roles of the private and public sectors with respect to improving cybersecurity in the commercial arena. The bureaus will explore the changing nature of threats and whether those changes suggest gaps in cybersecurity policy. Similarly, they invite discussion and comment on how the public sector can organize more clearly its roles. The review will also seek to develop a deeper understanding of the relationship of current cybersecurity policy to consumer welfare, job creation, international trade, and fundamental democratic values. The review is being coordinated with the Office of the Cybersecurity Coordinator, Executive Office of the President. As part of this review, the Task Force will shortly issue a notice of inquiry seeking public comments on key issues.
