Extension of Time Limits for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("Act"), requires the Department to issue the final results in an administrative review of an antidumping duty order 120 days after the date on which the preliminary results are published. The Department may, however, extend the deadline for completion of the final results of an administrative review to 180 days if it determines it is not practicable to complete the review within the foregoing time period. See section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

The Department requires additional time to complete this review because the Department must analyze and consider significant issues raised in the parties’ case and rebuttal briefs and fully analyze the parties’ post-preliminary surrogate value submissions. Thus, it is not practicable to complete this review by the current due date. Therefore, we are extending the time for the completion of the final results of this review by an additional 15 days to November 9, 2010.

This notice is published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Susan H. Kuhbach,
Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Non–Frozen Apple Juice Concentrate from the People’s Republic of China: Extension of Time Limit for the Final Results of the New Shipper Antidumping Duty Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: October 4, 2010.

FOR FURTHER INFORMATION CONTACT: Alexis Polovina, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482–3927.

SUPPLEMENTARY INFORMATION:

Background

On August 5, 2010, the Department of Commerce (“Department”) published in the Federal Register its preliminary results of the new shipper review of the antidumping duty order on non–frozen apple juice concentrate from the People’s Republic of China (“PRC”). This review covers the period June 1, 2009, through January 20, 2010. The final results of review are currently due no later than October 28, 2010.

Extension of Time Limit for Final Results of Review

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.214(i)(1), provide that the Department will issue the final results of review within 90 days after the date on which the preliminary results were issued. However, if the Secretary concludes that a new shipper review is extraordinarily complicated, the Secretary may extend the 90-day period to 150 days. See 19 CFR 351.214(i)(2).

The Department determines that this new shipper review involves extraordinarily complicated methodological issues, including the continued evaluation of the most appropriate methodology for valuing labor. Therefore, in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2), the Department is extending the time limit for the final results from 90 days to 150 days. Therefore, the final results will now be due no later than December 27, 2010.

We are issuing and publishing this notice in accordance with sections 751(a)(2)(B)(iv) and 777(i) of the Act.

Susan H. Kuhbach,
Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Period of Review
The period of review (POR) is January 30, 2008, through April 30, 2009.

Scope of the Order
The merchandise subject to this order is certain welded carbon quality light-walled steel pipe and tube, of rectangular (including square) cross section, having a wall thickness of less than 4 mm. The term carbon-quality steel includes both carbon steel and alloy steel which contains only small amounts of alloying elements. Specifically, the term carbon-quality includes products in which none of the elements listed below exceeds the quantity by weight respectively indicated: 1.80 percent of manganese, or 2.25 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.15 percent vanadium, or 0.15 percent of zirconium. The description of carbon-quality is intended to identify carbon-quality products within the scope. The welded carbon-quality rectangular pipe and tube subject to this order is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7306.61.50.00 and 7306.61.70.60. While HTSUS subheadings are provided for convenience and CBP’s customs purposes, our written description of the scope of the order is dispositive.

Assessment Rates
Pursuant to these final results, the Department has determined, and CBP shall assess, antidumping duties on all appropriate entries. The Department intends to issue assessment instructions for Tosc¸elik to CBP 15 days after the date of publication of these final results. Pursuant to 19 CFR 351.212(b)(1), we calculated importer-specific (or customer-specific) ad valorem duty assessment rates based on the ratio of the total amount of the dumping margins calculated for the examined sales to the total entered value of those same sales. We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review if any importer-specific (or customer-specific) assessment rate calculated in the final results of this review are above de minimis.

The Department clarified its “automatic assessment” regulation on May 6, 2003. See Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties, 68 FR 23954 (May 6, 2003) (Assessment of Antidumping Duties). This clarification will apply to entries of subject merchandise during the POR produced by Tosc¸elik for which Tosc¸elik did not know the merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate un-reviewed entries at the 27.04 percent all-others rate from the LTFV investigation if there is no company-specific rate for an intermediary involved in the transaction. See Notice of Antidumping Duty Order: Light-Walled Rectangular Pipe and Tube From Turkey, 73 FR 31065 (May 30, 2008). See Assessment of Antidumping Duties for a full discussion of this clarification.

Cash Deposit Requirements
Furthermore, the following deposit requirements will be effective upon publication of these final results for all shipments of light-walled rectangular pipe and tube from Turkey entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Tariff Act: 1) the cash deposit rate for Tosc¸elik Profil Ve Sac Endustrisi A.S. will be the rate established in the final results of review; 2) if the exporter is not a firm covered in this review or the less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and 3) if neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will be the all-others rate from the LTFV investigation. Id. These deposit requirements, when imposed, shall remain in effect until further notice.

Reimbursement of Duties
This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders
This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i) of the Tariff Act.

Dated: September 27, 2010.

Ronald K. Lorentzen,
Deputy Assistant Secretary for Import Administration.
