Implementation of Section 5001 of the American Recovery and Reinvestment Act of 2009 (Pub. L. 111–5) for Adjustments to the Fourth Quarter of Fiscal Year 2010 Federal Medical Assistance Percentage Rates for Federal Matching Shares for Medicaid and Title IV–E Foster Care, Adoption Assistance and Guardianship Assistance Programs

AGENCY: Office of the Secretary, DHHS.

ACTION: Notice.

SUMMARY: This notice provides the adjusted Federal Medical Assistance Percentage (FMAP) rate for the fourth quarter of Fiscal Year 2010 (FY10) as required under Section 5001 of the American Recovery and Reinvestment Act of 2009 (ARRA). Section 5001 of the ARRA provides for temporary increases in the FMAP rates to provide fiscal relief to States and to protect and maintain State Medicaid and certain other assistance programs in a period of economic downturn. The increased FMAP rates apply during a recession adjustment period that was originally defined in ARRA as the period beginning October 1, 2008 and ending December 31, 2010. Public Law 111–226 amended ARRA to extend the recession adjustment period to June 30, 2011 and to extend the hold harmless provision that prevents a State’s FMAP rate from decreasing due to a lower unemployment rate from the calendar quarter ending before July 1, 2010 to the calendar quarter ending before January 1, 2011. Public Law 111–226 also provided for a phase-down of the general FMAP increase in the last two quarters of the extended recession adjustment period, and changed the methodology for calculating the unemployment adjustment for those quarters.

DATES: Effective Date: The percentages listed are for the fourth quarter of FY10 beginning July 1, 2010 through September 30, 2010.

A. Background

The FMAP is used to determine the amount of Federal matching for specified State expenditures for assistance payments under programs under the Social Security Act ("the Act"). Sections 1905(b) and 1101(a)(8)(B) of the Act require the Secretary of Health and Human Services to publish the FMAP rates each year. The Secretary calculates the percentages using formulas in sections 1905(b) and 1101(a)(8)(B), and statistics from the Department of Commerce of average income per person in each State and for the Nation as a whole. The percentages must be within the upper and lower limits given in section 1905(b) of the Act. The percentages to be applied to the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands are specified separately in the Act, and thus are not based on the statutory formula that determines the percentages for the 50 States.

Section 1905(b) of the Act specifies the formula for calculating the FMAP as follows:

The FMAP for any State shall be 100 per centum less the State percentage; and the State percentage shall be that percentage which bears the same ratio to 45 per centum as the square of the per capita income of such State bears to the square of the per capita income of the continental United States (including Alaska) and Hawaii; except that

1. the FMAP shall in no case be less than...
