not lie in dockets that are qualifying facility self-certifications or self-recertifications. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii). Intervention and protests may be filed in response to notices of qualifying facility dockets other than self-certifications and self-recertifications.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at http://www.ferc.gov. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission’s eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission’s Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

**DEPARTMENT OF ENERGY**

**Federal Energy Regulatory Commission**

**[Docket No. CP10–76–000]**

**Eastern Shore Natural Gas Company; Notice of Availability of the Environmental Assessment for the Proposed Mainline Extension Interconnect Project**

**July 6, 2010.**

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Mainline Extension Interconnect Project proposed by Eastern Shore Natural Gas Company (Eastern Shore) in the above referenced docket. Eastern Shore requests authorization to construct pipeline facilities in Lancaster and Chester Counties, Pennsylvania to provide firm transportation service for local distribution companies in Delaware, Maryland, and Pennsylvania.

The EA assesses the potential environmental effects of the construction and operation of the Mainline Extension Interconnect Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the environment.

The proposed Mainline Extension Interconnect Project includes the following facilities:

1. 8.3 miles of 16-inch-diameter natural gas pipeline;
2. One meter station/pig launcher at the interconnect with Texas Eastern Transmission, L.P., near Honey Brook, Pennsylvania;
3. One mainline valve; and
4. One interconnect/pig receiver at the existing Eastern Shore meter station near Parkesburg, Pennsylvania.

Copies of the EA have been mailed to Federal, State, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that your comments are properly recorded and considered prior to a Commission decision on the proposal, it is important that the FERC receives your comments in Washington, DC on or before August 5, 2010.

For your convenience, there are three methods you can use to submit your comments to the Commission. In all instances, please reference the project docket number (CP10–76–000) with your submission. The Commission encourages electronic filing of comments and has dedicated eFiling expert staff available to assist you at (202) 502–8258 or [efiling@ferc.gov](mailto:efiling@ferc.gov).

(1) You may file your comments electronically by using the Quick Comment feature, which is located on the Commission’s Web site at [http://www.ferc.gov](http://www.ferc.gov) under the link to Documents and Filings. A Quick Comment is an easy method for interested persons to submit text-only comments on a project:

(2) You may file your comments electronically by using the eFiling feature, which is located on the Commission’s Web site at [http://www.ferc.gov](http://www.ferc.gov) under the link to Documents and Filings. eFiling involves preparing your submission in the same manner as you would if filing on paper, and then saving the file on your computer’s hard drive.
