DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Safety and Occupational Health Study Section (SOHSS), National Institute for Occupational Safety and Health (NIOSH)

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC), announces the following meeting of the aforementioned committee:

**Times And Dates:**
- 8 a.m.–5 p.m., June 22, 2010. (Closed).
- 8 a.m.–5 p.m., June 23, 2010. (Closed).

**Place:** Omni Hotel, 500 California Street, San Francisco, California 94104, Telephone (415) 677–9494, Fax (415) 273–3038.

**Status:** These portions of the meeting will be closed to the public in accordance with provisions set forth in Section 552b(c)(4) and (6), Title 5 U.S.C., and the Determination of the Director, Management Analysis and Services Office, Centers for Disease Control and Prevention, pursuant to Section 10(d) Public Law 92–463.

**Purpose:** The Safety and Occupational Health Study Section will review, discuss, and evaluate grant application(s) received in response to the Institute’s standard grants review and funding cycles pertaining to research issues in occupational safety and health, and allied areas.

It is the intent of NIOSH to support broad-based research endeavors in keeping with the Institute’s program goals. This will lead to improved understanding and appreciation for the magnitude of the aggregate health burden associated with occupational injuries and illnesses, as well as to support more focused research projects, which will lead to improvements in the delivery of occupational safety and health services, and the prevention of work-related injury and illness. It is anticipated that research funded will promote these program goals.

**Matters to be Discussed:** The meeting will convene to address matters related to the conduct of Study Section business and for the study section to consider safety and occupational health-related grant applications.

**Location:** Lister Hill Auditorium, Building 38A, NIH, Bethesda, Maryland.
Purpose of the Meeting

This meeting will bring basic research scientists working on models of autoimmune disease relevant to lupus together with clinicians treating lupus patients. There are numerous mouse models of lupus, but their relevance to the actual disease is still a subject for debate. Thus it is the purpose of this meeting to have participants discuss similarities, as well as differences, in mouse models with respect to the disease with the clinicians who actually treat patients. In addition, input is encouraged from clinical attendees regarding what markers in an animal model would be most important for monitoring the disease and assessing the effectiveness of treatment. It is hoped that one consequence of this meeting might be some consensus as to what is most important in any animal model and what animal models might be most useful in developing new markers and treatments for the disease. For more information, including the agenda and registration for this conference, please see http://web.ncifcrf.gov/events/SystemicLupus/default.asp.
