removing Special Use Airspace R–3807
Glencoe, LA, and R–6320 Matagorda,
TX. The Department of Defense no
longer has a use for the two restricted
areas, which were originally established
as Tethered Air Radar Sites (TARS) to
contain aerostat balloons used in
detecting illegal entry across the
southern border of the United States.
The aerostat balloons have not been
operational for several years and the
USAF has no intent to replace them.
Additionally, the USAF no longer
controls the surface lands underlying
the restricted areas and has taken action
to terminate leases and return the
control of the lands to the owners.
Therefore, the FAA has determined
that a valid requirement for the airspace no
longer exists and the restricted areas
are being returned to the National Airspace
System.

Sections 73.38 and 73.63 of 14 CFR
part 73 were published in FAA Order
Since this action reduces restricted
airspace, the solicitation of comments
would only delay the return of airspace
to public use without offering any
meaningful right or benefit to any
segment of the public; therefore, notice
and public procedure under 5 U.S.C.
553(b) are unnecessary.

The FAA has determined that this
regulation only involves an established
body of technical regulations for which
frequent and routine amendments are
necessary to keep them operationally
current. Therefore, this action: (1) Is not
a “significant regulatory action” under
Executive Order 12866; (2) is not a
“significant rule” under DOT Regulatory
Policies and Procedures (44 FR 11034;
February 26, 1979); and (3) does not
warrant preparation of a regulatory
evaluation as the anticipated impact is
so minimal. Since this is a routine
matter that will only affect air traffic
procedures and air navigation, it is
certified that this rule will not have a
significant economic impact on a
substantial number of small entities
under the criteria of the Regulatory
Flexibility Act.

Environmental Review
The FAA has determined that this
action qualifies for categorical exclusion
under the National Environmental
Policy Act in accordance with FAA
Order 1050.1E, “Environmental Impacts:
Policies and Procedures.” paragraph
311c. This airspace action is not
expected to cause any potentially
significant environmental impacts, and
no extraordinary circumstances exist
that warrant preparation of an
environmental assessment.

DEPARTMENT OF DEFENSE
Department of the Navy
32 CFR Part 706

Certifications and Exemptions Under the International Regulations for Preventing Collisions at Sea, 1972

AGENCY: Department of the Navy, DoD.

ACTION: Final rule.

SUMMARY: The Department of the Navy (DoN) is amending its certifications and exemptions under the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS), to reflect that the Deputy Assistant Judge Advocate General (DAJAG) (Admiralty and Maritime Law) has determined that USS WILLIAM P. LAWRENCE (DDG 110) is a vessel of the Navy which, due to its special construction and purpose, cannot fully comply with certain provisions of the 72 COLREGS without interfering with its special function as a naval ship. The intended effect of this rule is to warn mariners in waters where 72 COLREGS apply.

DATES: This rule is effective October 28, 2010 and is applicable beginning October 7, 2010.

SUPPLEMENTARY INFORMATION: Pursuant to the authority granted in 33 U.S.C. 1605, the DoN amends 32 CFR Part 706. This amendment provides notice that the DAJAG (Admiralty and Maritime Law), under authority delegated by the Secretary of the Navy, has certified that USS WILLIAM P. LAWRENCE (DDG 110) is a vessel of the Navy which, due to its special construction and purpose, cannot fully comply with the following specific provisions of the 72 COLREGS without interfering with its special function as a naval ship: Annex I, paragraph 2(f)(i), pertaining to the placement of the masthead light or lights involved are located in closest possible compliance with the applicable 72 COLREGS requirements. Moreover, it has been determined, in accordance with 32 CFR Parts 296 and 701, that publication of this amendment for public comment prior to adoption is impracticable, unnecessary, and contrary to public interest since it is based on technical findings that the placement of lights on this vessel in a manner differently from that prescribed herein will adversely affect the vessel’s ability to perform its military functions.

List of Subjects in 32 CFR Part 706

For the reasons set forth in the preamble, amend part 706 of title 32 of the CFR as follows:
