Certain Activated Carbon From the People's Republic of China: Final Results and Partial Rescission of Second Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On May 13, 2010, the Department published in the **Federal Register** the preliminary results of the second administrative review of the antidumping duty order on certain activated carbon from the People's Republic of China ("PRC"). See *Certain Activated Carbon From the People's Republic of China: Notice of Preliminary Results of the Second Antidumping Duty Administrative Review, and Preliminary Rescission in Part*, 75 FR 26927 (May 13, 2010) ("*Preliminary Results*"). We gave interested parties an opportunity to comment on the *Preliminary Results*. Based upon our analysis of the comments and information received, we made changes to the margin calculations for the final results. We continue to find that certain exporters have sold subject merchandise at less than normal value during the period of review ("POR"), April 1, 2008, through March 31, 2009.

DATES: *Effective Date:* November 17, 2010.

FOR FURTHER INFORMATION CONTACT: Robert Palmer and Katie Marksberry, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-9068 and (202) 482-7906 respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 29, 2009, the Department initiated this review with respect to 187 companies upon which an administrative review was requested.

See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 74 FR 25711 (May 29, 2009). Subsequently, pursuant to 19 CFR 351.213(d)(1), the Department rescinded the administrative review with respect to 155 companies, based upon Petitioners'¹ timely withdrawal of review requests.² On September 16, 2009, the Department rescinded the administrative review with respect to an additional 13 companies, based on Petitioners' timely withdrawal of review requests.³ Thus, 19 companies remained subject to this review.

On June 2, 2010, Jacobi Carbons AB ("Jacobi") and Ningxia Huahui Activated Carbon Co., Ltd. ("Huahui"), the mandatory respondents in this review, and Petitioners submitted additional surrogate value ("SV") information. On June 14, 2010, Petitioners submitted rebuttal SV information.

At the *Preliminary Results*, we set the deadline for interested parties to submit case briefs and rebuttal briefs to June 14, 2010, and June 21, 2010, respectively. On June 7, 2010, we extended the deadlines for case and rebuttal briefs to June 21, 2010, and June 28, 2010, respectively. Additionally, on June 25, 2010, we extended the deadline for rebuttal briefs by an additional two days to June 30, 2010. On June 21, 2010, Petitioners, Jacobi, and Huahui filed case briefs. On June 21, 2010, Ningxia Guanghua Cherishmet Activated Carbon Co., Ltd. ("GHC") filed comments on the Department's wage rate methodology. On June 28, 2010, Shanxi DMD Corporation ("Shanxi DMD") filed a rebuttal brief. On June 30, 2010, Huahui filed a rebuttal brief. On July 1, 2010, Jacobi and Petitioners filed rebuttal briefs. On August 3, 2010, the Department placed wage rate data to value the input of labor on the record for comment by interested parties. On September 27, 2010, the Department issued industry-specific wage rate data for comment. On October 4, 2010, the Department issued a memorandum regarding the Department's industry-specific wage rate methodology for comment. On October 7, 2010, the Department issued a correction to the October 4, 2010, data. On October 4, 2010, Huahui provided comments on the September 27, 2010, data. On

¹ Norit Americas Inc. and Calgon Carbon Corporation.

² See *Certain Activated Carbon from the People's Republic of China: Notice of Partial Rescission of Antidumping Duty Administrative Review*, 74 FR 31690 (July 2, 2009).

³ See *Certain Activated Carbon From the People's Republic of China: Notice of Partial Rescission of Antidumping Duty Administrative Review*, 74 FR 47558 (September 16, 2009).

October 13, 2010, Petitioners, Jacobi, and Huahui provided comments on the October 4, 2010, and October 7, 2010, memoranda. On October 18, 2010, Huahui provided rebuttal comments. The Department did not hold a public hearing pursuant to 19 CFR 351.310(d), as any hearing requests made by interested parties were withdrawn.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to these reviews are addressed in the "Certain Activated Carbon from the People's Republic of China: Issues and Decision Memorandum for the Final Results of the Second Antidumping Duty Administrative Review," which is dated concurrently with this notice ("Decision Memo"). A list of the issues which parties raised and to which we respond in the Decision Memo is attached to this notice as an Appendix. The Decision Memo is a public document and is on file in the Central Records Unit, main Commerce building, Room 7046, and is accessible on the Department's Web site at <http://www.trade.gov/ia>. The paper copy and electronic version of the memorandum are identical in content.

Scope of the Order

The merchandise subject to the order is certain activated carbon. Certain activated carbon is a powdered, granular, or pelletized carbon product obtained by "activating" with heat and steam various materials containing carbon, including but not limited to coal (including bituminous, lignite, and anthracite), wood, coconut shells, olive stones, and peat. The thermal and steam treatments remove organic materials and create an internal pore structure in the carbon material. The producer can also use carbon dioxide gas (CO₂) in place of steam in this process. The vast majority of the internal porosity developed during the high temperature steam (or CO₂ gas) activated process is a direct result of oxidation of a portion of the solid carbon atoms in the raw material, converting them into a gaseous form of carbon.

The scope of the order covers all forms of activated carbon that are activated by steam or CO₂, regardless of the raw material, grade, mixture, additives, further washing or post-activation chemical treatment (chemical or water washing, chemical impregnation or other treatment), or product form. Unless specifically excluded, the scope of the order covers all physical forms of certain activated carbon, including powdered activated carbon ("PAC"), granular activated

carbon (“GAC”), and pelletized activated carbon.

Excluded from the scope of the order are chemically activated carbons. The carbon-based raw material used in the chemical activation process is treated with a strong chemical agent, including but not limited to phosphoric acid, zinc chloride sulfuric acid or potassium hydroxide, that dehydrates molecules in the raw material, and results in the formation of water that is removed from the raw material by moderate heat treatment. The activated carbon created by chemical activation has internal porosity developed primarily due to the action of the chemical dehydration agent. Chemically activated carbons are typically used to activate raw materials with a lignocellulosic component such as cellulose, including wood, sawdust, paper mill waste and peat.

To the extent that an imported activated carbon product is a blend of steam and chemically activated carbons, products containing 50 percent or more steam (or CO₂ gas) activated carbons are within the scope, and those containing more than 50 percent chemically activated carbons are outside the scope. This exclusion language regarding blended material applies *only* to mixtures of steam and chemically activated carbons.

Also excluded from the scope are reactivated carbons. Reactivated carbons are previously used activated carbons that have had adsorbed materials removed from their pore structure after use through the application of heat, steam and/or chemicals.

Also excluded from the scope is activated carbon cloth. Activated carbon cloth is a woven textile fabric made of or containing activated carbon fibers. It is used in masks and filters and clothing of various types where a woven format is required.

Any activated carbon meeting the physical description of subject merchandise provided above that is not expressly excluded from the scope is included within the scope. The products subject to the order are currently classifiable under the Harmonized Tariff Schedule of the United States (“HTSUS”) subheading 3802.10.00. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of the order is dispositive.

Changes Since the Preliminary Results

Based on a review of the record as well as comments received from parties regarding our *Preliminary Results*, we have made revisions to certain SVs and the margin calculations for Jacobi and

Huahui in the final results. Specifically, we have updated the SV for labor and the calculation of the surrogate financial ratios.⁴ See Decision Memo at Comment 4. For all changes to the margin calculations, see Decision Memo and the company specific analysis memoranda.

Wage Rate Methodology

Pursuant to a recent decision by the United States Court of Appeals for the Federal Circuit, we have calculated a revised hourly wage rate to use in valuing Jacobi’s and Huahui’s reported labor. The revised wage rate is calculated by averaging earnings and/or wages in countries that are economically comparable to the PRC and that are significant producers of comparable merchandise. See Decision Memo at Comment 4f; see also Memorandum to the File, through Catherine Bertrand, Program Manager, Office 9, Import Administration, from Bob Palmer, Case Analyst, Office 9, Import Administration, Subject: Second Administrative Review of Activated Carbon from the People’s Republic of China: Surrogate Values for the Final Results, dated November 9, 2010, for the details of the calculation and supporting data.

Per-Unit Assessment

In the *Preliminary Results*, we analyzed Jacobi’s submitted entered values because Petitioners argued that the Department should calculate specific, per-kilogram cash deposit and importer-specific assessment rates for all respondents in this review based on an allegation that parties are selling the subject merchandise (or importing it) at prices significantly below prevailing market prices to evade assessment of antidumping duties. At the time of the *Preliminary Results*, we did not find that there was a substantial difference between the average U.S. sales price for activated carbon and the average entered value reported to U.S. Customs and Border Protection (“CBP”) for Jacobi. However, since the *Preliminary Results*, Jacobi has submitted revised entered value data and, based on a further analysis of the record of this review, we have determined that there is a substantial difference between Jacobi’s net unit price for its entries of certain activated carbon and the entered

value reported to CBP. While the Department normally directs CBP to collect cash deposits and liquidate entries on an *ad valorem* basis, we are not required to do so by statute or by our regulations, and have in the past used quantity-based rates where appropriate.⁵ Furthermore, the Department has determined in past cases that it would be extremely burdensome to determine whether to apply an *ad valorem* or a per-unit rate on a company-specific basis.⁶ Therefore, consistent with the Department’s practice, we are calculating per-unit cash deposit and assessment rates for the mandatory respondents, separate rate companies and companies that are part of the PRC-wide entity. See Decision Memo at Comment 3. To arrive at a per-kilogram rate for the PRC-wide rate entity, we began with the *ad valorem* PRC-wide rate of 228.11 percent. The Department then multiplied the *ad valorem* rate of 228.11 percent by the average unit value (“AUV”) for all imports of subject merchandise into the United States during the POR. For the PRC-wide entity, this calculation results in a per-kilogram assessment rate of \$2.42.⁷ The quantity-based collection and assessment method will begin upon completion of these final results, and will be employed thereafter for all future reviews of this order.⁸

Separate Rates

In our *Preliminary Results*, we determined that the following companies met the criteria for separate rate status: Datong Juqiang Activated Carbon Co., Ltd., Datong Municipal

⁵ See *Freshwater Crawfish Tail Meat from the People’s Republic of China; Notice of Final Results of Antidumping Duty Administrative Review, and Final Partial Rescission of Antidumping Duty Administrative Review*, 67 FR 19546, 19549 (April 22, 2002); *Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof From France, Germany, Italy, Japan, Sweden, and the United Kingdom; Final Results of Antidumping Duty Administrative Reviews and Revocation of Orders in Part*, 66 FR 36551 (July 12, 2001); *Honey from the People’s Republic of China: Final Results and Final Rescission, In Part, of Antidumping Duty Administrative Review*, 70 FR 38873 (July 6, 2005); and *Fresh Garlic from the People’s Republic of China: Final Results of Antidumping Duty Administrative Review*, 70 FR 34082 (June 13, 2005).

⁶ See *Certain Frozen Fish Fillets from the Socialist Republic of Vietnam: Final Results of the Second Administrative Review*, 72 FR 13242 (March 21, 2007) and accompanying Issues and Decision Memorandum at Comment 6.

⁷ See Memorandum to the File, through Catherine Bertrand, Program Manager, Office 9, from, Bob Palmer, Case Analyst, Office 9, “Calculation of Per-Kilogram PRC-Wide Rate,” dated November 9, 2010.

⁸ See *Notice of Antidumping Duty Order: Certain Activated Carbon From the People’s Republic of China*, 72 FR 20988 (April 27, 2007).

⁴ Petitioners and Jacobi both submitted Kalpalka’s 2007–2008 financial statements in their post-preliminary SV submissions, which we will rely upon for the final results as they are more contemporaneous than the 2006–2007 Kalpalka financial statements. See Petitioners’ Post-Prelim SV Submission, dated June 2, 2010 at Attachment 18; see also Jacobi’s Post-Prelim SV Submission, dated June 2, 2010 at Exhibit 1.

Yunguang Activated Carbon Co., Ltd., Jilin Bright Future Chemicals Company, Ltd., Ningxia Guanghua Cherishmet Activated Carbon Co., Ltd.,⁹ Ningxia Mineral & Chemical Limited, Shanxi DMD, Shanxi Industry Technology Trading Co., Ltd., and Shanxi Qixian Foreign Trade Corporation.

Additionally, in the *Preliminary Results*, we also noted that the Department received completed responses to the Section A portion of the non-market economy questionnaire from the individually reviewed respondents (Jacobi and Huahui), which contained information pertaining to the companies' eligibility for a separate rate. With respect to Jacobi, we preliminarily determined that there is no PRC ownership of this company and, because the Department has no evidence indicating that Jacobi is under the control of the PRC, a separate rates analysis is not necessary to determine whether it is independent from government control. With respect to Huahui, we preliminarily granted separate rate status to it based on the submitted information. We also preliminarily determined that one of the exporters under review not selected for individual examination, Tangshan Solid Carbon Co., Ltd., reported that it is 100-percent foreign owned. Accordingly, the Department also preliminarily granted separate rate status to Tangshan Solid Carbon Co. Ltd. See *Preliminary Results*.

With the exception of comments regarding the Department's treatment of Shanxi DMD, we have not received any information since the issuance of the *Preliminary Results* that provides a basis for the reconsideration of these preliminary determinations. Therefore, the Department continues to find that Jacobi, Huahui, Datong Juqiang Activated Carbon Co., Ltd., Datong

⁹In the previous administrative review, the Department found Beijing Pacific Activated Carbon Products Co., Ltd., GHC, and Ningxia Guanghua Activated Carbon Co., Ltd. as a single entity and because there were no changes from the previous review, we will assign this rate to the companies in the single entity. See *Certain Activated Carbon From the People's Republic of China: Notice of Preliminary Results of the Antidumping Duty Administrative Review and Extension of Time Limits for the Final Results*, 74 FR 21317 (May 7, 2009), unchanged in *First Administrative Review of Certain Activated Carbon from the People's Republic of China: Final Results of Antidumping Duty Administrative Review*, 74 FR 57995 (November 10, 2009). Additionally, in a previous review, the Department found that Cherishmet Inc. is affiliated with GHC, however, it has not been found to be part of the single entity. See Memorandum to The File, from Robert Palmer, Case Analyst, through Catherine Bertrand, Program Manager; regarding First Antidumping Duty Administrative Review of Certain Activated Carbon from the People's Republic of China: Affiliation Memorandum of Ningxia Guanghua Cherishmet Activated Carbon Co., Ltd., dated April 30, 2009.

Municipal Yunguang Activated Carbon Co., Ltd., Jilin Bright Future Chemicals Company, Ltd., Ningxia Guanghua Cherishmet Activated Carbon Co., Ltd., Ningxia Mineral & Chemical Limited, Shanxi Industry Technology Trading Co., Ltd., Shanxi Qixian Foreign Trade Corporation, and Tangshan Solid Carbon Co., Ltd. meet the criteria for a separate rate.

With respect to Shanxi DMD, for the *Preliminary Results* the Department found that Shanxi DMD had cooperated to the best of its ability and, accordingly, we did not apply adverse facts available ("AFA") by assigning the PRC-wide rate to Shanxi DMD. Since the *Preliminary Results*, Petitioners filed comments in their case brief and Shanxi DMD filed a rebuttal brief concerning whether the Department should apply total AFA to Shanxi DMD for these final results. After full consideration of the facts on the record of this review, we have determined that it is not appropriate to apply total AFA to Shanxi DMD. Therefore, because we continue to find that Shanxi DMD cooperated to the best of its ability, we are continuing to grant Shanxi DMD separate rate status. For a full discussion of parties' arguments and the Department's position on this matter, please see Decision Memo at Comment 10.

Additionally, in the *Preliminary Results*, we stated that, United Manufacturing International (Beijing) Ltd. ("UMI"), Datong Yunguang Chemicals Plant, Hebei Foreign Trade and Advertising Corporation, and Shanxi Newtime Co., Ltd., all companies with an active review request, did not timely submit either a separate rate application or certification. Thus, we preliminarily determined that these companies did not demonstrate their eligibility for separate rate status, and were included as part of the PRC-wide entity. See *Preliminary Results* at 26932 and 26933. Because we have not received any information since the issuance of the *Preliminary Results* that provides a basis for a reconsideration of that finding, we continue to find UMI, Datong Yunguang Chemicals Plant, Hebei Foreign Trade and Advertising Corporation, and Shanxi Newtime Co., Ltd., did not meet the criteria for a separate rate for the final results. Thus, these companies will be subject to the PRC-wide entity rate.

In the *Preliminary Results*, the Department determined that those companies which did not demonstrate eligibility for a separate rate are properly considered part of the PRC-wide entity. Since the *Preliminary Results*, none of the companies which

did not file separate rate applications or certifications submitted comments regarding these findings. Therefore, we continue to treat these entities as part of the PRC-wide entity.

Final Partial Rescission

In the *Preliminary Results*, the Department preliminarily rescinded this review with respect to Ningxia Lingzhou Foreign Trade Co., Ltd. ("Lingzhou") because the Department preliminarily determined that it had no shipments of subject merchandise to the United States during the POR. Subsequent to the *Preliminary Results*, Petitioners pointed out that Lingzhou submitted its certification of no shipments past the deadline established by the Department. However, no party submitted information on the record indicating that Lingzhou made sales to the United States of subject merchandise during the POR. The Department acknowledges that it erred in not noticing the submission was late and rejecting it at the time of filing. However, because the Department actually reviewed the submission, confirmed with CBP that Lingzhou did not have any shipments during the instant POR, and preliminarily rescinded the review with respect to Lingzhou, the Department now finds that it would be unfair to the respondent to reject the submission for being untimely filed it after it has been on the record for over a year. Therefore, in this particular instance, the Department will allow Lingzhou's no shipment certification to remain on the record. Thus, in accordance with 19 CFR 351.213(d)(3), and consistent with our practice, we are rescinding this review with respect to Lingzhou. For a full discussion of parties' comments and the Department's determination with regard to Lingzhou's no shipments certification, see Decision Memo at Comment 11.

Duty Absorption

In the *Preliminary Results*, we conducted a duty absorption inquiry with regard to Jacobi, pursuant to section 751(a)(4) of the Tariff Act of 1930, as amended ("Act"), and preliminarily found that Jacobi has absorbed antidumping duties on U.S. sales made through its affiliated importer. See *Preliminary Results*. We have not received any further information which would provide a basis for the reconsideration of our determination. Therefore, the Department continues to find that Jacobi has absorbed antidumping duties on U.S. sales made through its affiliated

importer, pursuant to section 751(a)(4) of the Act.

Final Results of Review

The dumping margins for the POR are as follows:

CERTAIN ACTIVATED CARBON FROM THE PEOPLE'S REPUBLIC OF CHINA

Manufacturer/Exporter	Margin ¹⁰ (dollars per kilogram)
Jacobi Carbons AB ¹¹	0.11
Ningxia Huahui Activated Carbon Co., Ltd	0.44
Datong Juqiang Activated Carbon Co., Ltd	0.28
Datong Municipal Yunguang Activated Carbon Co., Ltd	0.28
Jilin Bright Future Chemicals Company, Ltd	0.28
Ningxia Guanghua Cherishmet Activated Carbon Co., Ltd ¹²	0.28
Ningxia Mineral & Chemical Limited	0.28
Shanxi DMD Corporation	0.28
Shanxi Industry Technology Trading Co., Ltd	0.28
Shanxi Qixian Foreign Trade Corporation	0.28
Tangshan Solid Carbon Co., Ltd	0.28
PRC-Wide Rate ¹³	2.42

¹⁰For the separate rate calculation, see Memorandum to the File, from Bob Palmer, Case Analyst Office IX, re: Antidumping Duty Administrative Review of Certain Activated Carbon from the People's Republic of China: Final Results Simple-Average Per-Unit Rate for Separate Rate Respondents, dated November 9, 2010.

¹¹In the *Preliminary Results*, we found that Jacobi Carbons Industry (Tianjin) ("JCC") and Tianjin Jacobi International Trading Co. Ltd. ("Tianjin Jacobi") both act as export facilitators for Jacobi Carbons AB. Therefore, as we have done in earlier segments of this antidumping duty order, we are continuing to find it appropriate that Jacobi Carbons AB, Tianjin Jacobi and JCC receive the antidumping duty rate assigned to Jacobi Carbons AB.

¹²As stated above, GHC is a single entity with Beijing Pacific Activated Carbon Products Co., Ltd. and Ningxia Guanghua Activated Carbon Co., Ltd.

¹³As discussed in the Separate Rates section of this notice, the PRC-Wide entity includes Datong Yunguang Chemicals Plant, Hebei Foreign Trade and Advertising Corporation, Shanxi Newtime Co., Ltd., and United Manufacturing International (Beijing) Ltd.

Assessment

The Department will determine, and CBP shall assess, antidumping duties on all appropriate entries, pursuant to 19 CFR 351.212(b). We have calculated importer-specific duty assessment rates on a per-unit basis.¹⁴ In this and future

¹⁴We divided the total dumping margins (calculated as the difference between normal value and export price or constructed export price) for each importer by the total quantity of subject

reviews, we will direct CBP to assess importer-specific assessment rates based on the resulting per-unit (*i.e.*, per-kilogram) rates by the weight in kilograms of each entry of the subject merchandise during the POR. The Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of the final results of this administrative review.

Cash Deposit Requirements

The following cash-deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for each of the reviewed companies that received a separate rate in this review will be the rate listed in the final results of review (except that if the rate for a particular company is *de minimis*, *i.e.*, less than 0.5 percent, no cash deposit will be required for that company); (2) for previously investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period of review; (3) if the exporter is not a firm covered in this review, a prior review, or the original less than fair value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will be the PRC-wide rate of \$2.42 per kilogram. These deposit requirements, when imposed, shall remain in effect until further notice.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or

merchandise sold to that importer during the POR to calculate a per-unit assessment amount.

destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this administrative review and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: November 9, 2010.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.
