For dates of application, see section 6023 of the Internal Revenue Code. The provisions of this section are to be applied with respect to taxable years beginning after December 15, 2010. A proposed regulation under section 6012 (REG–119046–10) was published in the Federal Register on September 9, 2010. Requirement of a Statement Disclosing Uncertain Tax Positions, 75 FR 54802 (proposed Sept. 9, 2010). The IRS received one written comment concerning the proposed regulation, and a public hearing regarding the proposed regulation was held on October 19, 2010. Neither of the two speakers at the public hearing had comments relating to the proposed regulation, although both organizations the speakers represented had previously submitted written comments concerning the draft Schedule UTP and instructions. Announcement 2010–30, 2010–19 IRB 668. After considering the comments, the proposed regulation is adopted by this Treasury decision with one non-substantive change related to the effective date. While the proposed regulation applied to returns filed for tax years beginning after December 15, 2009 and ending after the date the regulations were published in the Federal Register, the final regulation applies to returns filed for tax years beginning on or after January 1, 2010.

SUPPLEMENTARY INFORMATION:

Background

This document contains amendments to the Income Tax Regulations (26 CFR part 1) under section 6012 relating to the returns of income corporations are required to file. Section 6011 provides that persons liable for a tax imposed by Title 26 shall make a return when required by regulations prescribed by the Secretary of the Treasury according to the forms and regulations prescribed by the Secretary. Treasury Regulation § 1.6011–1 requires every person liable for income tax to make the returns required by regulation. Section 6012 requires corporations subject to an income tax to make a return with respect to that tax. Treasury Regulation § 1.6012–2 sets out the corporations that are required to file returns and the form those returns must take.

The final regulation does not adopt this recommendation. The regulation addresses the IRS’s authority to require certain corporations to provide information concerning uncertain tax positions. The IRS has decided to require the filing of Schedule UTP based on its determination that the information about uncertain tax positions taken in a tax return required by the schedule is essential to achieving an effective and efficient self-assessment tax system. Provisions relating to the assertion of privilege are not included in this regulation, since it does not affect the existence of any applicable privileges taxpayers may have concerning information requested by a return or how they may assert those privileges.

Special Analyses

It has been determined that this final rule is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory assessment is not required.

This regulation will only affect taxpayers that prepare or are required to issue audited financial statements. Small entities rarely prepare or are required to issue audited financial statements due to the expense involved. It is hereby certified that this regulation will not have a significant economic impact on a substantial number of small entities pursuant to the Regulatory Flexibility Act (5 U.S.C. chapter 6). Accordingly, a regulatory flexibility analysis is not required. Pursuant to 5 U.S.C. 553(d)(3), it has been determined that there is good cause for the effective date of this final rule, which is less than 30 days after the date of publication.

Pursuant to section 7805(f) of the Internal Revenue Code, the notice of proposed rulemaking preceding this regulation was submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business. Drafting Information

The principal author of these regulations is Kathryn Zuba of the Office of the Associate Chief Counsel (Procedure and Administration).

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 4022 and 4044

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

DATES: Effective January 1, 2011.

FOR FURTHER INFORMATION CONTACT: Catherine B. Klion, Manager, Regulatory and Policy Division, Legislative and Regulatory Department, Pension Benefit Guaranty Corporation, 1200 K Street NW., Washington, DC 20005, 202–326–4024. (TTY/TDD users may call the Federal relay service toll-free at 1–800–877–8339 and ask to be connected to 202–326–4024.)

The interest assumptions in appendix B to part 4022 are used to value benefits for allocation purposes under ERISA section 4044. PBGC uses the interest assumptions in appendix B to part 4022 to determine whether a benefit is payable as a lump sum and to determine the amount to pay. Appendix C to part 4022 contains interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using PBGC’s historical methodology. Currently, the rates in appendices B and C of the benefit payment regulation are the same.

The interest assumptions are intended to reflect current conditions in the financial and annuity markets. Assumptions under the asset allocation regulation are updated quarterly; assumptions under the benefit payments regulation are updated monthly. This final rule updates the benefit payments interest assumptions for January 2011 and updates the asset allocation interest assumptions for the first quarter (January through March) of 2011. The first-quarter 2011 interest assumptions under the allocation regulation will be 4.07 percent for the first 25 years following the valuation date and 3.93 percent thereafter. In comparison with the interest assumptions in effect for the fourth quarter of 2010, these interest assumptions represent no change in the select period (the period during which the select rate (the initial rate) applies), a decrease of 0.41 percent in the select rate, and a decrease of 0.58 percent in the ultimate rate (the final rate).

The January 2011 interest assumptions under the benefit payments regulation will be 2.25 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit’s placement in pay status. In comparison with the interest assumptions in effect for December 2010, these interest assumptions are unchanged.

PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect current market conditions as accurately as possible.

Because of the need to provide immediate guidance for the valuation and payment of benefits under plans with valuation dates during January 2011, PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

PBGC has determined that this action is not a “significant regulatory action” under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).
