Historically, ACF has found that the imposition of a matching requirement on awards under certain programs results in an increased level of community support and, often, a higher profile in the community. This can contribute to the success and sustainability of the project. The Fiscal Year 2010 funding opportunity announcement for the Initiative to Reduce Long-Term Foster Care program will advise applicants on the percentage of funds that must be contributed through non-Federal resources, the composition of the match, and whether the merit of the match will be taken into consideration as a criterion in the competitive review. The administratively imposed matching requirement will apply only to new grants and their continuation grants, awarded under funding opportunity announcement HHS–2010–ACF–ACYF–CA–0022.

This matching requirement does not represent an addition to any existing matching requirements on awards made under other funding opportunity announcements issued in Fiscal Year 2008 or before. The amount and acceptable types of non-Federal resources allowed is not negotiable. However, matching may be provided as direct or indirect costs. Specific information related to the matching requirement and the competitive review process will be provided in the published funding opportunity announcement. Any unmatched Federal funds will be disallowed. Costs borne by matching contributions are subject to the regulations governing allowable costs found on the Grants Forecast Web site at http://www.hhs.gov/grantsforecast/. Published ACF funding opportunity announcements are available on http://www.Grants.gov and on the ACF Grant Opportunities Web page at http://www.acf.hhs.gov/grants/index.html.
