for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at http://www.regulations.gov as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection, or to obtain a copy of the proposal and associated collection instruments, please write to the Office of the Under Secretary of Defense (Personnel and Readiness), Department of Defense Education Activity (Policy and Legislation), ATTN: J. Michael Lynch, 4040 North Fairfax Drive, Arlington, VA 22203 or call (703) 588–3201.

Title, Associated Form, and OMB Control Number: Department of Defense Education Activity Student Registration; DoDEA Form 600; OMB Number 0704–0704–TBD.

Needs and Uses: This information collection is necessary to obtain information about Department of Defense military and civilian sponsors and the dependents they wish to enroll in a Department of Defense Education Activity (DoDEA) school. The information gathered on the sponsors is used to determine their dependents’ enrollment eligibility to attend the DoDEA schools and their enrollment category, (i.e., whether the sponsors’ dependents are authorized to enroll on a tuition-free or tuition-paying and space-required or space-available basis). Information gathered about students is used to verify age; determine, class and transportation schedules; record attendance, absence and withdrawal; record and monitor student progress, grades, course and grade credits, educational services and placement, activities, awards, special interest and accomplishments.

Affected Public: Individuals or households; business or other for-profit; not-for-profit institutions; Federal Government personnel and/or Federal contractors. Respondents are not required to keep records.

Annual Burden Hours: 35,627.
Number of Respondents: 71,254.
Responses per Respondent: 1.
Average Burden per Response: 30 minutes.
Frequency: One time for school registration.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The primary objective of the information collection is to determine that DoDEA has all the information it requires to make available a quality education, from prekindergarten through grade 12, for the eligible dependents of the Department of Defense (DoD) military and civilian personnel on official assignments. The DoDEA Form 600 secures data about each sponsor who enrolls a child in a DoDEA school to determine the child’s eligibility for enrollment. Eligibility for enrollment depends on whether the sponsor is a member of the Armed Forces or a civilian employee of the DoD, and which component thereof (Armed Forces or DoD) he or she is a member; or is an employee of another Federal Agency; or is a DoD contractor; or whether the sponsor is a U.S. citizen or a foreign national; and whether the sponsor is assigned overseas or to an installation in the U.S. Eligibility also depends on whether the student is a dependent of a member of the Armed Forces or of the Federal Government who is authorized Federally funded transportation to an overseas assignment, or is authorized to reside on a domestic U.S. military installation. The DoDEA Form 600 also secures information about each enrolled student to ensure that DoDEA makes available the appropriate classrooms, staffing, and supportive services. The data collected on the DoDEA Form 600, “DoDEA Student Registration,” is covered by the DoDEA System of Records Notice DoDEA 26 available at: http://privacy.defense.gov/notices/ods/DODEA26.shtml, “Department of Defense Education Activity Dependent Children’s School Program Files.” The paper forms and electronic data systems containing the sponsor and dependent personally identifying information are secured in accordance with the requirements of Federal law and implementing DoD regulations.

Colombia – UH-60L BLACK HAWK Helicopters

The Government of Colombia has requested a possible sale of 9 UH-60L BLACK HAWK Helicopters (1 for Colombian Air Force, 4 for Colombian National Police, 4 for Colombian Army), 18 T700-GE-701D General Electric Engines, warranty, internal fuel tanks, spare and repair parts, tools and support equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, logistics, and technical support services, and other related elements of logistics support. The estimated cost is $162M.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country, which has been and continues to be an important force for political stability and economic progress in South America.

Colombia intends to use these helicopters to modernize its armed forces. The Colombian Air Force intends to expand its existing medical evacuation architecture to expedite movement of injured personnel from combat zones. The Colombian National Police will expand its existing utility helicopter defense architecture and counter threats posed by narco-terrorist elements within Colombia. The purchase of UH-60L BLACK HAWK Helicopters will contribute to Colombia’s goal to update its capability while enhancing interoperability between Colombia, the U.S., and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Sikorsky Aircraft Corporation in Stratford, Connecticut. There are no known offset agreements proposed in connection with this potential sale. Implementation of this proposed sale will require U.S. Government or contractor representatives to travel to Colombia for a period of 8 weeks for equipment deprocessing/fielding, system checkout and new equipment training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATION

Iraq—Technical Support Services

The Government of Iraq has requested a possible sale of two years of contractor logistics support for Mi-17 Helicopters and two years of logistics support for U.S.-origin rotary wing aircraft not in DoD’s inventory. The estimated cost is $152 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

This proposed sale will advance Iraqi efforts to develop a strong national military and police force structure. The support and services will enable Iraq to equip new forces to assume the missions currently accomplished by U.S. and coalition forces and to sustain itself in its efforts to bring stability to Iraq.

The proposed sale of this service will not alter the basic military balance in the region.

The prime contractor will be ARINC in Annapolis, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will require the assignment of multiple U.S. Government or contractor representatives to Iraq for a period of two years with an option to extend them for additional years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATION

Israel – Unleaded Gasoline, JP-8 Aviation Jet Fuel, and Diesel Fuel

The Government of Israel has requested a possible sale of 60,000,000 gallons of unleaded gasoline, 284,000,000 gallons of JP-8 aviation jet fuel, and 100,000,000 gallons of diesel fuel. The estimated cost is $2.0 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale of the JP-8 aviation fuel will enable Israel to maintain the operational capability of its aircraft inventory. The unleaded gasoline and diesel fuel will be used for ground forces’ vehicles and other equipment used in keeping peace and security in the region. Israel will have no difficulty absorbing this additional fuel into its armed forces.

The proposed sale of these three types of fuel will not alter the basic military balance in the region.

The vendors are unknown at this time due to the competitive bid process for the supply source(s). There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
