I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Price List to reflect fees charged for co-location services, as described more fully herein. The text of the proposed rule change is available at the Exchange, the Commission's Public Reference Room, on the Commission's Web site at <http://www.sec.gov>, and the Exchange's Web site at <http://www.nyse.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Price List to identify fees pertaining to co-location services, which allow Users⁴ of the Exchange to rent space on premises controlled by the Exchange in order that they may locate their electronic servers in close physical proximity to the Exchange's trading and execution systems. The Exchange plans to begin operating a data center in Mahwah, New Jersey, from which it will offer co-location services. The Exchange will offer space at the data center in cabinets with power usage capability of either four or eight kilowatts (kW).⁵ In

⁴ For the purposes of this filing, the term "Users" includes any "member organization," as that term is defined in NYSE Rule 2(b) and any "Sponsored Participant," as that term is defined in NYSE Rule 123B.30(a)(ii)(B).

⁵ The Exchange also allows Users, for a monthly fee (i.e., 40% of the applicable monthly per kW fee), to obtain an option for future use on available, unused cabinet space in proximity to their existing cabinet space. Specifically, Users may reserve cabinet space of up to 30% of the cabinet space under contract, which the Exchange will endeavor to provide as close as reasonably possible to the User's existing cabinet space, taking into consideration power availability within segments of the data center and the overall efficiency of use of data center resources as determined by the Exchange. (If the 30% measurement results in a fractional cabinet, the cabinet count is adjusted up to the next increment.) If reserved cabinet space becomes needed for use, the reserving User will

addition, the Exchange will offer Users services related to co-location, including cross connections, equipment and cable installation, and remote “hot-hands” services, which allow Users to use on-site data center personnel to maintain User equipment. The Exchange notes that Users will be able to obtain permanent access badges for their representatives at a cost of \$50 per badge, which includes the cost of a background check. User representatives are not required to obtain a permanent access badge to gain access to the data center, but all visitors to the data center will be required to have a visitor security escort at the cost of \$75 per hour.

Users that receive co-location services from the Exchange will not receive any means of access to the Exchange’s trading and execution systems that is separate from or superior to that of Users that do not receive co-location services. All orders sent to the Exchange enter the Exchange’s trading and execution systems through the same order gateway regardless of whether the sender is co-located in the Exchange’s data center or not. In addition, co-

located Users do not receive any market data or data service product that is not available to all Users. However, Users that receive co-location services normally would expect reduced latencies in sending orders to the Exchange and receiving market data from the Exchange. In addition, co-located Users have the option of obtaining access to the Exchange’s Liquidity Center Network (“LCN”), a local area network available in the data center.⁶ Co-located Users have the option of using either the LCN or the Exchange’s Secure Financial Transaction Infrastructure (“SFTI”) network, to which all Users have access. Because it operates as a local area network within the data center, the LCN provides reduced latencies in comparison with SFTI. Other than the reduced latencies, the Exchange believes that there are no material differences in terms of access to the Exchange between Users that choose to co-locate and those that do not. SFTI and LCN both provide Users with access to the Exchange’s trading and execution systems and to the Exchange’s

proprietary market data products. User access to non-proprietary market data products is available through SFTI and not through LCN.

The Exchange offers co-location space based on availability and the Exchange believes that it has sufficient space in the Mahwah data center to accommodate current demand on an equitable basis for the foreseeable future. In addition, the Exchange believes that any difference among the positions of the cabinets within the data center does not create any material difference to co-location Users in terms of access to the Exchange.

The following charts identify the proposed tiered fees for co-location and the proposed fees for related services.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Securities Exchange Act of 1934 (the "Act"),⁷ in general, and Sections 6(b)(4) and 6(b)(5), of the Act,⁸ in particular, in that it is designed to (i) provide for the equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities, and (ii) prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system. The Exchange believes that the proposed changes to the Schedule are equitable in that they apply fees for comparable co-location services uniformly to our Users. Moreover, the Exchange believes that, as described

herein, access to its market is offered on fair and non-discriminatory terms.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which

the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove the proposed rule change, or
- (B) Institute proceedings to determine whether the proposed rule change should be disapproved.
