Food and Nutrition Service
Title: Performance Standards and Reporting SNAP Modernization Initiatives.
OMB Control Number: 0584–NEW.
Summary of Collection: The Food, Conservation, and Energy Act of 2008 (Pub. L. 110–234), amended Section 11 of the Food and Nutrition Act of 2008, (7 U.S.C. 2020), to include a provision for the Food and Nutrition Service (FNS) to develop standards for identifying major operational changes and for States to provide any information required by the U.S. Department of Agriculture (USDA). To inform USDA’s development of such standards, this data collection will gather information from all 50 States and the District of Columbia in order to better understand how States are assessing performance of their modernization initiatives.

Need and Use of the Information: To obtain a broad view of the Supplemental Nutrition Assistance Program (SNAP) performance measures, staff from State and local SNAP offices and partner organizations will be asked to respond. Data will be collected via surveys of SNAP staff, telephone and in-person interviews of SNAP and partner staff, and aggregated administrative records collection from SNAP and partner agencies. The collected information will help FNS understand how performance standards and reporting are occurring in the States with respect to SNAP modernization. Without this data collection, FNS would not be able to effectively develop, monitor or assess standards for identifying operational changes.

Number of Respondents: 786.
Frequency of Responses: Reporting: Monthly: Other (one-time)

SUPPLEMENTARY INFORMATION: The Specialty Crop Committee was established in accordance with the Specialty Crops Competitiveness Act of 2004 under Title III, Section 303 of Public Law 108–465, as amended under the Food, Conservation, and Energy Act of 2008, under Title VII, Section 7103 of Public Law 110–246. This Committee is a permanent committee of the National Agricultural Research Extension, Education, and Economics Advisory Board. The Committee’s charge is to...
study the scope and effectiveness of research, extension, and economics programs affecting the specialty crop industry. The congressional legislation defines “specialty crops” as fruits, vegetables, tree nuts, dried fruits and nursery crops (including floriculture). In order to carry out its responsibilities effectively, the Committee is holding a stakeholder listening session. The listening session will elicit stakeholder input from industry and state representatives, researchers and educators, national organizations and institutions, local producers, and other groups about topics of relevance to research, extension or economics programs on which the Specialty Crop Committee is charged to report through the Board to the Secretary of Agriculture and Congress. The list of specific topics of interest is available on the Committee charge on the NAREEE Web site (http://nareeeab.ree.usda.gov). In addition, the Committee seeks input on the Specialty Crop Research Initiative priorities and program administration, as well as its interaction with any research undertaken by the state administered Specialty Crop Block Grant Program funded through the USDA. Several panel sessions will be organized to stimulate discussion, each relating to one or more specific issues delineated in the Committee’s charge. Each panel will be followed with questions by Committee members and opportunity for brief presentations and general discussion from the floor. An open session for further brief presentations will also be scheduled. Succinct written comments by attendees and other interested stakeholders will be welcomed as additional public input before and up to two weeks following the listening sessions. All statements will become part of the official public record of the Board’s Specialty Crop Committee.

In order to encourage input from a wide array of interested parties and stakeholders from diverse regions of the country, the Committee will host an additional listening session focused on the same topics. This session will be held in Sacramento, CA on June 10, 2010. Details regarding this meeting will be announced in the near future.

Done at Washington, DC, this 11th day of April 2010.

Molly Jahn,
Acting Under Secretary, Research, Education, and Economics.
