross, Chief of Port Operations, MSU Duluth, Coast Guard; telephone (218) 720–5286 Ext. 111, e-mail aaron.gross@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.
