SUMMARY: This action amends Class E airspace for Searcy, AR. Decommissioning of the Searcy non-directional beacon (NDB) at Searcy Municipal Airport, Searcy, AR, has made this action necessary to enhance the safety and management of Instrument Flight Rule (IFR) operations at the airport. The geographic coordinates of the airport also will be adjusted.

DATES: Effective date 0901 UTC, January 13, 2011. The Director of the Federal Register approves this incorporation by reference as defined by Section 551 of the APA. 5 U.S.C. 551. NCUA issues a final rule as defined by Section 551 of the APA. 5 U.S.C. 551. The FAA has determined that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

14 CFR Part 71

[Docket No. FAA–2010–0404; Airspace
Docket No. 10–ASW–7]

Amendment of Class E Airspace;
Corpus Christi, TX

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace for the Corpus Christi, TX, area. Additional controlled airspace is necessary to accommodate new Instrument Approach Procedures (SIAP) at Corpus Christi International Airport, Corpus Christi, TX. The FAA is taking this action to enhance the safety and management of Instrument Flight Rule (IFR) operations at the airport.

DATES: Effective date 0901 UTC, January 13, 2011. The Director of the Federal Register approves this incorporation by reference action under 1 CFR Part 51 subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTAL INFORMATION:

History
On July 27, 2010, the FAA published in the Federal Register a notice of proposed rulemaking to amend Class E airspace for the Corpus Christi, TX, area, reconfiguring controlled airspace at Corpus Christi International Airport (75 FR 43866) Docket No. FAA–2010–0404. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9U dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule
This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending Class E airspace extending upward from 700 feet above the surface for the Corpus Christi, TX, area. The addition of new SIAPs at Corpus Christi International Airport has made this action necessary for the safety and management of IFR operations at the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, section 40103. Under that section, the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Corpus Christi International Airport, Corpus Christi, TX.
