EFP. Therefore, NMFS announces that the Assistant Regional Administrator proposes to recommend that an EFP be issued.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments must be received on or before July 6, 2010.

ADDRESSES: You may submit written comments by any of the following methods:

• Email: DA10-098@noaa.gov.
• Fax: (978) 281–9135.

FOR FURTHER INFORMATION CONTACT: Christopher Biegel, Fisheries Management Specialist, 978–281–9112.

SUPPLEMENTARY INFORMATION: The Coonamessett Farm Foundation has been awarded a research grant through the Commercial Fisheries Research Foundation titled, “Testing of a Low Profile Excluder Dredge for Winter Flounder Bycatch Reduction.” The primary objective of this testing is to begin to develop dredge modifications to reduce winter flounder bycatch in the Atlantic sea scallop fishery. A single vessel would conduct ten to twenty 60-minute tows at 4.5 knots with an experimental low profile excluder dredge over a three-day period. Coonamessett Farm would deploy dredge-mounted video cameras to document the interactions between the dredge and any encountered species. Collection of this video data is the only objective of these research tows and no species will be retained or landed. The vessel is expected to catch a minimal amount of scallops (100 lb), winter flounder (100 lb), yellowtail flounder (20 lb), monkfish (50 lb), and little skate (100 lb). All fish would be returned to the sea as quickly as possible to minimize discard mortality. The tows will be conducted in late June or early July 2010, between Montauk Point and Martha’s Vineyard at a depth of 20 to 30 m, depending on concentrations of winter flounder.

Coonamessett Farm submitted a complete EFP application on May 14, 2010, requesting exemption allowing one commercial fishing vessel to fish outside of the limited access Atlantic sea scallop DAS regulations found at 50 CFR 648.53(b). Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

Authority: 16 U.S.C. 1801 et seq.

James P. Burgess,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Wire Decking From the People’s Republic of China: Correction to the Final Affirmative Countervailing Duty Determination

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: Effective Date: June 18, 2010.

FOR FURTHER INFORMATION CONTACT: Kristen Johnson or John Conniff at (202) 482–4793 or (202) 482–1009, respectively; AD/CVD Operations, Office 3, Operations, Import Administration, Room 4014, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Background: On June 10, 2010, the Department of Commerce (the Department) published in the Federal Register the final affirmative countervailing duty determination of wire decking from the People’s Republic of China (PRC). See Wire Decking from the People’s Republic of China: Final Affirmative Countervailing Duty Determination, 75 FR 32902 (June 10, 2010). The Department has discovered typographical errors in the table under the net subsidy ad valorem rate of the Suspension of Liquidation section.

The rates for two of the producers and exporters in the table are incorrect. The correct rates of the producers and exporters should read as follows:

<table>
<thead>
<tr>
<th>Producer/exporter</th>
<th>Net subsidy ad valorem rate (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alida Wire Mesh &amp; Wire Cloth Mfg.</td>
<td>437.11</td>
</tr>
<tr>
<td>Jiangdong Xinguang Metal Product Co.</td>
<td>437.11</td>
</tr>
</tbody>
</table>

Accordingly, we correct the final affirmative countervailing duty determination of wire decking from the PRC as noted above.

This amended determination is issued and published in accordance with sections 705(c)(1)(B)(i)(I) and 776 of the Act, as amended.

Paul Piquado,
Acting Deputy Assistant Secretary for Import Administration.

Ball Bearings and Parts Thereof from France: Final Results of Changed-Circumstances Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has determined, pursuant to section 751(b) of the Tariff Act of 1930, as amended (the Act), that, after acquisition of SNR Roulements S.A. by NTN Corporation, post-acquisition SNR Roulements S.A. is the successor-in-interest to pre-acquisition SNR Roulements S.A.

EFFECTIVE DATE: June 18, 2010.

FOR FURTHER INFORMATION CONTACT: Thomas Schauer or Richard Rimlinger, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; (202) 482–0410 or (202) 482–4477, respectively.

SUPPLEMENTARY INFORMATION: Background

On September 18, 2009, pursuant to a request from SNR Roulements S.A. (SNR), we initiated a changed-circumstances review of the antidumping duty order on ball bearings and parts thereof from France to determine whether post-acquisition SNR was a successor-in-interest to SNR following SNR’s acquisition by NTN Corporation (NTN). See Ball Bearings and Parts Thereof From France: Initiation of Antidumping Duty Changed-Circumstances Review, 74 FR 47920 (September 18, 2009).

On November 20, 2009, we preliminarily found the post-acquisition SNR is the successor in interest to pre-acquisition SNR. See Ball
Bearings and Parts Thereof From France: Preliminary Results of Changed-Circumstances Review, 74 FR 60242 (November 20, 2009). We received case briefs and rebuttal briefs from The Timken Company and NTN/SNR. We did not hold a hearing as none was requested.

Scope of the Order

The products covered by the order are ball bearings and parts thereof. These products include all antifriction bearings that employ balls as the rolling element. Imports of these products are classified under the following categories: antifriction balls, ball bearings with integral shafts, ball bearings (including radial ball bearings) and parts thereof, and housed or mounted ball bearing units and parts thereof.

Imports of these products are classified under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 3926.90.45, 4016.93.10, 4016.93.50, 6909.19.50.10, 8431.20.00, 8431.39.00.10, 8482.10.10, 8482.10.50, 8482.80.00, 8482.91.00, 8482.99.05, 8482.99.35, 8482.99.25.80, 8482.99.65.95, 8483.20.40, 8483.20.80, 8483.30.40, 8483.30.80, 8483.50.90, 8483.90.20, 8483.90.30, 8483.90.70, 8708.50.50, 8708.60.50, 8708.60.80, 8708.93.30, 8708.93.60.00, 8708.99.06, 8708.99.31.00, 8708.99.40.00, 8708.99.49.60, 8708.99.58, 8708.99.80.15, 8708.99.80.80, 8803.10.00, 8803.20.00, 8803.30.00, 8803.90.30, 8803.90.90, 8708.30.50.90, 8708.40.75.70, 8708.40.75.80, 8708.50.79.00, 8708.50.89.00, 8708.50.91.50, 8708.50.99.00, 8708.70.60.60, 8708.80.65.90, 8708.93.75.00, 8708.94.75, 8708.95.20.00, 8708.99.55.00, 8708.99.68, and 8708.99.81.80.

Although the HTSUS item numbers above are provided for convenience and customs purposes, the written description of the scope of the order remains dispositive.

The size or precision grade of a bearing does not influence whether the bearing is covered by the order. The order covers all the subject bearings and parts thereof (inner race, outer race, cage, rollers, balls, seals, shields, etc.) outlined above with certain limitations. With regard to finished parts, all such parts are included in the scope of the order. For unfinished parts, such parts are included if they have been heat-treated or if heat treatment is not required to be performed on the part. Thus, the only unfinished parts that are not covered by the order are those that will be subject to heat treatment after importation. The ultimate application of a bearing also does not influence whether the bearing is covered by the order. Bearings designed for highly specialized applications are not excluded. Any of the subject bearings, regardless of whether they may ultimately be utilized in aircraft, automobiles, or other equipment, are within the scope of the order.

Analysis of Comments Received

The issues raised in the case briefs by parties in this review are addressed in the Issues and Decision Memorandum from John M. Andersen, Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, dated concurrently with this notice (Decision Memorandum), which is hereby adopted by this notice. A list of the issues which parties have raised and to which we have responded, all of which are in the Decision Memorandum, is attached to this notice as an Appendix. The Decision Memorandum, which is a public document, is on file in the Central Records Unit, main Department of Commerce building, Room 1117, and is accessible on the Web at http://ia.ita.doc.gov/frn. The paper copy and electronic version of the Decision Memorandum are identical in content.

Final Results of Changed-Circumstances Review

For the reasons stated in the preliminary results and in the Decision Memorandum, we continue to find that post-acquisition SNR is the successor-in-interest to pre-acquisition SNR and, as a result, should be accorded the same treatment as pre-acquisition SNR. We will instruct U.S. Customs and Border Protection to collect cash deposits at 13.32 percent, the weighted-average percentage dumping margin we found for pre-acquisition SNR in the most recently completed review. See Ball Bearings and Parts Thereof from France, Germany, Italy, Japan, Singapore, and the United Kingdom: Final Results of Antidumping Duty Administrative Reviews and Rescission of Review in Part, 72 FR 58053, 58054 (October 12, 2007).

Notification

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timeously written notification of the destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This notice is published in accordance with sections 751(b)(1) and 777(i) of the Act and 19 CFR 351.216 and 351.221.

Dated: June 10, 2010.
Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration.

Pure Magnesium From the People’s Republic of China: Preliminary Results of the 2008–2009 Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to requests from interested parties, the Department of Commerce (“the Department”) is conducting an administrative review of the antidumping duty order on pure magnesium from the People’s Republic of China (“PRC”), covering the period May 1, 2008, through April 30, 2009. We have preliminarily determined that the respondent in this administrative review has made sales in the United States at prices below normal value during the period of review (“POR”). We have also preliminarily determined that two companies for which a review was requested have not been responsive and, thus, have not demonstrated entitlement to a separate rate. As a result, we have preliminarily determined that they are part of the PRC–Wide Entity and have assigned them the PRC–Wide Entity rate. If these preliminary results are adopted in the final results of review, we will instruct U.S. Customs and Border Protection (“CBP”) to assess antidumping duties on all appropriate entries.

We invite interested parties to comment on these preliminary results. Parties who submit comments are requested to submit with each argument a summary of the argument. We intend to issue the final results no later than
