II. What Action is the Agency Taking?

This notice announces receipt by the Agency of an application from Ticks or Mosquitoes, LLC., the registrant, to cancel the pesticide product listed in Table 1 below.

TABLE 1.—REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product Name	Chemical Name
75771-1	Biter Fighter	Calcium Lactate and Urea

Unless the request is withdrawn by the registrant within 180 days of publication of this notice, orders will be issued canceling this product registration. Users of this product or anyone else desiring the retention of this registration should contact the registrant directly during this 180-day period.

Table 2 includes the name and address of record for the registrant of the product in Table 1, by EPA company number:

TABLE 2.—REGISTRANTS REQUESTING VOLUNTARY CANCELLATION

EPA Company No.	Company Name and Address
75771	Ticks or Mosquitoes, LLC 905 S. Kingshighway Sikeston, MO 63801

III. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

If the registrant chooses to withdraw the request for cancellation such withdrawal must be submitted in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before December 6, 2010. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product has been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier

cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. EPA's existing stocks policy (56 FR 29362) provides that: "If a registrant requests to voluntarily cancel a registration where the Agency has identified no particular risk concerns, the registrant has complied with all applicable conditions of reregistration, conditional registration, and Data Call-Ins, and the registration is not subject to a Registration Standard, Label Improvement Program, or reregistration decision, the Agency will generally permit a registrant to sell or distribute existing stocks for 1 year after the cancellation request was received. Persons other than registrant will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted."

Upon cancellation of the pesticide identified in Table 1, EPA anticipates allowing sale, distribution and use as described in this unit. Exception to this general policy will be made in specific cases when more stringent restrictions on sale, distribution, or use of the product or its ingredients have already been imposed, as in a special review action, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of request for nominations.

SUMMARY: The Science Advisory Board (SAB) Staff Office is requesting public nominations of experts to serve on potential workgroups or panels to advise the Agency on scientific and technical issues related to the Gulf of Mexico Oil Spill.

DATES: Nominations should be submitted by June 24, 2010 per instructions below.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Request for Nominations may contact Ms. Stephanie Sanzone, Designated Federal Officer (DFO), EPA Science Advisory Board (1400F), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; via telephone/voice mail (202) 343-9697; by fax at (202) 233-0643; or via e-mail at sanzone.stephanie@epa.gov. General information concerning the EPA Science Advisory Board can be found on the EPA SAB Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice, consultation, and recommendations to the EPA Administrator on the technical basis for Agency positions and regulations. As announced previously **Federal Register**, May 19, 2010, Volume 75, Number 96, Page 28009, the SAB may be asked to provide advice on a range of scientific and technical issues related to the Gulf of Mexico oil spill. To expand the pool of experts available to serve as SAB consultants, the SAB Staff Office is seeking public nominations of nationally recognized experts for potential service on SAB workgroups, panels or committees to provide advice on this critical matter. The advice will assist the Agency in developing and implementing timely and scientifically appropriate responses to oil spill contamination in the Gulf of Mexico and along the Gulf Coast. All SAB advisory activities generally comply with the provisions of the Federal Advisory Committee Act (FACA). As announced previously (**Federal Register**, May 19, 2010, Volume 75, Number 96, Page 28009), critical mission and schedule requirements may preclude the full 15 days notice in the **Federal Register** prior to advisory meetings, pursuant to the final rule on Federal Advisory Committee Management codified at 41 CFR 102-3.150. However, information on Gulf of Mexico oil spill meetings, as well as experts selected for service will be

posted on the SAB Web site at <http://www.epa.gov/sab> as they are available. *Nominees will be invited to serve based on:* Scientific and technical expertise, knowledge, and experience; availability and willingness to serve; absence of financial conflicts of interest; and scientific credibility and impartiality.

Request for Nominations: The SAB Staff Office is requesting nominations of nationally and internationally recognized experts with demonstrated research or operational experience assessing the environmental impacts and associated mitigation of impacts due to oil spills, oil products, oil constituents, and dispersants in air and water (including wetlands) media. Appropriate expertise may include one or more of the following disciplines: Chemistry; fate, transport and exposure assessment; toxicology; public health; ecology; ecotoxicology; risk assessment; engineering; and economics.

Process and Deadline for Submitting Nominations: Any interested person or organization may nominate qualified individuals for possible service in the areas of expertise described above. Self-nominations are encouraged. Nominations should be submitted in electronic format (which is preferred over hard copy) following the instructions for "Nominating Experts to Advisory Panels and Ad Hoc Committees Being Formed" provided on the SAB Web site. The instructions can be accessed through the "Nomination of Experts" link on the blue navigational bar on the SAB Web site at <http://www.epa.gov/sab>. To receive full consideration, nominations should include all of the information requested.

EPA's SAB Staff Office requests: contact information about the person making the nomination; contact information about the nominee; the disciplinary and specific areas of expertise of the nominee; the nominee's curriculum vitae; sources of recent grants and/or contracts; and a biographical sketch of the nominee indicating current position, educational background, research activities, and recent service on other national advisory committees or national professional organizations.

Persons having questions about the nomination procedures, or who are unable to submit nominations through the SAB Web site, should contact Ms. Sanzone, DFO as indicated above in this notice. Nominations should be submitted in time to arrive no later than June 24, 2010. EPA values and welcomes diversity. In an effort to obtain nominations of diverse candidates, EPA encourages
