Regulation of Off-Exchange Retail Foreign Exchange Transactions and Intermediaries

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rules.

SUMMARY: The Commodity Futures Trading Commission (“Commission” or “CFTC”) is adopting a comprehensive regulatory scheme to implement the provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (“Wall Street Reform Act”) 1 and the CFTC Reauthorization Act of 2008 (“CRA”) 2 with respect to off-exchange transactions in foreign currency with members of the retail public (i.e., “retail forex transactions”). The new regulations and amendments to existing regulations published today establish requirements for, among other things, registration, disclosure, recordkeeping, minimum capital, and other operational standards.

SUPPLEMENTARY INFORMATION:

I. Background

On January 20, 2010, the Commission published in the Federal Register proposed new regulations and amendments to existing regulations in response to the CRA (the “Proposing Release”). 3 The Proposing Release set forth in detail the historical background of the regulation of retail forex transactions, and the events, legislative and otherwise, that led up to the enactment of the CRA. 4 The Commission explained that its proposed regulations were drawn up with the aim of applying the same principles that have guided the regulation of on-exchange instruments, while taking into account the real differences between the trading of futures contracts on designated contract markets (“DCMs”) that are cleared through Commission-registered derivatives clearing organizations (“DCOs”) on the one hand, and off-exchange transactions between forex firms and retail customers on the other hand. 5

The proposed rule changes were of two general sorts. The first group included amendments to existing regulations to accommodate regulation of retail forex transactions and the new registration categories created under the CRA. The second group comprised a new part 5 of the Commission’s regulations, encompassing, to the extent practicable, the regulations pertaining specifically to persons engaging in retail forex transactions. For example, many of the operational or registration requirements in part 1 or part 3, respectively, of the Commission’s regulations referring to futures commission merchants (“FCMs”) would, as a result of the CRA, now apply also to retail foreign exchange dealers (“RFEDs”). Some of the disclosure, reporting and recordkeeping requirements in part 4 had to be modified to apply to operators of pooled investment vehicles and advisors that engage in retail forex transactions, as called for under the CRA. Other parts of the Commission’s regulations required their own adaptations in order to extend customer protection, privacy and procedural requirements to retail forex transactions.

The Commission also noted in its Proposing Release that in addition to the regulations expressly called for by the CRA, it was proposing certain additional requirements prompted both by the essential differences between on-exchange transactions and retail forex transactions, and by the history of fraudulent practices in the retail forex market. 6 The proposed regulatory changes were discussed, section by section. 7

Following the publication of the Proposing Release, the Wall Street Reform Act was enacted which, in relevant part, requires that specified Federal regulatory agencies, including the CFTC, promulgate rules regarding retail forex transactions. Consistent with the CRA, the Wall Street Reform Act directs that such rules prescribe appropriate requirements with respect to disclosure, recordkeeping, capital and margin, reporting, business conduct, and such other standards or requirements as the Federal regulatory agencies determine to be necessary. 8

Thus, pursuant to the broad authority granted by the Wall Street Reform Act and the CRA, the Commission is implementing requirements for, among other things: Registration, disclosure, recordkeeping, financial reporting, minimum capital, and other operational standards.

Exchange Act (the “Act”) of an FCM9 are permitted to engage in retail forex transactions without also registering as RFEDs. Also, the $20 million minimum net capital standard established in the CRA for registering an RFED or offering retail forex transactions as an FCM is incorporated in the new regulations.

The new regulations also require certain entities other than RFEDs and FCMs that intermediate retail forex transactions to register with the Commission as introducing brokers (“IBs”), commodity trading advisors (“CTAs”), commodity pool operators (“CPOs”) or associated persons (“APs”) of such entities, as appropriate, and to be subject to the Act and regulations applicable to that registrant category.

Finally, pursuant to the authority conferred by the CRA,10 and to address cases where the Commission’s jurisdiction has been challenged, the Commission is adopting the proposed regulatory provisions applicable to that registrant category.

II. The Comments on the Proposing Release

The Commission received in excess of 9,100 comment letters from a range of commenters, including individuals who trade forex, intermediaries, registered FCMs currently serving as counterparties in retail forex transactions, trade associations or coalitions of industry participants, one committee of a county lawyers’ association, a registered futures association, and numerous law firms representing institutional clients. Many commenters offered specific recommendations for clarification or modification of particular rules; other commenters objected generally to particular proposed rules. Overall, the bulk of the comments concerned four of the proposed rules:

- Proposed Regulation 5.9, which would impose a 10 to 1 leverage limitation on retail forex transactions. (“Security Deposit Proposal” or “Leverage Proposal”)
- Proposed Regulation 5.18(h), which would require each IB that solicits or accepts off-exchange retail forex orders to enter into a guarantee agreement with the FCM or RFED to which the IB introduces the forex transactions. (“Guaranteed IB Proposal”)
- Proposed Regulation 5.18(j), which would require all retail forex counterparties to calculate, on a quarterly basis, the percentage of non-discretionary accounts that were profitable, to include the results of this calculation for the preceding four quarters in required disclosures to customers, and to maintain and make available upon request records reflecting such calculations for five years. (“Disclosure Proposal”)
- Proposed Regulation 5.7, which would establish a minimum capital requirement for FCMs and RFEDs (“Capital Proposal”)

The comments regarding these proposed rules and the Commission’s response are discussed immediately below. The Commission’s response to comments concerning other aspects of the proposed rules follows later.

Given the volume of comments received, the Commission cannot respond to each and every comment or objection. However, the Commission has carefully reviewed and considered each letter and, in the sections that follow, has endeavored to address both the primary themes running throughout multiple letters and significant points raised by individual commenters.

- Security Deposit Proposal. In general terms, proposed Regulation 5.9 would have required FCMs and RFEDs engaging in retail forex transactions to collect from each retail forex customer a minimum security deposit equal to 10 percent of the notional value of each retail forex transaction. This proposal is often referred to in the comment letters as a 10% or 10:1 leverage requirement (i.e., for every $10 of notional value, $1 is required as a security deposit).

The Commission received a significant number of comment letters regarding the Security Deposit Proposal with a substantial majority of the commenters objecting to the proposed level of 10%. Many of the letters submitted with regard to this issue appeared to be submitted by individual traders, were identical or nearly identical, and objected generally to the proposal. Within the large group of comments by such traders, whether in “form” letter objections or otherwise, the most common objections were that the leverage proposal would drive business off-shore, would lead to the loss of jobs in the U.S., was unnecessarily restrictive and would inhibit small traders’ ability to trade profitably, or that the percentage required as a security deposit was arbitrary, capricious and anti-competitive.

Other commenters noted that by increasing the security deposit level, retail forex customers are exposed to greater levels of market and credit risk. Many of these commenters believe that the amplification that is provided by increased leverage is necessary for clients to earn a profit from their positions. Still other commenters urged that NFA’s current levels be retained and asserted that the Commission had already approved these levels by allowing NFA’s proposed rule regarding leverage to become effective.

Finally, one commenter encouraged the Commission to (1) recognize the different market risks and volatility posed by different currencies, (2) adopt requirements reflective of those differences just as contract markets do in establishing their margin levels, and (3) endorse or adopt some mechanism to allow for periodic review and adjustment of the requirements if necessary.

The Commission’s proposed leverage restriction was conservative and was proposed in an effort to provide maximum customer protection. The Commission does not, however, believe it was arbitrary or contrary to previously approved NFA rules.13 Moreover, the Commission does not believe that most retail foreign exchange customers select a counterparty based solely on the maximum allowable leverage, otherwise these investors would have already migrated to foreign markets, some of which have no limitation on leverage. Nevertheless, after considering the concerns expressed and arguments made in the comments, the Commission has determined to adopt a revised security deposit requirement for FCMs engaging in retail forex transactions and for RFEDs.

In developing the revised Regulation 5.9, the Commission once again

13 As noted above, several commenters maintained that the proposed Regulation 5.9 was inconsistent with security deposit levels set by NFA and approved by the Commission. In February 2009, NFA proposed and the Commission approved amendments to Section 12 of NFA’s Financial Requirements. (See Letter from Thomas W. Sexton to David A. Slawick, dated February 23, 2009, regarding Forex Security Deposits—Proposed Amendments to NFA Financial Requirements Section 12 and Interpretive Notice Regarding Forex Transactions, available on NFA’s website at nfa.futures.org.) NFA’s amendments left in place requirements of a 1% security deposit for major currencies and 4% deposit for all other currencies, but eliminated an exemption from these requirements for well-capitalized firms. As NFA noted in its proposed amendments, exempted firms had offered leverage of 200:1, 400:1 and even 700:1. NFA’s February 2009 amendments effectively reduced the amount of leverage available to retail forex customers. The Commission approved the amendments, in accordance with the standards set in Section 7(1)(f) of the Act.
reviewed futures exchange margin levels, NFA’s current security deposit requirements, and comparable requirements found in other jurisdictions. Final Regulation 5.9 permits the registered futures association (“RFA”) of which the FCM or RFED is a member to determine specific security deposit levels within parameters set forth by the Commission in the regulation.14 The Commission has provided minimum security deposit amounts of 2 percent of the notional value for major currency pairs and 5 percent of the notional value for all other retail forex transactions. The Commission will periodically review the parameters it has set in light of market conditions and adjust them as necessary. Similarly, each RFA (i.e., NFA) will be required to designate which currencies are “major currencies,” and must review, no less frequently than annually, major currency designations and security deposit requirements, and must adjust the designations and requirements as necessary in light of changes in the volatility of currencies and other economic and market factors. It is the Commission’s view that revised Regulation 5.9 will provide a mechanism for setting security deposit levels that is both anchored in, and adaptable to, market conditions.

**Disclosure of Profitable vs. Non-Profitable Accounts.** As proposed, Regulation 5.5(e) required that the risk disclosure statement provided to every retail forex customer include disclosure of the number of non-discretionary retail forex accounts maintained by the FCM or RFED that were profitable and those that were not, during the four most recent calendar quarters. Commenters called the provision anti-competitive and doubted that measurement of profitable accounts could be done in a way that would permit comparison. Proposed Regulation 5.18(i) required that each retail forex counterparty prepare and maintain on a quarterly basis a calculation of the percentage of non-discretionary retail forex accounts open for any period of time during the quarter that earned a profit, and the percentage of such accounts that experienced a loss.

Some commenters asserted that the Commission did not provide adequate guidance or a standard methodology for calculating “winners” and “losers.” Commenters stated that the proposal was ambiguous and that the reported percentages may not be comparable across the industry. In addition, commenters thought that there was too much subjectivity in determining “winners” and “losers” and that, therefore, the resulting disclosure would not be helpful for customers. Other commenters stated that by requiring retail forex firms to disclose the percentage of profitable accounts quarterly, the Commission would be unfairly singling out retail forex dealers, as this information is not required on the futures side or for broker-dealers. As noted in the Proposing Release, there are significant differences between trading futures contracts on an exchange and entering into off-exchange transactions between forex firms and retail customers.15 The Commission believes that as a result of the inherent conflicts embedded in the operations of the retail over-the-counter forex industry, such disclosure is necessary. To illustrate potential conflicts of interests in the off-exchange retail forex industry, the Commission in its Proposing Release pointed out that the retail forex counterparty: (i) Is the counterpart to the customer, which sets up a “zero-sum game” between the customer and the retail forex dealer; (ii) provides quotes to its customers, which may not be the best quote at the time and may not even be a competitive quote; and (iii) enters into a principal-to-principal transaction with the non-discretionary retail forex accountholder. At each stage of the transaction, the retail forex counterparty has an inherent conflict with its non-discretionary retail forex accountholders. By contrast, in exchange-traded futures markets, accountholders do not encounter the same level of conflicts that retail forex customers face, and, therefore, a requirement to disclose the percentage of non-discretionary retail forex accounts that were profitable and not profitable is appropriate in retail forex markets, while it may not be elsewhere. As a result of the industry structure and operational conflicts, the Commission believes that this disclosure is necessary to protect the non-discretionary retail forex accountholder.

So while the Commission continues to believe in the value and effectiveness of such disclosures, it is adopting Regulation 5.5(e) and Regulation 5.18(i) with certain amendments, in order to address concerns regarding the implementation of the rule. As proposed, the calculation for determining whether a retail forex account was profitable or not during a quarter would be net of fees, commissions, any other expenses, trading results, customer funds deposited, and customer funds withdrawn. The regulation as adopted provides further guidance in response to commenters’ concerns. The final rule clarifies that a retail forex account will be considered either “profitable” or “not profitable,” with “not profitable” including accounts that break-even.

The Commission is also clarifying the required time periods for which the required calculations in Regulation 5.5(e)(1) and 5.5(e)(2) must be made and records maintained and made available. Regulation 5.5(e)(1) requires that information regarding profitable and not profitable accounts for the four most recent quarters be included in disclosure documents; Regulation 5.5(e)(2) requires that similar quarterly information be maintained for five years and provided to requesting customers or potential customers. As to the 5.5(e)(1) information, once these regulations are effective, FCMs and RFEDs must provide the required information for the past four quarters. FCMs and RFEDs also must update this information going forward on a quarterly basis and not profitable accounts for the four most recent quarters be included in disclosure documents provided to potential customers.

Regulation 5.5(e)(2) requires an RFED or FCM to provide to a customer or potential customer the same account information as set out in Regulation 5.5(e)(1) for the most recent five-year period during which the RFED or FCM maintained non-discretionary retail forex customer accounts, but only at the request of the customer or potential customer. The Commission intends that this requirement to keep and make available five years worth of profitable and non-profitable account information be prospective; following the adoption of these rules, FCMs and RFEDs are required to keep and maintain such data going forward on a quarterly basis until such time as they have amassed five years worth of information, at which point they will have to keep and make available the information for the five most recent years. Furthermore, prior to amassing five years of performance information, an FCM or RFED is obligated to provide, upon request by a customer or prospective customer, the historical quarterly performance information for as many quarters as the FCM or RFED has available.

In addition, to provide clarity regarding the type of accounts that must be used in making the calculation of profitable and unprofitable accounts, FCMs and RFEDs must use those retail forex accounts, as defined in Regulation 5.1(i), that are non-discretionary accounts: Provided, that the retail forex account is not a proprietary account, as

14 NFA is currently the only futures association registered with the Commission.

15 See 75 FR 3282, 3285.
defined in Regulation 5.18(i)(3). The Commission believes that excluding proprietary accounts will help minimize the possibility of skewed results stemming from differing methods of calculation. The Commission is also requiring that the data be calculated on a calendar year basis for all counterparties.

**Guarantee Requirement for IBs Who Introduce Retail Forex Business.** The Commission proposed in Regulation 5.18(h) to require that any person within the definition of an IB under Regulation 5.1(f)(1) (or applicant for registration as such, or successor to the business of such) enter into a guarantee agreement with an FCM or an RFED. The IB would be permitted to enter such an agreement with only one FCM or RFED. The rationale behind this requirement was to make FCMs and RFEDs exercise care with regard to entities with which they do business by making them jointly and severally liable for all obligations of the IB under the Act and Commission Regulations with respect to the solicitation of retail forex transactions. This would, in turn, discourage them from associating with IBs without regard to the sales practices employed by those IBs.

Commenters called the banning of independent IBs in the retail forex business harsh and said it could lead to less customer choice and poorer service. Others said that requiring a guarantee agreement was anticompetitive and unnecessary, as most enforcement activity concerns unregistered industry participants, and that guarantee agreements have been a substitute for minimum capital for as long as the IB registration category has existed. After considering the comments, the Commission has determined to permit IBs who register in order to transact retail forex business (like IBs who register to transact futures and commodity options business), to choose between entering into a guarantee agreement with an FCM or RFED, and maintaining the existing IB minimum net capital requirement. Accordingly, IBs, whether they register to do retail forex business, futures business, or both, must comply with the provisions in the Commission’s regulations that apply to IBs; Provided, that any IB that operates pursuant to a guarantee agreement meeting the requirements of Regulation 1.10(j) need not meet the minimum net capital requirements set forth in Regulations 1.10, 1.12 and 1.17.

**Net Capital Requirements for FCMs and RFEDs.** As proposed, Regulation 5.7 implements a minimum net capital requirement for FCMs engaging in retail forex transactions and for RFEDs (as set forth in the CRA), and to the extent that the FCM’s or RFED’s total retail forex obligation to its customers exceeds $10 million, the regulation requires an additional five percent of that excess. Several comments urged the Commission to revise proposed Regulation 5.7 to include an exemption from the additional net capital requirement when the FCM or RFED uses “straight-through-processing.” Referring to the costs imposed by additional capital requirements, the commenters argued that such costs in addition to the limits imposed by several of the other proposed regulatory requirements, would cause much of the retail forex business to be transferred to offshore jurisdictions without (or with substantially reduced) regulatory protections.

The Commission considered but did not adopt NFA’s straight-through processing exemption in its proposal, specifically because the proposed additional capital requirement was intended to provide an additional capital requirement that directly relates to the size of a firm’s liability to retail forex customers. Some firms offering retail forex transactions have liabilities to their retail customers exceeding $10 million. Straight-through processing, although mitigating market exposure for a firm, does not reduce in any way the total liability to retail forex customers who are direct counterparties to the firm and therefore exposed to the credit risk of such firm. Therefore, the Commission is adopting the capital provisions in Section 5.7 as originally proposed. Separately, a comment letter was received significantly after the comment period was closed objecting to the net capital charges applicable to retail foreign currency options set forth in proposed Regulation 5.7(b)(2)(v)(B). The Commission has determined to adopt that provision as proposed, and to clarify that for both FCMs and RFEDs unlisted retail forex options are subject to the existing net capital charges that are applicable to an FCM or any other restricted foreign currency option that is entered into with any eligible contract participant (which treatment is also consistent with the treatment of all unlisted options, including foreign currency options, for securities broker-dealers).

**Requirement To Appoint a Chief Compliance Officer.** Proposed Regulation 5.18(f) calls for each retail forex counterparty (defined to include a retail foreign exchange dealer, an FCM or an affiliated person of an FCM) to designate a Chief Compliance Officer. In proposing this requirement, the Commission sought to promote customer protection by focusing responsibility for an entity’s regulatory compliance. This requirement was criticized on the basis that potential personal liability for a Chief Compliance Office would discourage individuals from assuming that position, and because no comparable requirement exists for firms engaging in on-exchange transactions.

The Commission continues to believe that, given the history of fraudulent and improper behavior in the retail forex business, requiring a Chief Compliance Officer is a reasonable way to ensure that retail forex counterparties observe the highest professional standards and take their compliance obligations seriously. Accordingly, this requirement is retained in final Regulation 5.18.

**Prohibition of Guarantees Against Customer Loss.** Proposed Regulation 5.16 would prohibit, among other things, the making of guarantees against loss to retail foreign exchange customers by FCMs, RFEDs and IBs. One currently registered FCM commented that firms should be allowed to guarantee that clients will not lose more than their account balance because technology allows for automatic liquidation of positions if the account balance falls below margin requirements. The Commission notes that not all retail forex counterparties have comparable capabilities to deal with events such as extremely volatile markets. Moreover, proposed regulation 5.16 is based on Commission Regulation 1.56, which prohibits FCMs and IBs engaged in futures and commodity option transactions from making similar guarantees. At the time the Commission proposed Regulation 1.56, it specifically noted that the use of limited-risk and guarantee-against-loss agreements had “often been associated with patterns of allegedly unlawful conduct by FCMs or other registrants or with the financial instability of such persons.” The Commission does not view these dual concerns—rooted in consumer protection and the financial stability of firms—as any less compelling today and

16 NFA’s Financial Requirement Section 11 currently contains such an exemption from an additional capital requirement for member firms using straight-through-processing for all customer transactions.

17 This argument is diminished by the recent enactment of the Wall Street Reform Act, which clearly indicates the intent of Congress that retail forex transactions in the United States either be comprehensively regulated or be prohibited outright. See Wall Street Reform Act, Sec. 742.

has determined to issue the regulation as proposed.

Specific Authorization for Trades. Two commenters expressed a concern regarding proposed Regulation 5.17, which requires RFEDs, FCMs, IBs, and their APs to have specific authorization by the customer before effecting a retail forex transaction. The concerns centered on the use of automated systems that generate orders based on the trader’s specifications. According to the commenters, both IBs and forex counterparties may run such software on their servers for traders.

Neither commenter provided a great deal of detail regarding the mechanics of such automated trading programs, and the Commission cannot offer its view of any particular program. However, the Commission believes that if such programs are nothing more than automated order entry platforms, and all relevant trading parameters are set and controlled by the customer—including, for example, the designation of the currency pair traded, the amount of currency to be bought or sold, the price at which orders should be placed, and the amount of money to be committed to trading—then trades generated by such programs would originate from the customer and no additional authorization would be required. However, Commission staff will monitor the use of such programs. Any features that would appear to constitute discretion, strategy or advice on the behalf of the sponsoring entity would require a different analysis and, in addition to meeting the requirements of Regulation 5.17, may have additional registration implications.

Requirement To Close Out Offsetting Positions. One commenter objected to the Commission’s proposed amendment to Regulation 1.46, which would require RFEDs and FCMs engaging in off-exchange retail forex transactions to close out offsetting long and short positions in a retail forex customer’s account, regardless of whether a customer instructs otherwise. Citing the prevalence of spread trades in futures trading, the commenter maintained that there is no economic distinction between commodity futures and forex transactions with respect to offsetting long and short positions.

The Commission continues to believe that maintaining open long and short positions in a retail forex customer’s account removes the opportunity for the customer to profit on the transaction, increases the fees paid by the customer, and is something submitted by any commenter has demonstrated otherwise. Moreover, spread trades executed on-exchange typically involve the purchase of one futures delivery month against the sale of another futures delivery month of the same commodity, or the purchase of one delivery month of one commodity against the sale of that same delivery month of a different commodity. Because retail forex contracts are not listed by delivery month, spread trades of this sort are not possible in retail forex accounts, and open long and short contracts in the same currency pair are truly offsetting. Accordingly, the Commission has determined to adopt Regulation 1.46 as proposed.

Re-quoting. Two comments were received regarding Regulation 5.18(f), which would, among other things, prohibit retail forex counterparties from providing a customer a new bid (or asked) price that is higher (or lower) than a previous price without providing a new asked (or bid) price that is higher (or lower) as well. One commenter maintained that the proposed rule would not take into account that in the forex market, spreads can increase dramatically, which might cause the new bid price to be higher and the new ask price to be lower.

While a fast-moving market may affect the spread, the Commission’s proposed rule is intended to apply to those situations where a customer is quoted one bid/asked price, and rather than fill the order, the FCM or RFED provides a second quote. In this situation, the Commission believes that if the forex dealer re-quotes the price, then at a minimum, the spread should remain the same.

A second commenter suggested that the Commission clarify that all “re-quote” practices are required to be objective and evenhanded and that a counterpartparty that re-quotes a price must do so regardless of the direction the market moves. Further, the commenter suggested that the Commission require counterparties to disclose to customers how orders that reach the platform at a price no longer available are handled. The Commission believes the intent of proposed Regulation 5.18 is clear. It requires that, when re-quoting prices, forex counterparties are obligated to do so in a symmetrical fashion, so that the requoted prices do not represent an increase in the spread from the initially quoted prices, regardless of the direction the market moves. As to the objectiveness of the re-quote, the Commission believes that the requirement that both bid and asked prices be re-quoted symmetrically will encourage competition. However, proposed Regulations 5.18(b)(3) and 5.18(b)(iv) require, respectively, that forex counterparties establish and enforce internal rules, procedures and controls to “[f]airly and objectively establish settlement prices for retail forex transactions” and to maintain records reflecting “any method or algorithm used to determine the bid or asked price for any retail forex transaction or the prices at which the customer orders are executed * * *.” The Commission believes that this should provide adequate incentive for firms to deal fairly and objectively with their customers with regard to re-quotes.

Finally, as to the suggested disclosure, as proposed, Regulation 5.5 would require FCMs, RFEDs and IBs engaged in retail forex transactions to distribute to retail forex customers a written disclosure statement containing, among other things, the following statement:

Your ability to close your transactions or offset positions is limited to what your dealer will offer to you, as there is no other market for these transactions. Your dealer may offer you any prices it wishes, and such offer prices derived from outside sources or not in its discretion. Your dealer may establish its prices by offering spreads from third party prices, but it is under no obligation to do so or to continue to do so. Your dealer may offer different prices to different customers at any point in time on its own terms. The terms of your account agreement alone govern the obligations your dealer has to you to offer prices and offer offset or liquidating transactions in your account and make any payments to you. The prices offered by your dealer may or may not reflect prices available elsewhere at any exchange, interbank, or other market for foreign currency.

While the proposed disclosure language does not require a statement regarding how re-quoted prices are handled, it does inform the customer that it is within the discretion of the forex dealer to set prices (provided they otherwise comply with the requirements of Regulation 5.18). For this reason, and those cited above, the Commission has determined to issue Regulation 5.18(f) as proposed.

CTFC Authority To Regulate Zelener Contracts. One commenter, a law firm, argued that the CRA did not grant the Commission the authority to regulate, other than for fraud, FCMs that are primarily or substantially engaged in trading futures contracts on registered exchanges to the extent they also offer off-exchange Zelener, or “futures look-alike” forex, contracts.19 To the extent legislative history suggests that similarly situated RFEDs and FCMs should be subject to the same regulations, the Commission believes that both bid and asked prices be re-quoted symmetrically will encourage competition. However, proposed Regulations 5.18(b)(3) and 5.18(b)(iv) require, respectively, that forex counterparties establish and enforce internal rules, procedures and controls to “[f]airly and objectively establish settlement prices for retail forex transactions” and to maintain records reflecting “any method or algorithm used to determine the bid or asked price for any retail forex transaction or the prices at which the customer orders are executed * * *.” The Commission believes that this should provide adequate incentive for firms to deal fairly and objectively with their customers with regard to re-quotes.

Finally, as to the suggested disclosure, as proposed, Regulation 5.5 would require FCMs, RFEDs and IBs engaged in retail forex transactions to distribute to retail forex customers a written disclosure statement containing, among other things, the following statement:

Your ability to close your transactions or offset positions is limited to what your dealer will offer to you, as there is no other market for these transactions. commenter maintains that this language is restricted to requirements relating to the financial soundness of the forex dealer and nothing else.

The CRA contains several provisions that touch on the scope of the Commission’s jurisdiction over retail off-exchange foreign currency contracts, whether futures or look-alike, leveraged contracts. Retail off-exchange forex futures and options transactions are subject to numerous provisions of the Act including sections 4(b), 4b, 4c(b), 4o, 6(c) and 6(d), 6c, 6d, 8(a), 13(a), 13(b), if they are offered or entered into by an FCM, an RFED, or an affiliate of an FCM that is not one of the otherwise regulated entities specified in the Act.20

The same provisions apply to look-alike forex transactions.21 The CRA clearly gives the Commission full rulemaking authority over the agreements, contracts or transactions in retail forex where “reasonably necessary to effectuate any of the provisions or to accomplish any of the purposes of [the Act].”22 On the other hand, however, while the CRA explicitly grants the Commission rulemaking authority over off-exchange retail futures and options transactions where such transactions are offered or entered into by FCMs, their affiliates or RFEDs,23 its rulemaking authority with regard to look-alike transactions does not explicitly include FCMs. Thus, the commenter concludes that language in Sections 2(c)(2)(C)(i) and 2(c)(2)(C)(iii) limits the Commission’s authority in this area where FCMs are concerned.

The Commission disagrees. Section 8a(5) of the Act gives the Commission the broadest possible authority to “make and promulgate such rules and regulations as, in the judgment of the Commission, are reasonably necessary to effectuate any of the provisions or to accomplish any of the purposes of this Act[].”24 Under this authority, the Commission has promulgated rules covering the full scope of FCM activities generally. Furthermore, the recent Wall Street Reform and Consumer Protection Act of 2010 specifically defines FCMs as any “individual, association, partnership, corporation, or trust * * * that * * * is * * * acting as a counterparty in any agreement, contract or transaction described in Section 2(c)(2)(C)(ii) of the Act[,]” making it clear that the offering of “look-alike” transactions falls within the scope of regulated FCM activity. Accordingly, the Commission sees no deficiencies in its authority to fully regulate FCMs engaged in “look-alike” forex contracts.26

26 The Commission also disagrees with the argument that CRA Conference Report language is inapposite. The Conference Report states that “[t]o the extent their risk profiles are similar, the managers intend for FCMs and RFEDs to be regulated substantially equivalently in terms of their off-exchange retail foreign currency business. The managers do not intend for the Commission to provide either FCMs or RFEDs with a more favorable regulatory environment over the other or to create two significantly different regulatory regimes for similar business models—to the extent the financial risks posed by such operations are similar.” See H.R. Rep. No. 110-627 at 980 (Conf. Rep.) (emphasis added).

Definition of Retail Forex Transactions. One commenter pointed out that the definition of “retail forex transactions” found in proposed Regulation 5.1(n) refers to “any account, agreement, contract or transaction” described in Section 2(c)(2)(B) or 2(c)(2)(C) of the Act and notes that the use of the word “account” in this context is confusing.

Broad language in Section 2(c)(2)(B)(i) of the Act provides the Commission with jurisdiction over “an agreement, contract or transaction in foreign currency” that is a contract of sale of a commodity for future delivery (or an option on such a contract) or an option (other than one traded on a securities exchange). Elsewhere in Section 2(c), the statute states that certain of its provisions apply to “agreements, contracts or transactions * * * and accounts or pooled investment vehicles * * *.”27 In order to accurately reflect the full scope of authority granted it under the Act, the Commission included the word “accounts” within the definition of “retail forex transactions.” The Commission does not view this as in any way inconsistent with language in Section 2(c), as amended by the CRA, and has determined to adopt the regulation as proposed.

Anticompetitiveness. In addition to similar comments specifically referencing proposed Regulation 5.9 (security deposits) and 5.18(h) (guaranteed IBs)—which are addressed above—the Commission received numerous comments arguing that various other sections of the proposed rules were “anticompetitive” insofar as there is no comparable requirement relative to those engaged in futures transactions on designated contract markets. As the Commission pointed out in its Proposing Release, it has, whenever possible, drawn upon the principles that have guided it in the regulation of on-exchange instruments. However, the Commission also noted that there are essential differences between the trading futures contracts on designated contract markets that are cleared through designated clearing organizations, on the one hand, and off-exchange transactions between forex firms and retail customers, on the other.28

Given the principal-to-principal nature of retail forex transactions and the inherent conflicts of interest in the relationship between the retail customer and the dealer/counterparty, the lack of transparency in the pricing and execution of such transactions, and the volume of fraud the Commission has seen arising from such transactions, the Commission has determined to promulgate some regulations that are unique to, and tailored to, retail forex transactions. By way of example, the Commission’s proposed regulations included requirements that forex registrants maintain records of customer complaints; that counterparties disclose, with the Risk Disclosure Statement, the percentage of profitable nondiscretionary forex customer accounts; and that forex counterparties designate a chief compliance officer to be responsible for development and implementation of customer protection policies and procedures. To the extent the final rules published today do not track precisely with rules applicable to on-exchange futures trading, the Commission believes that the differences reflect meaningful differences in the market structure of retail forex transactions and that the rules issued today are no more restrictive or burdensome than necessary to address these differences.

Scope of Commission’s Authority and Application of Other Rules. Several commenters lodged criticisms or made observations that go to the scope of the Commission’s authority, as provided in the Act and CRA, or otherwise. For example, several commenters maintained that the Commission should require segregation of customer funds by counterparties in order to provide some protection in the event of a counterparty insolvency. The Commission’s segregation requirements with regard to futures flow from Section 4d of the Act29 which, generally speaking, requires that customer property for trading commodity contracts be kept apart, or segregated, from the FCM’s own funds. However, as noted in the

25 See Wall Street Reform Act, Sec. 721(a)(13).
26 75 FR 3282, 3285–86.
Commission’s proposing release, a segregated funds regime cannot be replicated in the context of off-exchange retail forex trading. Unlike segregation of customer funds deposited for futures trading, under the relevant provisions of the Bankruptcy Code, such amounts held in connection with retail forex trading would not receive any preferential treatment to unsecured creditors in bankruptcy.

Similarly, some commenters took issue with the definitions of certain intermediaries and the capital requirements, found in the Proposing Release. Here again, the Commission is bound by statutory language that defines the scope of its authority. While the Commission appreciates the concerns expressed by these commenters and the time they have taken to express them, it can do no more than its statutory authority permits.

III. Related Matters

A. Regulatory Flexibility Act

FCMs and CPOs: The Regulatory Flexibility Act ("RFA") requires that agencies, in proposing rules, consider the impact of those rules on small businesses. The Commission has already established certain definitions of “small entities” to be used in evaluating the impact of its rules on such small entities in accordance with the RFA. In that statement, the Commission concluded that neither FCMs nor registered CPOs should be considered to be small entities for purposes of the RFA. With respect to FCMs, the Commission’s determination was based in part upon their obligation to meet the capital requirement established by the Commission and the purposes of protecting financial integrity.

As for CPOs, the Commission determined that registered CPOs are not small entities based upon its existing regulatory standard for exempting certain small CPOs from the requirement to register under the Act. (A CPO need not register with the Commission if the gross capital contributions for all pools under its management do not exceed $400,000 and there are not more than fifteen participants in any one of those pools.)

Thus, with respect to FCMs and registered CPOs, the Commission believes that these final rules will not have a significant economic impact on a substantial number of small entities.

CTAs: The Commission has previously determined to evaluate, within the context of a particular rule proposal, whether all or some CTA’s should be considered to be small entities, and if so, to then analyze the economic impact on them of any such rule. CTA’s wishing to advise retail forex customers may include both currently registered CTA’s and previously unregistered persons who now will be required to register. As to the first group, there should be no significant new economic impact. As to the second group, registration will require the submission of application forms, fingerprinting of principals, and payment of registration fees. To the extent that CTA’s can be considered to be small entities, the Commission does not consider either the proposed registration fee or the proposed fingerprinting requirement for newly registered CTA’s to have significant economic impact.

IBs: In 1983, the Commission proposed that for purposes of the RFA and future rulemakings, it would not consider introducing brokers to be “small entities” for essentially the same reasons that FCMs had previously been determined not to be small entities. This was based, in part, on the fact that IBs, like FCMs, are required to maintain a specified level of adjusted net capital. In the Proposing Release, retail forex IBs would not have been subject to a capital requirement; rather, they would have had to operate pursuant to a guarantee agreement. Under the final rules, retail forex IBs will be treated no differently than futures IBs. Accordingly, and in keeping with past Commission determinations, the Commission believes that the final rules with respect to IBs will not have a significant impact on a substantial number of small entities.

RFEDs: RFEDs are a new category of registrant. The Commission does not believe that there are regulatory alternatives to those being proposed which would be consistent with the statutory mandate to provide protection to the public against irresponsible or fraudulent business practices. In the Proposing Release, the Commission proposed that RFEDs not be considered to be “small entities” for essentially the same reasons that FCMs have previously been determined not to be small entities. As with FCMs, a requirement to maintain a specified level of adjusted net capital would be imposed upon RFEDs to ensure that they maintain sufficient capital resources to guarantee their financial accountability and to promote responsible and reliable business operations. Moreover, the Commission has sought to fashion its proposed regulatory program for RFEDs in a manner which is responsive to the function, purposes, and size of the entity being regulated consistent with the objective of the RFA. In particular, the minimum capital requirement required by the CRA effectuates the Congressional purpose that RFEDs maintain sufficient reserve capital of credit to remain economically viable. For the reasons stated above, the Commission will not define RFEDs as small entities for RFA purposes.

B. Paperwork Reduction Act

Under the Paperwork Reduction Act of 1995 ("PRA") an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number. The Commission’s final rules regarding retail forex transactions result in information collection requirements within the meaning of the PRA. The Commission submitted the proposing release along with supporting documentation to the Office of Management and Budget ("OMB") for review in accordance with 44 U.S.C. 3507(d) and 5 CFR 1320.11. The Commission requested that OMB approve, and with respect to the collections required under the new part 5 of the Commission’s regulations, assign a new control number for, the collections of information required by the proposing release. The information collection burdens created by the Commission’s proposed rules, which were discussed in detail in the proposing release, are identical to the collective information collection burdens of the final rules.

The Commission invited the public and other Federal agencies to comment on any aspect of the information

collection requirements discussed above. The Commission received no comment on its burden estimates or on any other aspect of the information collection requirements contained in its proposing release. The affected collections are as follows:

- Existing Collection 3038–0024 (part 1 of the Commission’s regulations);
- Existing Collection 3038–0023 (part 3 of the Commission’s regulations);
- Existing Collection 3038–0005 (part 4 of the Commission’s regulations);
- Existing Collection 3038–0053 (part 160 of the Commission’s regulations);
- New Collection 3038–0062 (part 5 of the Commission’s regulations).

C. Cost-Benefit Analysis

Section 15(a) of the Act requires the Commission to consider the costs and benefits of its action before issuing new regulations under the Act. By its terms, section 15(a) does not require the Commission to quantify the costs and benefits of a new regulation or to determine whether the benefits of the regulation outweigh its costs. Rather, section 15(a) simply requires the Commission to “consider the costs and benefits” of its action.

Section 15(a) further specifies that costs and benefits shall be evaluated in light of five broad areas of market and public concern, enumerated below. Accordingly, the Commission could, in its discretion, give greater weight to any one of the five enumerated areas and could, in its discretion, determine that, notwithstanding its costs, a particular rule was necessary or appropriate to protect the public interest or to effectuate any of the provisions or to accomplish any of the purposes of the Act.

As discussed in more detail above, these amendments are intended to create a comprehensive scheme to implement the requirements of the CRA, and to put in place requirements including registration, disclosure, recordkeeping, financial reporting, minimum capital and other operational standards. This is to be achieved through both amendments to existing regulations and the creation of a new, free-standing part to the Commission’s regulations. The Commission is considering the costs and benefits of the amendments in light of the specific provisions of section 15(a) as follows:

1. Protection of market participants and the public. The amendments should enhance considerably the protection of market participants and the public because they require, for the first time, the registration of several categories of market participants and require adherence to operational standards that have not previously applied. The benefits that inhere in the imposition of these requirements to a sector of the off-exchange market that has been largely unregulated to this point, and which is geared towards the retail public, are manifest.

2. Efficiency and competition. In its Conference Report, Congress indicated that the Commission should avoid creating two different regulatory regimes for similar business models with respect to FCMs or RFEDs engaging in off-exchange retail forex transactions. Accordingly, the Commission has endeavored to ensure that these entities be treated in comparable fashion relative to one another. Moreover, the Commission has endeavored, wherever possible, to propose regulations in part 5 that are analogous to regulations imposed upon intermediaries engaged in on-exchange transactions. Accordingly, the Commission believes that it has provided an even handed regulatory scheme that will be familiar to industry participants.

3. Financial integrity of futures markets and price discovery. The amendments concern retail, off-exchange markets. These markets serve primarily as a vehicle for members of the retail public to engage in speculative transactions. Accordingly, the Commission does not perceive a significant intersection between the operations of these markets and the financial integrity or price discovery functions of the markets generally.

4. Sound risk management practices. The amendments include requirements regarding capital, financial reporting, risk assessment recordkeeping, and risk assessment reporting that are comparable to those required of entities engaged in on-exchange trading. The Commission believes that the benefits of these risk management requirements— which strive to ensure the financial soundness of firms—have been borne out on the exchange-traded side and will be of significant benefit with regard to its oversight of retail forex counterparties.

5. Other public interest considerations. The retail, off-exchange forex market has been largely unregulated until now. The Commission

(j) Requirements for guarantee agreement. (1) A guarantee agreement filed pursuant to this section must be signed in a manner sufficient to be a binding guarantee under local law by an appropriate person on behalf of the futures commission merchant or retail foreign exchange dealer and each signature must be accompanied by evidence that the signatory is authorized to enter the agreement on behalf of the futures commission merchant, retail foreign exchange dealer, or introducing broker and is such an appropriate person. For purposes of this paragraph (j), an appropriate person shall be the proprietor, if the firm is a sole proprietorship; a general partner, if the firm is a partnership; and either the chief executive officer or the chief financial officer of a corporation; and, if the firm is a limited liability company or limited liability partnership, either the chief executive officer, the chief financial officer, the manager, the managing member, or those members vested with the management authority for the limited liability company or limited liability partnership.

(2) No futures commission merchant or retail foreign exchange dealer may enter into a guarantee agreement if:

(i) It knew or should have known that its adjusted net capital is less than the amount set forth in § 1.12(b) of this part or § 5.6(b) of this chapter, as applicable; or

(ii) There is filed against the futures commission merchant or retail foreign exchange dealer an adjudicatory proceeding brought by or before the Commission pursuant to the provisions of sections 6(c), 6(d), 6c, 6d, 8a or 9 of the Act or §§ 3.55, 3.56 or 3.60 of this chapter.

(3) A retail foreign exchange dealer may enter into a guarantee agreement only with an introducing broker as defined in § 5.1(f)(1) of this chapter. A retail foreign exchange dealer may not enter into a guarantee agreement with an introducing broker as defined in § 1.3(mm) of this part.

(4) A guarantee agreement filed in connection with an application for initial registration as an introducing broker in accordance with the provisions of § 3.10(a) of this chapter shall become effective upon the granting of registration or, if appropriate, a temporary license, to the introducing broker. A guarantee agreement filed other than in connection with an application for initial registration as an introducing broker shall become effective as of the date agreed to by the parties.

(5)(i) If the registration of the introducing broker is suspended, revoked, or withdrawn in accordance with the provisions of this chapter, the guarantee agreement shall expire as of the date of such suspension, revocation or withdrawal.

(ii) If the registration of the futures commission merchant or retail foreign exchange dealer is suspended or revoked, the guarantee agreement shall expire 30 days after such suspension or revocation, or at such earlier time as may be approved by the Commission, the introducing broker, and the introducing broker’s designated self-regulatory organization.

(6) A guarantee agreement may be terminated at any time during the term thereof:

(i) By mutual written consent of the parties, signed by an appropriate person on behalf of each party, with prompt written notice thereof, signed by an appropriate person on behalf of each party, to the Commission and to the designated self-regulatory organizations of the futures commission merchant or retail foreign exchange dealer and the introducing broker;

(ii) For good cause shown, by either party giving written notice of its intention to terminate the agreement, signed by an appropriate person, to the other party to the agreement, to the Commission, and to the designated self-regulatory organizations of the futures commission merchant or retail foreign exchange dealer, as appropriate.
commission merchant or retail foreign exchange dealer and the introducing broker; or

(iii) By either party giving written notice of its intention to terminate the agreement, signed by an appropriate person, at least 30 days prior to the proposed termination date, to the other party to the agreement, to the Commission, and to the designated self-regulatory organizations of the futures commission merchant or retail foreign exchange dealer and the introducing broker.

(7) The termination of a guarantee agreement by a futures commission merchant, retail foreign exchange dealer or an introducing broker, or the expiration of such an agreement, shall not relieve any party from any liability or obligation arising from acts or omissions which occurred during the term of the agreement.

(8) An introducing broker may not simultaneously be a party to more than one guarantee agreement: Provided, however, That the provisions of this paragraph (j)(8) shall not be deemed to preclude an introducing broker from entering into a guarantee agreement with another futures commission merchant or retail foreign exchange dealer if the introducing broker, futures commission merchant or retail foreign exchange dealer which is a party to the existing agreement has provided notice of termination of the existing agreement in accordance with the provisions of paragraph (j)(6) of this section, and the new guarantee agreement does not become effective until the day following the date of termination of the existing agreement: And, provided further, That the provisions of this paragraph (j)(8) shall not be deemed to preclude an introducing broker from entering into a guarantee agreement with another futures commission merchant or retail foreign exchange dealer if the futures commission merchant or retail foreign exchange dealer which is a party to the existing agreement ceases to remain registered and the existing agreement would therefore expire in accordance with the provisions of paragraph (j)(6)(ii) of this section.

(9)(i)(A) An introducing broker that is a party to a guarantee agreement that has been terminated in accordance with the provisions of paragraph (j)(6) of this section, or that is due to expire in accordance with the provisions of paragraph (j)(5)(ii) of this section, must cease doing business as an introducing broker on or before the effective date of such termination or expiration unless, on or before the effective date of such termination or expiration or such other period of time as the Commission or the designated self-regulatory organization may allow for good cause shown, the introducing broker files with its designated self-regulatory organization either a new guarantee agreement effective as of the day following the date of termination of the existing agreement, or, in the case of a guarantee agreement that is due to expire in accordance with the provisions of paragraph (j)(4)(ii) of this section, a new guarantee agreement effective on or before such expiration, or either:

(1) A Form 1–FR–IB certified by an independent public accountant in accordance with §1.16 as of a date not more than 45 days prior to the date on which the report is filed; or

(2) A Form 1–FR–IB as of a date not more than 17 business days prior to the date on which the report is filed and a Form 1–FR–IB certified by an independent public accountant in accordance with §1.16 as of a date not more than one year prior to the date on which the report is filed: Provided, however, that an introducing broker as defined in §5.1(f)(1) of this chapter that is party to a guarantee agreement that has been terminated must cease doing business as an introducing broker from and after the effective date of such termination, and may not resume doing business as an introducing broker from and after the effective date of such termination, and may not resume doing business as an introducing broker unless and until it files a new guarantee agreement.

(B) Each person filing a Form 1–FR–IB in accordance with this section must include with the financial report a statement describing the source of his current assets and representing that his capital has been contributed for the purpose of operating his business and will continue to be used for such purpose.

§ 1.35 Records of cash commodity, futures, and option transactions.

(a) Futures commission merchants, retail foreign exchange dealers, introducing brokers, and members of contract markets. Each futures commission merchant, retail foreign exchange dealer, introducing broker, and member of a contract market shall keep full, complete, and systematic records, together with all pertinent data and memoranda, of all transactions relating to its business of dealing in commodity futures, retail forex transactions, commodity options, and cash commodities (including currencies). Each futures commission merchant, retail foreign exchange dealer, introducing broker, and member of a contract market shall retain the required records, data, and memoranda in accordance with the requirements of §1.31, and produce them for inspection and furnish true and correct information and reports as to the contents or the meaning thereof, when and as requested by an authorized representative of the Commission or the United States.
Department of Justice. Included among such records shall be all orders (filled, unfilled, or canceled), trading cards, signature cards, street books, journals, ledgers, canceled checks, copies of confirmations, copies of statements of purchase and sale, and all other records, data and memoranda, which have been prepared in the course of its business of dealing in commodity futures, retail foreign transactions, commodity options, and cash commodities. Among such records each member of a contract market must retain and produce for inspection all documents on which trade information is originally recorded, whether or not such documents must be prepared pursuant to the rules or regulations of either the Commission or the contract market. For purposes of this section, such documents are referred to as “original source documents.”

(a–1) Futures commission merchants, retail foreign exchange dealers, introducing brokers, and members of contract markets: Recording of orders. (1) Each futures commission merchant, each retail foreign exchange dealer and each introducing broker receiving a customer’s or option customer’s order, as applicable, shall immediately upon receipt thereof prepare a written record of the order including the account identification, except as provided in paragraph (a–1)(5) of this section, and order number, and shall record thereon, by timestamp or other timing device, the date and time, to the nearest minute, the order is received. In addition, for option customers’ orders, the time, to the nearest minute, the order is transmitted for execution.

(ii) Each member of a contract market who on the floor of such contract market receives a customer’s or option customer’s order which is not in the form of a written record shall, immediately upon receipt of such order, prepare a written record of the order in nonerasable ink including the account identification and order number and shall record thereon, by time-stamp or other timing device, the date and time, to the nearest minute, the order is received; or

(B) The member placing the order personally executes one or more legs of the trade; and

(C) The member receiving and executing such order immediately upon execution of the order records the time of execution to the nearest minute on his trading card or other record maintained in accordance with the requirements of paragraph (d) of this section.

(ii) Each contract market shall, as part of its trade practice surveillance program, conduct surveillance for compliance with the recordkeeping and other requirements under paragraphs (a–1)(2) and (3) of this section, and for trading abuses related to the execution of orders for members present on the floor of the contract market.

(4) Each member of a contract market reporting the execution from the floor of the contract market of a customer’s or option customer’s order or the order of another member of the contract market received in accordance with paragraphs (a–1)(2)(i) or (a–1)(2)(ii)(A) of this section, shall record on a written record of the order, including the account identification, except as provided in paragraph (a–1)(5) of this section, and order number, by timestamp or other timing device, the date and time to the nearest minute such report of execution is made. Each member of a contract market shall submit the written records of customer orders or orders from other contract market members to contract market personnel or to the clearing member responsible for the collection of orders prepared pursuant to this paragraph as required by contract market rules adopted in accordance with paragraph (a–1)(12)(A) of the Act and Commission Regulation 1.41. Such rules shall, at a minimum, require that the contemporaneous written records:

(A) Contain the terms of the order;

(B) Include reliable timing data for the initiation and execution of the order which would permit complete and effective reconstruction of the order placement and execution; and

(C) Be submitted to contract market personnel or clearing members in accordance with contract market rules adopted pursuant to paragraph (j)(1) of this section.

(5) Post-execution allocation of bunched orders. Specific customer account identifiers for accounts included in bunched orders need not be recorded at time of order placement or upon report of execution if the requirements of paragraphs (a–1)(5)(i)–(iv) of this section are met.

(i) Eligible account managers. The person placing and directing the execution of an eligible order eligible for post-execution allocation must have been granted written investment discretion
with regard to participating customer accounts. The following persons shall qualify as eligible account managers:

(A) A commodity trading advisor registered with the Commission pursuant to the Act or excluded or exempt from registration under the Act or the Commission’s rules, except for entities exempt under §4.14(a)(3) or §4.14(a)(6) of this chapter;

(B) An investment adviser registered with the Securities and Exchange Commission pursuant to the Investment Advisers Act of 1940 or with a state pursuant to applicable state law or excluded or exempt from registration under such Act or applicable state law or rule;

(C) A bank, insurance company, trust company, or savings and loan association subject to federal or state regulation; or

(D) A foreign adviser that exercises discretionary trading authority solely over the accounts of non-U.S. persons, as defined in §4.7(a)(1)(iv) of this chapter.

(ii) Information. Eligible account managers shall make the following information available to customers upon request:

(A) The general nature of the allocation methodology the account manager will use;

(B) Whether accounts in which the account manager may have any interest may be included with customer accounts in bunched orders eligible for post-execution allocation; and

(C) Summary or composite data sufficient for that customer to compare its results with those of other comparable customers and, if applicable, any account in which the account manager has an interest.

(iii) Allocation. Orders eligible for post-execution allocation must be allocated by an eligible account manager in accordance with the following:

(A) Allocations must be made as soon as practicable after the entire transaction is executed, but in any event account managers must provide allocation information to futures commission merchants no later than a time sufficiently before the end of the day the order is executed to ensure that clearing records identify the ultimate customer for each trade.

(B) Allocations must be fair and equitable. No account or group of accounts may receive consistently favorable or unfavorable treatment.

(C) The allocation methodology must be sufficiently objective and specific to permit independent verification of the fairness of the allocations using that methodology by appropriate regulatory and self-regulatory authorities and by outside auditors.

(iv) Records. (A) Eligible account managers shall keep and must make available upon request of any representative of the Commission, the United States Department of Justice, or other appropriate regulatory agency, the information specified in paragraph (a–1)(5)(iii) of this section.

(B) Eligible account managers shall keep and must make available upon request of any representative of the Commission, the United States Department of Justice, or other appropriate regulatory agency, records sufficient to demonstrate that all allocations meet the standards of paragraph (a–1)(5)(iii) of this section and to permit the reconstruction of the handling of the order from the time of placement by the account manager to the allocation to individual accounts.

RISK DISCLOSURE STATEMENT

YOU SHOULD CAREFULLY CONSIDER WHETHER YOUR FINANCIAL CONDITION PERMITS YOU TO PARTICIPATE IN A COMMODITY POOL. IN SO DOING, YOU SHOULD BE AWARE THAT COMmodity INTEREST TRADING CAN QUICKLY LEAD TO LARGE LOSSES AS WELL AS GAINS. SUCH TRADING LOSSES CAN SHARPLY REDUCE THE NET ASSET VALUE OF THE POOL AND CONSEQUENTLY THE VALUE OF YOUR INTEREST IN THE POOL. IN ADDITION, RESTRICTIONS ON REDEEMPTIONS MAY AFFECT YOUR ABILITY TO WITHDRAW YOUR PARTICIPATION IN THE POOL.

(4) If the pool may engage in retail forex transactions, the Risk Disclosure Statement must further state:

YOU SHOULD ALSO BE AWARE THAT THIS COMMODITY POOL MAY ENGAGE IN OFF-EXCHANGE FOREIGN CURRENCY TRADING, SUCH TRADING IS NOT CONDUCTED IN THE INTERBANK MARKET. THE FUNDS THAT THE POOL USES FOR OFF-EXCHANGE FOREIGN CURRENCY TRADING WILL NOT RECEIVE THE SAME PROTECTIONS AS FUNDS USED TO MARGIN OR GUARANTEE EXCHANGE-TRADED FUTURES AND OPTION CONTRACTS. IF THE POOL DEPOSITS SUCH FUNDS WITH A COUNTERPARTY AND THAT COUNTERPARTY BECOMES INSOLVENT, THE POOL’S CLAIM FOR AMOUNTS DEPOSITED OR PROFITS EARNED ON TRANSACTIONS WITH THE COUNTERPARTY MAY NOT BE TREATED AS A COMMODITY CUSTOMER CLAIM FOR PURPOSES OF SUBCHAPTER IV OF CHAPTER 7 OF THE BANKRUPTCY CODE AND THE REGULATIONS THEREUNDER. THE POOL MAY BE A GENERAL CREDITOR AND ITS CLAIM MAY BE PAID, ALONG WITH THE CLAIMS OF OTHER GENERAL CREDITORS, FROM ANY MONIES STILL AVAILABLE AFTER PRIORITY CLAIMS ARE PAID. EVEN POOL FUNDS THAT THE COUNTERPARTY KEEPS SEPARATE FROM ITS OWN FUNDS MAY NOT BE SAFE FROM THE CLAIMS OF PRIORITY AND OTHER GENERAL CREDITORS.

(6) If known, the futures commission merchant and/or retail foreign exchange dealer through which the pool will execute its trades, and, if applicable, the introducing broker through which the pool will introduce its trades to the futures commission merchant and/or retail foreign exchange dealer.

This description must include, if applicable, an explanation of the systems used to select commodity trading advisors, investee pools and types of investment activity to which pool assets will be committed.

(4) Any costs or fees included in the spread between bid and asked prices for retail forex transactions; and

(6) Any other person providing services to the pool or soliciting participants for the pool, or acting as a counterparty to the pool’s retail forex transactions (as defined in § 5.1(m) of this chapter).
whereby a person may benefit, directly or indirectly, from the maintenance of the pool’s account with the futures commission merchant and/or retail foreign exchange dealer, or from the introduction of the pool’s account to a futures commission merchant and/or retail foreign exchange dealer by an introducing broker (such as payment for order flow or soft dollar arrangements) or from an investment of pool assets in investee pools or funds or other investments.

(a) Risk Disclosure Statement. The following Risk Disclosure Statement must be prominently displayed immediately following any disclosures required to appear on the cover page of the Disclosure Document as provided by the Commission, by any applicable federal or state securities laws and regulations or by any applicable laws of non-United States jurisdictions:

RISK DISCLOSURE STATEMENT

THE RISK OF LOSS IN TRADING COMMODITY INTERESTS CAN BE SUBSTANTIAL. YOU SHOULD THEREFORE CAREFULLY CONSIDER WHETHER SUCH TRADING IS SUITABLE FOR YOU IN LIGHT OF YOUR PERSONAL FINANCIAL CONDITION. IN CONSIDERING WHETHER TO TRADE OR TO AUTHORIZE SOMEONE ELSE TO TRADE FOR YOU, YOU SHOULD BE AWARE OF THE FOLLOWING:

IF YOU PURCHASE A COMMODITY OPTION YOU MAY SUSTAIN A TOTAL LOSS OF THE PREMIUM AND OF ALL TRANSACTION COSTS.

IF YOU PURCHASE OR SELL A COMMODITY FUTURES CONTRACT OR SELL A COMMODITY OPTION OR ENGAGE IN OFF-EXCHANGE FOREIGN CURRENCY TRADING YOU MAY SUSTAIN A TOTAL LOSS OF THE INITIAL MARGIN FUNDS OR SECURITY DEPOSIT AND ANY ADDITIONAL FUNDS THAT YOU DEPOSIT WITH YOUR BROKER TO ESTABLISH OR MAINTAIN YOUR POSITION. IF THE MARKET MOVES AGAINST YOUR POSITION, YOU MAY BE CALLED UPON BY YOUR BROKER TO DEPOSIT A SUBSTANTIAL AMOUNT OF ADDITIONAL MARGIN FUNDS, ON SHORT NOTICE, IN ORDER TO MAINTAIN YOUR POSITION. IF YOU DO NOT PROVIDE THE REQUESTED FUNDS WITHIN THE PRESCRIBED TIME, YOUR POSITION MAY BE LIQUIDATED AT A LOSS, AND YOU WILL BE LIABLE FOR ANY RESULTING DEFICIT IN YOUR ACCOUNT.

UNDER CERTAIN MARKET CONDITIONS, YOU MAY FIND IT DIFFICULT OR IMPOSSIBLE TO LIQUIDATE A POSITION. THIS CAN OCCUR, FOR EXAMPLE, WHEN THE MARKET MAKES A “LIMIT MOVE,” THE PLACEMENT OF CONTINGENT ORDERS BY YOU OR YOUR TRADING ADVISOR, SUCH AS A “STOP-LOSS” OR “STOP-LIMIT” ORDER, WILL NOT NECESSARILY LIMIT YOUR LOSSES.
TO THE INTENDED AMOUNTS, SINCE MARKET CONDITIONS MAY MAKE IT IMPOSSIBLE TO EXECUTE SUCH ORDERS.

A “SPREAD” POSITION MAY NOT BE LESS RISKY THAN A SIMPLE “LONG” OR “SHORT” POSITION.

THE HIGH DEGREE OF LEVERAGE THAT IS OFTEN OBTAINABLE IN COMMODITY INTEREST TRADING CAN WORK AGAINST YOU AS WELL AS FOR YOU. THE USE OF LEVERAGE CAN LEAD TO LARGE LOSSES AS WELL AS GAINS.

IN SOME CASES, MANAGED COMMODITY ACCOUNTS ARE SUBJECT TO SUBSTANTIAL CHARGES FOR MANAGEMENT AND ADVISORY FEES. IT MAY BE NECESSARY FOR THOSE ACCOUNTS THAT ARE SUBJECT TO THESE CHARGES TO MAKE SUBSTANTIAL TRADING PROFITS TO AVOID DEPLETION OR EXHAUSTION OF THEIR ASSETS. THIS DISCLOSURE DOCUMENT, AT PAGE (insert page number), A COMPLETE DESCRIPTION OF EACH FEE TO BE CHARGED TO YOUR ACCOUNT BY THE COMMODITY TRADING ADVISOR.

THIS BRIEF STATEMENT CANNOT DISCLOSE ALL THE RISKS AND OTHER SIGNIFICANT ASPECTS OF THE COMMODITY INTEREST MARKETS. YOU SHOULD THEREFORE CAREFULLY STUDY THIS DISCLOSURE DOCUMENT AND COMMODITY INTEREST TRADING BEFORE YOU TRADE, INCLUDING THE DESCRIPTION OF THE PRINCIPAL RISK FACTORS OF THIS INVESTMENT, AT PAGE (insert page number).

(2) (i) If the commodity trading advisor may trade foreign futures or options contracts pursuant to the offered trading program, the Risk Disclosure Statement must further state the following: YOU SHOULD ALSO BE AWARE THAT THIS COMMODITY TRADING ADVISOR MAY ENGAGE IN OFF-EXCHANGE FOREIGN CURRENCY TRADING. SUCH TRADING IS NOT CONDUCTED IN THE INTERBANK MARKET. THE FUNDS DEPOSITED WITH A COUNTERPARTY FOR SUCH TRANSACTIONS WILL NOT RECEIVE THE SAME PROTECTIONS AS FUNDS USED TO MARGIN OR GUARANTEE EXCHANGE TRADABLE FUTURES AND OPTION CONTRACTS. IF THE COUNTERPARTY BECOMES INSOLVENT AND YOU HAVE A CLAIM FOR AMOUNTS DEPOSITED OR PROFITS EARNED ON TRANSACTIONS WITH THE COUNTERPARTY, YOUR CLAIM MAY NOT BE TREATED AS A COMMODITY CUSTOMER CLAIM FOR PURPOSES OF SUBCHAPTER IV OF CHAPTER 7 OF THE BANKRUPTCY CODE AND REGULATIONS THEREUNDER. YOU MAY BE A GENERAL CREDITOR AND YOUR CLAIM MAY BE PAID ALONG WITH THE CLAIMS OF OTHER GENERAL CREDITORS, FROM ANY MONIES STILL AVAILABLE AFTER PRIORITY CLAIMS ARE PAID. EVEN FUNDS THAT THE COUNTERPARTY KEEPS SEPARATE FROM ITS OWN FUNDS MAY NOT BE SAFE FROM THE CLAIMS OF PRIORITY AND OTHER GENERAL CREDITORS. FURTHER, YOU SHOULD CAREFULLY REVIEW THE INFORMATION CONTAINED IN THE RISK DISCLOSURE STATEMENT OF THE FUTURES COMMISSION MERCHANT OR RETAIL FOREIGN EXCHANGE DEALER THAT YOU SELECT TO CARRY YOUR ACCOUNT.

(3) If the commodity trading advisor is not also a registered futures commission merchant or a registered retail foreign exchange dealer, the trading advisor must make the additional following statement in the Risk Disclosure Statement, to be included as the last paragraph thereof: THIS COMMODITY TRADING ADVISOR IS SUBJECT BY LAW FROM ACCEPTING FUNDS IN THE TRADING ADVISOR’S NAME FROM A CLIENT FOR TRADING COMMODITY INTERESTS, YOU MUST PLACE ALL FUNDS FOR TRADING IN THIS TRADING PROGRAM DIRECTLY WITH A FUTURES COMMISSION MERCHANT OR RETAIL FOREIGN EXCHANGE DEALER, AS APPLICABLE. * * * * * (e) (2) The futures commission merchant and/or retail foreign exchange dealer with which the commodity trading advisor will require the client to maintain its account or, if the client is free to choose the futures commission merchant or retail foreign exchange dealer with which it will maintain its account, the trading advisor must make a statement to that effect; and * * * * *

(g) Principal risk factors. A discussion of the principal risk factors of this trading program. (h) Trading program. A description of the trading program, which must include the method chosen by the commodity trading advisor concerning how futures commission merchants and/or retail foreign exchange dealers carrying accounts it manages shall treat offsetting positions pursuant to §1.46 of this chapter, if the method is other than to close out all offsetting positions or to close out offsetting positions on other than a first-in, first-out basis, and the types of commodity interests and other interests the commodity trading advisor intends to trade, with a description of any restrictions or limitations on such trading established by the trading advisor or otherwise.

(i) * * * (2) Where any fee is determined by reference to a base amount including, but not limited to, “net assets,” “gross profits,” “net profits,” “net gains,” “pips,” or “bid-asked spread,” the trading advisor must explain how such base amount will be calculated. Where any fee is based on the difference between bid and asked prices on retail forex transactions (as defined in §5.1(m) of this chapter), the trading advisor must explain how such fee will be calculated; * * * * *

§ 5.5 Distribution of Risk Disclosure Statement.

(a) Except as provided in § 5.23 of this part, no retail foreign exchange dealer, futures commission merchant, or in the case of an introduced account no introducing broker, may open an account that will engage in retail forex transactions for a retail forex customer, unless the retail foreign exchange dealer, futures commission merchant or introducing broker first:

(1)(i) In the case of a retail foreign exchange dealer or a person required to register as an introducing broker solely by reason of this part, furnishes the retail forex customer with a separate written disclosure statement containing only the language set forth in paragraph (b) of this section and the disclosure required by paragraph (e) of this section;

(ii) In the case of a futures commission merchant or a person required to register as an introducing broker because it engages in the activities described in § 1.3(mm) of this chapter, furnishes the retail forex customer with a separate written disclosure statement containing only the language set forth in paragraph (b) of this section and the disclosure required by paragraph (e) of this section;

Provided, however, that the disclosure statement may be attached to other documents as the initial page(s) of such documents and as the only material on such page(s); and

(2) Receives from the retail forex customer an acknowledgment signed and dated by the retail forex customer that he received and understood the disclosure statement.

(b) The language set forth in the written disclosure statement required by paragraph (a) of this section shall be as follows:

RISK DISCLOSURE STATEMENT

OFF-EXCHANGE FOREIGN CURRENCY TRANSACTIONS INVOLVE THE LEVERAGE AND RISK BETWEEN THE BROKER-DEALER AND THE CUSTOMER. THE RISK OF LEVERAGE IS THAT YOU MAY LOSE MORE THAN THE VALUE OF YOUR INITIAL DEPOSIT. YOU SHOULD BE AWARE OF AND CAREFULLY CONSIDER THE FOLLOWING POINTS BEFORE ENGAGING IN ANY FOREIGN CURRENCY TRADING:

(1) TRADING IS NOT ON A REGULATED MARKET OR EXCHANGE—YOUR DEALER IS YOUR TRADING PARTNER WHICH IS A DIRECT CONFLICT OF INTEREST.

BEFORE YOU ENGAGE IN ANY RETAIL FOREIGN EXCHANGE TRADING, YOU SHOULD CONFIRM THE REGISTRATION STATUS OF YOUR COUNTERPARTY.

The off-exchange foreign currency trading you are entering into is not conducted on an exchange or market, nor is it conducted on a futures exchange subject to regulation as a designated contract market by the Commodity Futures Trading Commission. The foreign currency trades you transact are trades with the futures commission merchant or retail foreign exchange dealer as your counterparty. WHEN YOU SELL, THE DEALER IS THE BUYER. WHEN YOU BUY, THE DEALER IS THE SELLER. As a result, when you lose money trading, your dealer may offer any prices it chooses, and you may lose more than the value of your initial deposit. Because of the lack of government regulation of retail foreign exchange trading, your dealer may have unregulated trading practices that are not subject to the government’s authority.

(2) AN ELECTRONIC TRADING PLATFORM FOR RETAIL FOREIGN CURRENCY TRANSACTIONS IS NOT AN EXCHANGE. IT IS AN ELECTRONIC CONNECTION FOR ACCESSING YOUR DEALER. THE TERMS OF AVAILABILITY OF SUCH A PLATFORM ARE GOVERNED ONLY BY YOUR CONTRACT WITH YOUR DEALER.

Any trading platform that you may use to enter off-exchange foreign currency transactions is only connected to your futures commission merchant or retail foreign exchange dealer. You are accessing that trading platform only to transact with your dealer. You are not trading with any other entities or customers of the dealer by accessing such platform. The availability and operation of any such platform, including the consequences of the unavailability of the trading platform for any reason, is governed only by the terms of your account agreement with the dealer.

(3) YOUR DEPOSITS WITH THE DEALER HAVE NO REGULATORY PROTECTIONS.

All of your rights associated with your retail forex trading, including the manner and denomination of any payments made to you, are governed by the contract terms established in your agreement with the futures commission merchant or retail foreign exchange dealer. Funds deposited by you with a futures commission merchant or retail foreign exchange dealer for trading off-exchange foreign currency transactions are not subject to the customer funds protections provided to customers trading on a contract market that is designated by the Commodity Futures Trading Commission. Your dealer may commingle your funds with its own operating funds or use them for other purposes. In the event your dealer becomes bankrupt, any funds the dealer is holding for you in addition to any amounts owed to you resulting from trading, whether or not any assets are maintained in separate deposit accounts by the dealer, may be treated as an unsecured creditor’s claim.

(4) YOU ARE LIMITED TO YOUR DEALER TO OFFSET OR LIQUIDATE ANY TRADING POSITIONS SINCE THE TRANSACTIONS ARE NOT MADE ON AN EXCHANGE OR MARKET, AND YOUR DEALER MAY SET ITS OWN PRICES.

Your ability to close your transactions or offset positions is limited to what your dealer will offer to you, as there is no other market for such transactions. Your dealer may offer any prices it wishes, and it may offer prices derived
from outside sources or not in its discretion. Your dealer may establish its prices by offering spreads from third party prices, but it is under no obligation to do so or to continue to do so. Your dealer may offer different prices to different customers at any point in time on its own terms. The terms of your account agreement alone govern the obligations your dealer has to you to offer prices and offer offset or liquidating transactions in your account and make any payments to you. The prices offered by your dealer may or may not reflect prices available elsewhere at any exchange, interbank, or other market for foreign currency.

(5) PAID SOLICITORS MAY HAVE UNDISCLOSED CONFLICTS
The futures commission merchant or retail foreign exchange dealer may compensate introducing brokers for introducing your account in ways which are not disclosed to you. Such paid solicitors are not required to have, and may not have, any special expertise in trading, and may have conflicts of interest based on the method by which they are compensated. Solicitors working on behalf of futures commission merchants and retail foreign exchange dealers are required to register. You should confirm that they are, in fact registered. You should thoroughly investigate the manner in which all such solicitors are compensated and be very cautious in granting any person or entity authority to trade on your behalf. You should always consider obtaining dated written confirmation of any information you are relying on from your dealer or a solicitor in making any trading or account decisions.

FINALLY, YOU SHOULD THOROUGHLY INVESTIGATE ANY STATEMENTS BY ANY DEALERS OR SALES REPRESENTATIVES WHICH MINIMIZE THE IMPORTANCE OF, OR CONTRADICT, ANY OF THE TERMS OF THIS RISK DISCLOSURE. SUCH STATEMENTS MAY INDICATE POTENTIAL SALES FRAUD.

THIS BRIEF STATEMENT CANNOT, OF COURSE, DISCLOSE ALL THE RISKS AND OTHER ASPECTS OF TRADING OFF-EXCHANGE FOREIGN CURRENCY TRANSACTIONS WITH A FUTURES COMMISSION MERCHANT OR RETAIL FOREIGN EXCHANGE DEALER.

Thereby acknowledge that I have received and understood this risk disclosure statement.

(c) The acknowledgment required by paragraph (a) of this section must be retained by the retail foreign exchange dealer, futures commission merchant or introducing broker in accordance with § 1.31 of this chapter.

(d) This section does not relieve a retail foreign exchange dealer, futures commission merchant or introducing broker from any other disclosure obligation it may have under applicable law.

(e)(1) Immediately following the language set forth in paragraph (b) of this section, the statement required by paragraph (a) of this section shall include, for each of the most recent four calendar quarters during which the counterparty maintained retail forex customer accounts:

(i) The total number of non discretionary retail forex customer accounts maintained by the retail foreign exchange dealer or futures commission merchant;

(ii) The percentage of such accounts that were profitable during the quarter; and

(iii) The percentage of such accounts that were not profitable during the quarter.

(2) Identification of retail forex customer accounts for the purpose of this disclosure and the calculation in determining whether each such account was profitable or not profitable must be made in accordance with § 5.18(i) of this part. Such statement of profitable trades shall include the following legend:

PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS. Each retail foreign exchange dealer or futures commission merchant shall provide, upon request, to any retail forex customer or prospective retail forex customer the total number of non discretionary retail forex accounts maintained by such foreign exchange dealer or futures commission merchant, the percentage of such accounts that were profitable and the percentage of such accounts that were not profitable, calculated in accordance with § 5.18(i) of this part, for each calendar quarter during the most recent five year period during which such retail foreign exchange dealer or futures commission merchant maintained non discretionary retail forex customer accounts.

§5.6 Maintenance of minimum financial requirements by retail foreign exchange dealers and futures commission merchants offering or engaging in retail forex transactions.

(a) Each futures commission merchant offering or engaging in retail forex transactions or who files an application for registration as a futures commission merchant that will offer or engage in retail forex transactions and each person registered as a retail foreign exchange dealer who files an application for registration as a retail foreign exchange dealer, who knows or should have known that its adjusted net capital at any time is less than the minimum required by § 5.7 of this part or by the capital rule of a registered futures association of which it is a member, must:

(1) Give telephonic notice, to be confirmed in writing by facsimile notice, that the applicant’s or registrant’s adjusted net capital is less than that required by § 5.7 of this part. The notice must be given immediately after the applicant or registrant knows or should know that its adjusted net capital is less than that required by any of the aforesaid rules to which the applicant or registrant is subject; and

(2) Provide together with such notice documentation in such form as necessary to adequately reflect the applicant’s or registrant’s capital condition as of any date such person’s adjusted net capital is less than the minimum required. The applicant or registrant must provide similar documentation for other days as the Commission may request.

(b) Each applicant or registrant, who knows or should have known that its adjusted net capital at any time is less than the greatest of:

(1) $22,000,000;

(2) 110 percent of the amount required by § 5.7(a)(1)(b) of this part; or

(3) 110 percent of the amount of adjusted net capital required by a registered futures association of which the futures commission merchant or retail foreign exchange dealer is a member, must file written notice to that effect within 24 hours of such event.

(c) If an applicant or registrant at any time fails to make or keep current the books and records required by these regulations, such applicant or registrant must, on the same day such event occurs, provide facsimile notice of such fact, specifying the books and records which have not been made or which are not current, and within 48 hours after giving such notice file a written report stating what steps have been and are being taken to correct the situation.

(d) Whenever any applicant or registrant discovers or is notified by an independent public accountant, pursuant to § 1.16(e)(2) of this chapter, of the existence of any material inadequacy, as specified in § 1.16(d)(2) of this chapter, such applicant or registrant must give facsimile notice of such material inadequacy within 24
hours, and within 48 hours after giving such notice file a written report stating what steps have been and are being taken to correct the material inadequacy.

(e) Whenever any self-regulatory organization learns that a member registrant has failed to file a notice or written report as required by §5.6 of this part, that self-regulatory organization must immediately report this failure by telephone, confirmed in writing immediately by facsimile notice, as provided in paragraph (b) of this section.

(f) A retail foreign exchange dealer or a futures commission merchant offering or engaging in retail forex transactions shall provide written notice of a substantial reduction in capital as compared to that last reported in a financial report filed with the Commission pursuant to §5.12 of this part. This notice shall be provided as follows:

(1) If any event or series of events, including any withdrawal, advance, loan or loss cause, on a net basis, a reduction in net capital of 20 percent or more, notice must be provided within two business days of the event or series of events causing the reduction; and

(2) If the equity capital of the retail foreign exchange dealer or futures commission merchant offering or engaging in retail forex transactions or the equity capital of a subsidiary or affiliate of the retail foreign exchange dealer or futures commission merchant offering or engaging in retail forex transactions, consolidated pursuant to §1.17(f) of this chapter, is reduced by a material amount so as to cause the reduced capital to be less than the amount of aggregate retail forex assets the registrant maintains in accordance with the provisions of §5.8 of this chapter, or if the registrant has failed to file a written report as required to be given or filed by a futures commission merchant offering or engaging in retail forex transactions, or other available information.

(g) Whenever a person registered as a futures commission merchant offering or engaging in retail forex transactions or a retail foreign exchange dealer knows or should know that the total amount of its retail forex obligation exceeds the amount of its retail forex assets, the person shall immediately report such deficiency in writing to the appropriate self-regulatory organization.

(h) Every notice and written report required to be given or filed with the Commission by this section by an applicant or registrant must be filed with the regional office of the Commission with jurisdiction over the state in which the applicant’s principal place of business is located, and with the National Futures Association. Every notice and written report required to be given or filed with the Commission by this section by a registrant or self-regulatory association must also be filed with the Chief Accountant of the Division of Clearing and Intermediary Oversight at the Commission’s principal office in Washington, DC.

(1) In lieu of filing paper copies with the Commission, all filings or other information as the Director or designee may specify, such as if such retail foreign exchange dealers apply to retail foreign exchange dealers as required by §1.17(f) of this chapter, or if the registrant has failed to file a written report as required to be given or filed by a futures commission merchant offering or engaging in retail forex transactions, or other available information.

(2) No person applying for registration as a retail foreign exchange dealer or a futures commission merchant that will engage in retail forex transactions shall be so registered unless such person affirmatively demonstrates to the satisfaction of a self-regulatory association that it complies with the financial requirements of this section.

§5.7 Minimum financial requirements for retail foreign exchange dealers and futures commission merchants offering or engaging in retail forex transactions.

(a)(1)(i) Each futures commission merchant offering or engaging in retail forex transactions and each retail foreign exchange dealer must maintain adjusted net capital equal to or in excess of the greatest of:

(A) $20,000,000;

(B) $20,000,000 plus five percent of the futures commission merchant’s or retail foreign exchange dealer’s total retail forex obligation in excess of $10,000,000;

(C) any amount required under §1.17 of this chapter, as applicable; or

(D) the amount of adjusted net capital required by a registered futures association of which the futures commission merchant or retail foreign exchange dealer is a member.

(ii) Section 1.17 of this chapter shall apply to retail foreign exchange dealers as if such retail foreign exchange dealers were futures commission merchants, or as applicable, applicants or registrants, as stated in §1.17 for the purpose of determining the adjusted net capital under this section. For the purpose of applying this section, “applicant” or “registrant” shall include retail foreign exchange dealers and futures commission merchants offering or engaging in retail forex transactions and applicants therefore.

(2) No person applying for registration as a retail foreign exchange dealer or a futures commission merchant that will engage in retail forex transactions shall be so registered unless such person affirmatively demonstrates to the satisfaction of a self-regulatory association that it complies with the financial requirements of this section.
(3) Each registrant must be in compliance with this section at all times and must be able to demonstrate such compliance to the satisfaction of the Commission or the registrant’s designated self-regulatory organization.

(4) A registrant who is not in compliance with this section, or is unable to demonstrate such compliance as required by paragraph (a)(3) of this section, shall, as directed by and under the supervision of the Commission or the registrant’s designated self-regulatory organization, either liquidate or transfer all retail forex accounts and other financial positions (including the novation of retail forex contracts) and refund or transfer all funds associated with such retail forex accounts and immediately cease offering or engaging in retail forex transactions until such time as the firm is able to demonstrate to the Commission or the registrant’s designated self-regulatory organization such compliance:

Provided, however, That if such registrant immediately demonstrates to the satisfaction of the Commission or the registrant’s designated self-regulatory organization the ability to achieve compliance, the Commission or the registrant’s designated self-regulatory organization may in its discretion allow such registrant up to a maximum of 10 business days, or such additional time as determined by the Commission, in which to achieve compliance without having to liquidate positions or transfer accounts and cease doing business as required above.

Nothing in this paragraph (a)(4) shall be construed as preventing the Commission or the registrant’s designated self-regulatory organization from taking action against a registrant for non-compliance with any of the provisions of this section.

(b) For the purposes of this section:

(1) Where the applicant or registrant has an asset or liability which is defined in Securities Exchange Act Rule 15c3–1 (§ 240.15c3–1 of this title) the inclusion or exclusion of all or part of such asset or liability for the computation of adjusted net capital shall be in accordance with § 240.15c3–1 of this title, unless specifically stated otherwise in this section or in § 1.17 of this chapter.

(2) The adjusted net capital of an applicant or registrant for the purpose of this section shall be determined by the application of § 1.17 pursuant to paragraph (a)(1)(iii) of this section, with the following additions:

(i) All positions in retail forex accounts and other financial positions and instruments of the applicant or registrant must be marked to market and adjusted daily by referencing to current market prices or rates of exchange.

(ii) Current assets must exclude any retail forex account which liquidates to a deficit or contains a debit ledger balance only and is not secured in accordance with § 1.17(c)(3).

(iii) Current assets must exclude any unsecured receivable accrued from any over-the-counter transaction in foreign currency, options on foreign currency or options on contracts for the purchase or sale of foreign currency, or arising from the deposit of collateral or compensating balances with respect to such transactions, unless such unsecured receivable is from a person who is an eligible contract participant that also is:

(A) A bank or trust company regulated by a United States banking regulator;

(B) A broker-dealer registered with the Securities and Exchange Commission and a member of the Financial Industry Regulatory Authority;

(C) A futures commission merchant registered with the Commission and a member of the National Futures Association;

(D) A retail foreign exchange dealer registered with the Commission and a member of the National Futures Association;

(E) An entity regulated as a foreign equivalent of any of the persons listed in paragraphs (b)(2)(i)(A) through (D) of this section, if such person is regulated in a money center country as defined in § 1.49 of this chapter and recognized by the futures commission merchant’s or retail foreign exchange dealer’s designated self-regulatory organization as a foreign equivalent;

(F) Any other entity approved by the futures commission merchant’s or retail foreign exchange dealer’s designated self-regulatory organization.

(iv) The value attributed to any retail forex transaction that is an option shall be the difference between the option’s exercise value or striking value and the market value of the underlying. In the case of a call, if the market value of the underlying is less than the exercise value or striking value of such call, it shall be given no value; and, in the case of a put, if the market value of the underlying is more than the exercise value or striking value of the put, it shall be given no value.

(v) In computing adjusted net capital, the capital deductions set forth in § 1.17(c)(5)(v) of this chapter shall apply to retail forex transactions other than options. The capital deductions which apply are six percent for net positions in U.S. dollars, Swiss francs and 20 percent for net positions in all other foreign currencies, Provided, however, That there shall be no capital deductions for retail forex transactions covered (as defined in § 1.17(j) of this chapter) by the applicant or registrant by open futures contracts to the extent such futures contracts are not otherwise designated as cover for any other net capital purposes. For purposes of this paragraph (b)(2)(v)(A), such retail forex transactions shall be treated as if they were inventory and cover were therefore applicable. A retail foreign exchange dealer or futures commission merchant may not use an affiliate (unless approved by the firm’s designated self-regulatory organization) or any person that is considered unregulated under the rules of the firm’s designated self-regulatory organization to cover its currency positions for purposes of this section.

(b) In computing adjusted net capital, the capital deductions set forth in § 1.17(c)(5)(v) of this chapter shall apply to all retail forex transactions that are options.

(C) For the purpose of applying capital deductions on open proprietary futures positions under § 1.17(c)(5)(x) of this chapter, net or individual positions in retail forex transactions shall not constitute cover under § 1.17(f) for the purpose of applying such charges.

(d) An applicant or registrant must prepare, and keep current, ledgers or other similar records which show or summarize, with appropriate references to supporting documents, each transaction affecting the applicant’s or registrant’s asset, liability, income, expense and capital accounts, and in which (except as otherwise permitted in writing by the Commission) all the applicant’s or registrant’s asset, liability and capital accounts are classified into the account classification subdivisions specified on Form 1–FR–FCM. Each applicant or registrant shall prepare and keep current such records.

(d) An applicant or registrant must make and keep as a record in accordance with § 5.14 of this part formal computations of its adjusted net capital and of its minimum financial requirements pursuant to this section as of the close of business each month and on other such dates called for by the Commission, the National Futures Association, or another self-regulatory organization of which the firm is a member. Such computations must be completed and made available for inspection by any representative of the Commission, the National Futures Association, a self-regulatory organization of which the firm is a member, or the United States Department of Justice commencing the
§ 5.8 Aggregate retail forex assets.

(a) Each retail foreign exchange dealer and futures commission merchant offering or engaging in retail forex transactions shall calculate its total retail forex obligation and shall at all times hold assets solely of the type permissible under § 1.25 of this chapter equal to or in excess of the total retail forex obligation at one or more qualifying institutions in the United States or money center countries as defined in § 1.49 of this chapter.

(b) For assets held in the United States, a qualifying institution is:

(1) A bank or trust company regulated by a United States banking regulator;

(2) A broker-dealer registered with the Securities and Exchange Commission and a member of the Financial Industry Regulatory Authority; or

(3) A futures commission merchant registered with the Commission and a member of the National Futures Association.

(c) For assets held in a money center country, a qualifying institution is:

(1) A bank or trust company regulated in a money center country, Provided that the bank or trust company has regulatory capital in excess of $1 billion;

(2) An entity regulated in a money center country as an equivalent of a broker-dealer or futures commission merchant as determined by the retail foreign exchange dealer’s or futures commission merchant’s designated self-regulatory organization, Provided that the entity maintains regulatory capital in excess of $100 million; or

(3) A futures commission merchant registered with the Commission and a member of the National Futures Association.

(d) Assets held in a money center country are not eligible to meet the requirements of paragraph (a) of this section unless the retail foreign exchange dealer or futures commission merchant has entered into an agreement that is acceptable to the firm’s designated self-regulatory organization and that authorizes the qualifying institution to provide account information to the Commission and the firm’s designated self-regulatory organization.

(e) In computing its adjusted net capital pursuant to § 5.7 of this part, a retail foreign exchange dealer or futures commission merchant may not include aggregate retail forex assets as current assets or otherwise record any property received from retail forex customers as an asset without recording a corresponding liability to the retail forex customers.

§ 5.9 Security deposits for retail forex transactions.

(a) Each futures commission merchant engaging, or offering to engage, in retail forex transactions and each retail foreign exchange dealer must collect from each retail forex customer a minimum security deposit for each retail forex transaction equal to the applicable percentage as set by the registered futures association of which they are a member; Provided, that the registered futures association’s security deposit requirement cannot be less than:

1. 2% of the notional value of the retail forex transaction for major currency pairs and 5% of the notional value of the retail forex transaction for all other currency pairs;

2. For short options, 2% for major currency pairs and 5% for all other currency pairs of the notional value of the retail forex transaction, plus the premium received by the retail forex customer;

3. For long options, the full premium charged and received by the futures commission merchant or retail foreign exchange dealer from the retail forex customer.

(b) Security deposits must be made in the form of cash or other financial instruments that comply with the requirements specified in § 1.25 of this chapter.

(c) A futures commission merchant or retail foreign exchange dealer is required to collect additional security deposits from a retail forex customer, or liquidate the retail forex customer’s positions, if the amount of the retail forex customer’s security deposits maintained with the futures commission merchant or retail foreign exchange dealer are not sufficient to meet the requirements of this section.

(d) A major currency pair security deposit percentage is only applicable when both sides of a retail over-the-counter foreign exchange transaction involve major currencies.

(e) Any registered futures association whose members serve as counterparties to retail forex transactions shall designate which currencies are “major currencies”, and shall review, no less frequently than annually, major currency designations and security deposit requirements, and shall adjust the designations and requirements as necessary.

§ 5.10 Risk assessment recordkeeping requirements for retail foreign exchange dealers.

(a) Requirement to maintain and preserve information. (1) Each retail foreign exchange dealer registered with the Commission pursuant to section 2(c)(2)(B)(i)(II)(gg) of the Act shall prepare, maintain and preserve the following information:

The consolidating balance sheets may be those prepared by the retail foreign exchange dealer’s highest level Material Affiliated Person as part of its internal financial reporting process. Any additional information required to be filed under § 5.11(a)(2)(iii) of this part shall also be maintained and preserved; and

(iv) Fiscal year-end consolidated and consolidating income statements and consolidated cash flow statements for the highest level Material Affiliated Person within the retail foreign exchange dealer’s organizational structure, which shall include the retail foreign exchange dealer and its other Material Affiliated Persons, prepared in accordance with generally accepted accounting principles, which consolidated statements shall be audited by an independent certified public accountant if an annual audit is performed in the ordinary course of business, but which otherwise may be unaudited, and which shall include appropriate explanatory notes. The consolidating statements may be those prepared by the retail foreign exchange dealer’s highest level Material Affiliated Person as part of its internal financial reporting process. Any additional information required to be filed under § 5.11(a)(2)(iii) shall also be maintained and preserved.

(2) The determination of whether an affiliated person of a retail foreign exchange dealer is a Material Affiliated Person shall involve consideration of all aspects of the activities of, and the relationship between, both entities, including without limitation, the following factors:

(i) The legal relationship between the retail foreign exchange dealer and the affiliated person;

(ii) The overall financing requirements of the retail foreign exchange dealer and the affiliated person, and the degree, if any, to which the retail foreign exchange dealer and the affiliated person are financially dependent on each other;

(iii) The degree to which the retail foreign exchange dealer and the affiliated person directly or indirectly engage in over-the-counter transactions with each other;

(iv) The degree, if any, to which the retail foreign exchange dealer or its customers rely on the affiliated person for operational support or services in connection with the retail foreign exchange dealer’s business;

(v) The level of market, credit or other risk present in the activities of the affiliated person; and

(vi) The extent to which the affiliated person has the authority or the ability to cause a withdrawal of capital from the retail foreign exchange dealer.

(3) For purposes of this section and § 5.11 of this part, the term Material Affiliated Person does not include a natural person.

(4) The information, reports and records required by this section shall be maintained and preserved, and made readily available for inspection, in accordance with the provisions of § 1.31 of this chapter.

(b) Special provisions with respect to Material Affiliated Persons subject to the supervision of certain domestic regulators. A retail foreign exchange dealer shall be deemed to be in compliance with the recordkeeping requirements of paragraphs (a)(1)(i), (iii) and (iv) of this section with respect to a Material Affiliated Person if:

(1) The Material Affiliated Person is required to maintain and preserve information pursuant to § 240.17h–1T of this title, or such other risk assessment requirements as the Securities and Exchange Commission may adopt, and the retail foreign exchange dealer maintains and makes available for inspection by the Commission in accordance with the provisions of this section copies of any financial or risk exposure reports filed by such Material Affiliated Person with a foreign futures authority or other foreign regulatory authority, provided that:

(i) The retail foreign exchange dealer agrees to use its best efforts to obtain from the Material Affiliated Person and to cause the Material Affiliated Person to provide, directly or through its foreign futures authority or other foreign regulatory authority, any supplemental information the Commission may request and there is no statute or other bar in the foreign jurisdiction that would preclude the retail foreign exchange dealer, the Material Affiliated Person, the foreign futures authority or other foreign regulatory authority from providing such information to the Commission; or

(ii) The foreign futures authority or other foreign regulatory authority with whom the Material Affiliated Person files such reports has entered into an information-sharing agreement with the Commission which is in effect as of the retail foreign exchange dealer’s fiscal year-end and which will allow the Commission to obtain the type of information required herein.

(2) The retail foreign exchange dealer shall maintain a copy of the original report and a copy translated into the English language. For the purposes of this section, the term “Foreign Futures...
Authority” shall have the meaning set forth in section 1a(10) of the Act.

(d) Exemptions. The Commission may exempt any retail foreign exchange dealer from any provision of this section if it finds that the exemption is not contrary to the public interest and the purposes of the provisions from which the exemption is sought. The Commission may grant the exemption subject to such terms and conditions as it may find appropriate.

(e) Location of records. A retail foreign exchange dealer required to maintain records concerning Material Affiliated Persons pursuant to this section may maintain those records either at the principal office of the Material Affiliated Person or at a records storage facility, provided that, except as set forth in paragraph (c) of this section, the records are located within the boundaries of the United States and the records are kept and available for inspection in accordance with § 1.31 of this chapter. If such records are maintained other than at the retail foreign exchange dealer’s principal place of business, the Material Affiliated Person or other entity maintaining the records shall file with the Commission a written undertaking, in a form acceptable to the Commission, signed by a duly authorized person, to the effect that the records will be treated as if the retail foreign exchange dealer were maintaining the records pursuant to this section and that the entity maintaining the records will permit examination of such records at any time, or from time to time during business hours, by representatives or designees of the Commission and promptly furnish the Commission representative or its designee true, correct, complete and current hard copy of all or any part of such records. The election to maintain records at the principal place of business of the Material Affiliated Person or at a records storage facility pursuant to the provisions of this paragraph shall not relieve the retail foreign exchange dealer required to maintain and preserve such records from any of its responsibilities under this section or § 5.11 of this part.

(f) Confidentiality. All information obtained by the Commission pursuant to the provisions of this section from a retail foreign exchange dealer concerning a Material Affiliated Person shall be deemed confidential information for the purposes of section 8 of the Act.

(g) Implementation schedule.
