

# Proposed Rules

Federal Register

Vol. 75, No. 134

Wednesday, July 14, 2010

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## NUCLEAR REGULATORY COMMISSION

### 10 CFR Part 37

[NRC-2010-0194]

RIN 3150-A112

#### Implementation Guidance for Physical Protection of Byproduct Material; Category 1 and Category 2 Quantities of Radioactive Material

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of availability of draft guidance for public comment.

**SUMMARY:** The U. S. Nuclear Regulatory Commission (NRC) is proposing to amend its regulations to establish security requirements for the use and transport of category 1 and category 2 quantities of radioactive material. The NRC has prepared draft guidance to address implementation of the proposed regulations. This notice is announcing the availability of the draft implementation guidance document for public comment.

**DATES:** Submit comments by November 12, 2010. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

**ADDRESSES:** Please include Docket ID NRC-2010-0194 in the subject line of your comments. For instructions on accessing documents related to this action, see Section I, "Submitting Comments and Accessing Information" in the **SUPPLEMENTARY INFORMATION** section of this document. You may submit comments by any one of the following methods.

*Federal Rulemaking Web Site:* Go to <http://www.regulations.gov> and search for documents filed under Docket ID NRC-2010-0194. Address questions about NRC dockets to Carol Gallagher, telephone (301) 492-3668; e-mail [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov).

*Mail comments to:* Cindy Bladey, Chief, Rules, Announcements, and

Directives Branch (RADB), Office of Administration, Mail Stop: TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

*Fax comments to:* RADB at (301) 492-3446.

**FOR FURTHER INFORMATION CONTACT:** Paul Goldberg, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone (301) 415-7842, e-mail [Paul.Goldberg@nrc.gov](mailto:Paul.Goldberg@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

#### Submitting Comments and Accessing Information

Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site <http://www.regulations.gov>. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.

You can access publicly available documents related to this document using the following methods:

*NRC's Public Document Room (PDR):* The public may examine and have copied for a fee, publicly available documents at the NRC's PDR, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland.

*NRC's Agencywide Documents Access and Management System (ADAMS):* Publicly available documents created or received at the NRC are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>.

From this page, the public can gain entry into ADAMS, which provides text and image files of NRC's public documents. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC's PDR reference staff at 1-800-397-4209, or

301-415-4737, or by e-mail to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). The draft Part 37 implementation guidance is available electronically under ADAMS Accession Number ML101470684.

*Federal Rulemaking Web Site:* Public comments and supporting materials related to the implementation guidance, including the draft implementation guidance, can be found at <http://www.regulations.gov> by searching on Docket ID NRC-2010-0194. Documents related to the proposed rule can be found by searching on Docket ID NRC-2008-0120.

#### Discussion

The NRC has recently published a proposed rule that would place the security requirements for use of category 1 and category 2 quantities of radioactive material into a new part 37 of title 10 of the Code of Federal Regulations. The proposed rule was published on June 15, 2010 (75 FR 33902), and the public comment period runs through October 13, 2010. Documents related to the proposed rule can be found at <http://www.regulations.gov> by searching on Docket ID NRC-2008-0120.

In conjunction with the proposed rule, the NRC has developed implementation guidance. The implementation document provides guidance to a licensee or applicant for implementation of proposed 10 CFR part 37, "Physical Protection of Byproduct Material," specifically category 1 and category 2 quantities of radioactive material. It is intended for use by applicants, licensees, Agreement States, and NRC staff. The document describes methods acceptable to the NRC staff for implementing proposed 10 CFR part 37. The approaches and methods described in the document are provided for information only. Methods and solutions different from those described in the document are acceptable if they meet the requirements in proposed 10 CFR part 37. The guidance is provided in the form of questions and answers on the provisions of the proposed rule. The draft implementation guidance document for proposed 10 CFR part 37 is available electronically under ADAMS Accession Number ML101470684, and can also be found at <http://www.regulations.gov> by searching on Docket ID: NRC-2010-0194.

At this time, the NRC is announcing the availability for public comment of "Implementation Guidance for 10 CFR part 37 Physical Protection of Byproduct Material, Category 1 and Category 2 Quantities of Radioactive Material." The document provides guidance on implementing the provisions of proposed 10 CFR part 37, "Physical Protection of Byproduct Material." The NRC is planning to hold two public meetings to obtain public input on the draft implementation guidance in September 2010. Information on these meetings will be posted on <http://www.regulations.gov> under Docket ID NRC-2010-0194.

Dated at Rockville, Maryland, this 30th day of June 2010.

For the Nuclear Regulatory Commission.

**Andrew Mauer,**

*Chief, Source Management and Protection Branch, Division of Materials Safety and State Agreements, Office of Federal and State Materials and Environmental Management Programs.*

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

#### 14 CFR Part 39

[Docket No. FAA-2010-0596; Directorate Identifier 2010-NE-22-AD]

RIN 2120-AA64

#### **Airworthiness Directives; Pratt & Whitney PW4000 Series Turbofan Engines**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** The FAA proposes to adopt a new airworthiness directive (AD) for certain Pratt & Whitney PW4000 series turbofan engines. This proposed AD would require initial and repetitive borescope inspections (BSI) or fluorescent penetrant inspections (FPI) for cracks in the anti-vortex tube (AVT) shelf slots on the 10th stage disk of the high-pressure compressor (HPC) drum rotor disk assembly. This proposed AD results from 47 reports received since 2007 of HPC 10th stage disks found cracked in the AVT shelf slots during shop visit inspections. We are proposing this AD to prevent failure of the HPC 10th stage disk, uncontained engine failure, and damage to the airplane.

**DATES:** We must receive any comments on this proposed AD by September 13, 2010.

**ADDRESSES:** Use one of the following addresses to comment on this proposed AD.

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov> and follow the instructions for sending your comments electronically.
- *Mail:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue, SE., West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.
- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

- *Fax:* (202) 493-2251.

Contact Pratt & Whitney, 400 Main St., East Hartford, CT 06108; telephone (860) 565-8770; fax (860) 565-4503, for a copy of the service information identified in this proposed AD.

**FOR FURTHER INFORMATION CONTACT:**

James Gray, Aerospace Engineer, Engine Certification Office, FAA, Engine and Propeller Directorate, 12 New England Executive Park, Burlington, MA 01803; e-mail: [james.e.gray@faa.gov](mailto:james.e.gray@faa.gov); telephone (781) 238-7742; fax (781) 238-7199.

**SUPPLEMENTARY INFORMATION:**

**Comments Invited**

We invite you to send us any written relevant data, views, or arguments regarding this proposal. Send your comments to an address listed under **ADDRESSES**. Include "Docket No. FAA-2010-0596; Directorate Identifier 2010-NE-22-AD" in the subject line of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of the proposed AD. We will consider all comments received by the closing date and may amend the proposed AD in light of those comments.

We will post all comments we receive, without change, to <http://www.regulations.gov>, including any personal information you provide. We will also post a report summarizing each substantive verbal contact with FAA personnel concerning this proposed AD. Using the search function of the Web site, anyone can find and read the comments in any of our dockets, including, if provided, the name of the individual who sent the comment (or signed the comment on behalf of an association, business, labor union, etc.). You may review the DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477-78).

### Examining the AD Docket

You may examine the AD docket on the Internet at <http://www.regulations.gov>; or in person at the Docket Operations office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this proposed AD, the regulatory evaluation, any comments received, and other information. The street address for the Docket Operations office (telephone (800) 647-5527) is the same as the Mail address provided in the **ADDRESSES** section. Comments will be available in the AD docket shortly after receipt.

### Discussion

Since 2007, we have received 47 reports of HPC 10th stage disks found cracked in the AVT shelf slots during shop visit inspections. Investigation has revealed the root cause of the cracks to be the slot configuration in the 9th stage compressor stator inner shroud. The number of slots matches the number of anti-vortex tubes and causes an aerodynamic interaction during engine operation. This interaction results in high-cycle-fatigue cracks in the AVT shelf slots on the 10th stage disk of the HPC drum rotor disk assembly. This condition, if not corrected, could result in failure of the HPC 10th stage disk, uncontained engine failure, and damage to the airplane.

### Relevant Service Information

We have reviewed and approved the technical contents of Pratt & Whitney Service Bulletin (SB) No. PW4ENG 72-799, dated January 22, 2010, and SB No. PW4G-100-72-226, dated April 22, 2010, that describe procedures for inspecting for cracks in the AVT shelf slots on the 10th stage disk of the HPC drum rotor disk assembly.

### FAA's Determination and Requirements of the Proposed AD

We have evaluated all pertinent information and identified an unsafe condition that is likely to exist or develop on other products of this same type design. We are proposing this AD, which would require initial and repetitive BSI or FPI for cracks in the AVT shelf on the 10th stage disk of the HPC drum rotor disk assembly. The proposed AD would require you to use the service information described previously to perform these actions.

### Interim Actions

These actions are interim actions and we may take further rulemaking actions in the future.
