

estimated to average 10 to 30 minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's annual estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 5,800.

Frequency of response: Annual.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 1,248 hours.

Estimated total annual costs:

\$82,423.88. This does not include an estimated burden cost of \$61,552.96 and an estimated cost of \$100,000 for capital investment or maintenance and operational costs.

Are there changes in the estimates from the last approval?

Yes. Hours were removed for the certification program collection include in the previous ICR. Fewer hours for EPA are anticipated for the survey work due to a decreased level of sophistication in the analysis and decreased effort being needed to solicit survey responses. More hours were added for teachers completing the educator survey and administering the student survey. Finally, registering such a large number of teachers has resulted in more hours needed at EPA. Hours and burden for educators is about the same; hours for students has also decreased significantly. The bottom line burden hours increased along with the total cost.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue

another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Weekly receipt of Environmental Impact Statements

Filed 08/23/2010 Through 08/27/2010 Pursuant to 40 CFR 1506.9.

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA has met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has been including its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.
