FOR FURTHER INFORMATION CONTACT: Jeffery Harris (202) 254–6015 (Not a toll free number).

SUPPLEMENTARY INFORMATION: Interested parties can obtain copies of the Forms Package by calling or writing the point of contact listed above. The content of PREDICT is proprietary datasets that will be used by the Research community in its efforts to build products and technologies that will better protect America’s computing infrastructure. Using a secure Web portal, accessible through https://www.predict.org/, the PREDICT Coordinating Center manages a centralized repository that identifies the datasets and their sources and location, and acts as gatekeeper for access and release of the data. All data input to the system is either keyed in by users (Data Providers) or migrated (via upload of XML files). DHS is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Suggest ways to enhance the quality, utility, and clarity of the information to be collected; and
4. Suggest ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

The user will complete a portion of the forms online and submit them through the Web site, while some forms will be printed from the Web site and faxed to a PREDICT portal administrator. The entire Forms Package will be available on the PREDICT Web site found at https://www.predict.org.

[Docket No. DHS–2010–0072]

Science and Technology (S&T) Directorate: Agency Information Collection Activities: Submission for Review; Information Collection Request for the Department of Homeland Security (DHS) Science and Technology TechSolutions Program

AGENCY: Science and Technology Directorate, DHS.

ACTION: 30-day notice and request for comment.

SUMMARY: The TechSolutions Program was established by the Department of Homeland Security’s (DHS) Science and Technology (S&T) Directorate to provide information, resources and technology solutions that address mission capability gaps identified by the emergency response community. The
goal of TechSolutions is to field technologies that meet 80% of the operational requirement, in a 12 to 15 month time frame, at a cost commensurate with the proposal. Goals will be accomplished through rapid prototyping or the identification of existing technologies that satisfy identified requirements. Through the use of data collection forms, TechSolutions will collect submitter and capability gap information from first responders (Federal, State, local, and tribal police, firefighters, and emergency medical service) through the TechSolutions Web site. The information will be used to address reported capability gaps, leading to improved safety and productivity. The DHS invites interested persons to comment on the following forms and instructions (hereinafter “Forms Package”) for the TechSolutions program: (1) Submit a Capability Gap (DHS Form 10011 (04/07)), (2) Information Request (DHS Form 10012 (04/07)), and (3) User Registration (DHS Form 10015 (04/07)). Section 313 of the Homeland Security Act of 2002 (Pub. L. 107–296) established this requirement. This notice and request for comments is required by the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. 3515). The user will complete the forms online and submit them through the Web site. The Forms Package will be available on the TechSolutions Web site found at https://www.techsolutions.dhs.gov. The user will complete the forms online and submit them through the Web site.
