RIN 0691-AA74

Direct Investment Surveys: BE-11, Annual Survey of U.S. Direct Investment Abroad

AGENCY: Bureau of Economic Analysis,
Commerce.

ACTION: Final rule.

SUMMARY: This final rule amends regulations of the Bureau of Economic Analysis (BEA), Department of Commerce, to set forth the reporting requirements for the BE-11, Annual Survey of U.S. Direct Investment Abroad. BEA conducts the survey annually and obtains sample data on financial and operating data covering the overall operations of U.S. parent companies and their foreign affiliates. BEA is modifying and deleting items on the survey forms and changing the reporting criteria. The changes include a change in the reporting criteria for foreign affiliates with U.S. Parent (U.S. Reporter) ownership between 10 and 20 percent. BEA is also making changes to bring the BE-11 forms and instructions into conformity with the 2009 BE-10, Benchmark Survey of U.S. Direct Investment Abroad.

DATES: This final rule will be effective January 21, 2011.

FOR FURTHER INFORMATION CONTACT:

David H. Galler, Chief, Direct Investment Division (BE-50), Bureau of Economic Analysis, U.S. Department of Commerce, Washington, DC 20230; e-mail David.Galler@bea.gov or phone (202) 606-9835.

SUPPLEMENTARY INFORMATION: On September 20, 2010, BEA published a notice of proposed rulemaking that set forth revised reporting criteria for the BE-11, Annual Survey of U.S. Direct Investment Abroad (75 FR 57217-57220). No comments on the proposed rule were received. Thus the proposed rule is adopted without change. This final rule amends 15 CFR Part 806.14 to set forth the reporting requirements for

the BE-11 annual survey of U.S. direct investment abroad.

BEA, U.S. Department of Commerce, conducts the BE-11 survey under the authority of the International Investment and Trade in Services Survey Act (22 U.S.C. 3101-3108), hereinafter, "the Act." Section 4(a) of the Act (22 U.S.C. 3103(a)) requires that, with respect to United States direct investment abroad, the President shall, to the extent he deems necessary and feasible, conduct a regular data collection program to secure current information on international capital flows and other information related to international investment and trade in services, including (but not limited to) such information as may be necessary for computing and analyzing the United States' balance of payments, the employment and taxes of United States parent companies and their affiliates, and the international investment and trade in services position of the United States.

The BE-11 survey is a sample survey that collects information on a variety of measures of the overall operations of U.S. parent companies and their foreign affiliates, including total assets, sales, net income, employment and employee compensation, research and development expenditures, and exports and imports of goods. The sample data are used to derive universe estimates in nonbenchmark years from similar data reported in the BE-10, Benchmark Survey of U.S. Direct Investment Abroad, which is taken every five years. The data are needed to measure the size and economic significance of direct investment abroad, to measure the changes in such investment, and to assess their impact on the U.S. and foreign economies. The data are disaggregated by country and industry of the foreign affiliate and by industry of the U.S. parent. The BE-11 survey is a mandatory annual survey of U.S. direct investment abroad conducted by BEA under the Act. BEA sends survey forms to potential respondents in March of each year; responses are due by May 31.

Description of Changes

The changes revise the regulations for the BE-11 survey and bring the BE-11 forms and instructions into conformity with the 2009 BE-10, Benchmark Survey of U.S. Direct Investment Abroad. These revisions include changes in reporting thresholds and data items collected, as well as changes in form design. Several of these revisions are part of a larger program to align the data collection program for multinationals with available resources.

BEA will also expand the use of sampling to help align the data collection program with resources.

Beginning with the 2010 annual survey, U.S. Reporters will report data on all their foreign affiliates, regardless of industry, on one of four foreign affiliate forms—BE-11B, BE-11C, BE-11D, or BE-11E. Data on foreign affiliates of U.S. Reporters that are banks, bank holding companies, or financial holding companies will be collected on the same survey forms as data on other foreign affiliates. All U.S. Reporters will report data on all domestic operations, on a fully consolidated basis, on Form BE-11A, Report for U.S. Reporter. Also, U.S. Reporters with total assets, sales or gross operating revenues, or net income less than or equal to \$300 million will be required to report only certain items on Form BE-11A.

Additionally, BEA will require U.S. Reporters to file reports annually for foreign affiliates in which they own a 10 to 20 percent voting interest. These affiliates, some of which are very large, fall under both U.S. and international definitions for foreign direct investment and must be represented in the statistics, but in the past they have been required to be reported in the annual survey only in the third year following a benchmark survey. Annual reporting will ensure that the activities of these affiliates are accurately reflected in the statistics derived from the survey.

The four foreign affiliate forms are—

(a) Form BE-11B—report for majority-owned foreign affiliates with total assets, sales or gross operating revenues, or net income greater than \$60 million, positive or negative; filing of additional items would be required for affiliates with assets, sales, or net income greater than \$300 million, positive or negative;

(b) Form BE-11C—report for minority-owned foreign affiliates with total assets, sales or gross operating revenues, or net income greater than \$60 million, positive or negative;

(c) Form BE-11D—schedule for foreign affiliates established or acquired by the U.S. Reporter during the current reporting year with total assets, sales or gross operating revenues, or net income greater than \$25 million, positive or negative, but for which no one of these items is greater than \$60 million, positive or negative; and

(d) Form BE-11E—report for foreign affiliates selected by BEA to be reported on this form in lieu of Form BE-11B. BEA will statistically divide into panels, affiliates with total assets, sales or gross operating revenues, and net income (positive or negative) between \$60 million and \$300 million. At the
