SUPPLEMENTARY INFORMATION:

I. Background

In FR Doc. 2010–15900 of July 13, 2010 (75 FR 40040), there were a number of technical errors that are identified and corrected in the Correction of Errors section below.

II. Summary of Errors

The following is a summary of the errors identified in the calendar year (CY) 2011 Physician Fee Schedule proposed rule and corrected in section III. of this notice:

A. Errors in the Preamble

On page 40043, we made inadvertent errors in the table of contents for the durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) provisions.

On page 40089, in Table 24, we made formatting errors (omitted indentations) in listing some of the cost subcategories for office expenses, and pharmaceuticals and medical materials and supplies. In addition, we inadvertently listed a cost category as “All Other Labor-Related” instead of “All Other Services”.

On page 40091, we are correcting typographical errors in our description of fixed capital. On page 40095, we made an error in the footnotes to Table 30. The footnote number “N/A” was inadvertently combined with the preceding footnote (number 4).

On page 40121, in our discussion of revisions for payment for power-driven wheelchairs, we erroneously included the word “falling” in our description of the DMEPOS quality standards definition of certain power wheelchairs. In addition, on page 40122 of this discussion, we inadvertently included the word “of” in our description of the statutory provision and the methodologies used to calculate and update the purchase price of power wheelchairs.

On page 40123, in our discussion of the productivity adjustment regarding ambulatory surgical center (ASC), ambulance, clinical laboratory, and DMEPOS fee schedules, in several places we inadvertently omitted references to the DMEPOS fee schedule and erroneously referenced three payment systems instead of four payment systems.

On page 40136, in Table 39, in the listing of the primary care services Healthcare Common Procedure Coding System (HCPCS) codes that are eligible for CY 2011 primary care incentive payments, we inadvertently omitted HCPCS code 99213.

On page 40158, in Table 46, which is an example of the ASP price substitution timeframe, we inadvertently included language that should have appeared in the fourth column, (Q1–11), in the third column, (Q4–10).

On page 40180, in our discussion of the four disease modules covered by the proposed PQRI group practice reporting option I (GPRO I) measures, we inadvertently omitted hypertension from the list of disease modules.

On page 40186, in our discussion of the proposed Physician Quality Reporting Initiative (PQRI) measures, we inadvertently include measure #135 (Chronic Kidney Disease (CKD): Influenza Immunization) in Table 51 which lists the 2010 PQRI quality measures that are not proposed for inclusion in the 2011 PQRI quality measures. In addition, we also made errors in referencing the number of 2010 measures that will be retained in 2011. On pages 40189 and 40194, we also erred by omitting measure #135 from Table 52, which lists the proposed 2011 quality measure from the 2010 PQRI quality measures set and from Table 58, which lists the proposed 2011 CKD Measures Group.

On page 40190, in Table 52, regarding the NQF Measure No., we inadvertently listed the wrong NQF measure numbers for two of the proposed PQRI measures (measure #201 Ischemic Vascular Disease (IVD): Blood Pressure Management Control and measure #202 Ischemic Vascular Disease (IVD): Complete Lipid Profile).

On page 40193, in our listing (Table 56) of the 2011 PQRI quality measures for electronic health record (EHR) reporting, we made an error in the table heading.

On pages 40192 and 40197, in Tables 54 and 70 regarding the new individual quality measures proposed for 2011 and the proposed 2011 asthma measures group, we made errors in the titles of the two of the asthma-related measures.

On page 40199, in our discussion of the statutory requirements for the additional incentive payments authorized under section 1848(m)(7) of the Act, we inadvertently omitted some of the language describing the requirements.

On page 40217, we made an error in the language regarding the authority of the competitive bidding implementation contractor (CBIC).

On page 40243, in our discussion of the off-the-shelf (OTS) orthotics exemption, we inadvertently omitted references to hospitals. We also made an error in the discussion of access to OTS orthotics.

On page 40244, in the DMEPOS diabetic testing supplies section, we inadvertently omitted the word “not” from our discussion of the provisions impact on suppliers and whether suppliers require beneficiaries to switch brands.

On pages 40078, 40081, 40095, 40122, 40124, 40144, 40154 through 40156, 40167 through 40169, 40199, 40200, 40207, and 40225, we are correcting typographical errors which include punctuation, indentation of text, separation of lines of text, and the numbering of section headings and tables.

B. Errors in the Regulations Text

On page 40259, we are correcting punctuation errors in § 414.904 regarding the average sales price as the basis for payment.

IV. Waiver of 60-Day Comment Period

We ordinarily permit a 60-day comment period on a notice of proposed rulemaking in the Federal Register, as provided in section 1871(b)(1) of the Act. However, this period may be shortened, as provided under section 1871(b)(2)(C) of the Act, when the Secretary finds good cause that a 60-day comment period would be impracticable, unnecessary, or contrary to the public interest and incorporates a statement of the finding and its reasons in the rule issued.

The changes made by this correction notice do not constitute agency rulemaking, and therefore the 60-day comment period does not apply. This correction notice merely corrects typographical and technical errors in the CY 2011 Physician Fee Schedule proposed rule and does not make substantive changes to the CY 2011 Physician Fee Schedule proposed rule appearing in the July 13, 2010 Federal Register that would require additional time on which to comment. Instead, this correction notice is intended to ensure the accuracy of the CY 2011 Physician Fee Schedule proposed rule. To the extent that the 60-day comment period does apply, we find good cause to shorten the period for the reasons set forth above.
