DATES: Consideration will be given to all comments received by November 1, 2010.

Title and OMB Number: DoD Building Pass Application; DD Form 2249; OMB Number 0704–0328.

Type of Request: Extension.
Number of Respondents: 120,000.
Responses per Respondent: 1.
Annual Responses: 120,000.
Average Burden per Response: 6 minutes.
Annual Burden Hours: 12,000 hours.

Needs and Uses: This information collection requirement provides for the collection of information from applicants for DoD Building Passes. The information collected from the DD Form 2249, “DoD Building Pass Application,” is used to verify the need for and to issue a DoD Building Pass to DoD personnel, other authorized U.S. Government personnel, and DoD consultants and experts who regularly work in or require frequent and continuing access to DoD-owned or occupied buildings in the National Capital Region.

Affected Public: Individuals or households; businesses of other for-profit.
Frequency: On occasion.
Respondent’s Obligation: Required to obtain or retain a benefit.
OMB Desk Officer: Ms. Jasmeet Seehra.

Written comments and recommendations on the proposed information collection should be sent to Ms. Seehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

You may also submit comments, identified by docket number and title, by the following method:

Instructions: All submissions received must include the agency name, docket number and title for this Federal Register document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at http://www.regulations.gov as they are received without change, including any personal identifiers or contact information.

POLICY JUSTIFICATION

Pakistan – BELL 412EP Helicopters

The Government of Pakistan has requested a possible sale of up to thirty BELL 412EP Helicopters, spare and repair parts, support equipment, ferry services, air worthiness certification, publications and technical data, personnel training and training equipment, U.S. Government and contractor logistics, engineering, and technical support services, and other related elements of logistics support. The estimated cost is $397 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for economic progress in South Asia and a partner in overseas contingency operations.

The proposed sale of the helicopters will increase Pakistan’s air capabilities to execute counternurserygencery operations, border security, search and rescue, and support for the civilian population in Pakistan. Pakistan, which already has Bell 412EP Helicopters in its inventory, will have no difficulty absorbing these additional helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Bell Helicopter in Fort Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel in country. It is anticipated that two U.S. Government personnel will travel to Pakistan two times per year, one week per trip, for a period of up to five years to provide logistic support services.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 10–30

The following is a copy of a letter to the Speaker of the House of Representatives, Transmittal 10–30 with attached transmittal and policy justification.

* as defined in Section 47(6) of the Arms Export Control Act.
POLICY JUSTIFICATION

Iraq – Refurbishment of M113A2 Armored Personnel Carriers

The Government of Iraq has requested a possible sale for the refurbishment of 440 M113A2 Armored Personnel Carriers, being offered as Excess Defense Articles, including installation of 440 M2 .50 Cal Machine Guns, 607 AN/VRC-90E Single Channel Ground and Airborne Radios Systems, M259 Smoke Grenade Launchers, and Combat Vehicle Crewmember Helmets. Also included are tools and test equipment, site survey, construction, repair and parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical, and logistics personnel services, and other related logistics and program support. The estimated cost is $131 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale to refurbish the APCs will strengthen the effectiveness and interoperability of the Iraqi military, reduce Iraq’s dependence on U.S. forces in the region and enhance any coalition operations the U.S. may undertake with Iraq. The Iraqi military will have no difficulty absorbing these vehicles into its armed forces.

The proposed sale of these vehicles will not alter the basic military balance in the region.

The prime contractor will be BAE Corporation in Rosslyn, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of multiple additional U.S. Government and contractor representatives to Iraq for a period of two years with an option for additional years for the purpose of fielding and training and quality assurance during equipment delivery.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
