Requirements for companies licensed by CCB are described in OAR 812-007-0300 through 812-007-0360. Companies must submit an application and pay a fee for certification. Companies must:

- Use only a certified renovator and certified renovator-trained workers to perform renovations.
- Ensure the use of lead-safe work practices and that prohibited practices are not used.
- Meet the pre-renovation education requirements.
- Create and maintain required records.

Certified Renovator Requirements

- Interpret laboratory results and prepare a clearance report for the contractor and owner.
- Be in possession of a valid, unexpired certification card when conducting regulated work.

Renovation Work Practice Requirements

- Posting warning signs, containing work areas, protecting furnishings and cleaning.
- Prohibitions on using certain dangerous work practices, including: Open-flame burning or torching, operating a heat gun over 750 °F, using a high speed machine to remove paint without a HEPA-filtered exhaust system, using an improperly operating HEPA vacuum, and dry sweeping in the work area.
- Proper handling and transporting of waste.
- Final visual inspection and post renovation cleaning verification using prescribed protocol.

Renovation Recordkeeping Requirements

Recordkeeping requirements for renovations are described in detail at OAR 333.070.0110. The renovation company must maintain records of its regulated activities for 3 years, including:

- Any paint testing results.
- Copies of signed pamphlet acknowledgements forms or other documentation of delivery.
- Documentation and certification that renovation requirements were followed.
- Individual worker training records.

IV. Federal Overfiling

Section 404(b) of TSCA makes it unlawful for any person to violate, or fail or refuse to comply with, any requirement of an approved State program. Therefore, EPA reserves the

V. Withdrawal of Authorization

Pursuant to section 404(c) of TSCA, the EPA Administrator may withdraw authorization of a State or Indian Tribal renovation, repair and painting program, and/or a lead-based paint pre-renovation education program, after notice and opportunity for corrective action, if the program is not being administered or enforced in compliance with standards, regulations, and other requirements established under the authorization. The procedures U.S. EPA will follow for the withdrawal of an authorization are found at 40 CFR 745.324(i).
