

electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (e-mail) system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through <http://www.regulations.gov>, your e-mail address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

Needs and Uses: Pursuant to the E-rate program (formerly known as the

schools and libraries universal support program), eligible schools, libraries, and their consortia may apply for discounts for telecommunications services, Internet access, and internal connections. In general, the applicant must use the funded services within the funding year, which runs from July 1 through June 30, except that the rules of the FCC, hereinafter the "Commission", give applicants three additional months, until September 30 following the close of the funding year, to install one-time services known as non-recurring services. The Universal Service Administrative Company (USAC) may extend the September 30 deadline if the applicant falls within at least one of four designated circumstances. The applicant must, however, submit any required documentation to support an extension on or before the September 30 deadline.

These extensions ensure that schools and libraries are not penalized when they are not responsible for missing the installation deadline. Additionally, implementation of this policy provides clarity to the USAC and applicants by establishing a certain deadline for installation. This rule also gives schools and libraries in the program the opportunity to schedule implementation of non-recurring services over the summer months.
