energy efficiency; and (3) goals of the TPCC Working Group on Renewable Energy and Energy Efficiency supporting the sector. The Strategy will be completed in September 2010 to coincide with the release of the first NEI report to the President.

The Trade Promotion Coordinating Committee—The TPCC is an interagency committee that coordinates the development of U.S. Government trade promotion policies and programs. The TPCC is composed of representatives from 20 Federal agencies. The Department of Commerce and the Department of Energy co-chair the TPCC Renewable Energy and Energy Efficiency Working Group. Other Working Group agencies include the Export-Import Bank, the Overseas Private Investment Corporation, the U.S. Trade and Development Agency, the Small Business Administration, the Departments of Agriculture, State, and Labor, and the Office of the U.S. Trade Representative.

The National Export Initiative—NEI is an Obama Administration initiative to improve conditions that directly affect the private sector’s ability to export. The NEI is intended to meet the Administration’s goal of doubling exports over the next 5 years by working to remove export barriers, by helping firms—especially small businesses—overcome the hurdles to entering new export markets, assisting with financing, and in general by pursuing a government-wide approach to export advocacy abroad, among other steps.

Director, Office of Energy and Environmental Industries, International Trade Administration, U.S. Department of Commerce.
