layout, formwork, working decks and scaffolds. Paragraph 1926.705(b)
requires employers to mark the rated capacity of jacks and lifting units.

This information collection is subject to the PRA. A Federal agency generally
cannot conduct or sponsor a collection of information, and the public is
generally not required to respond to an information collection, unless it is
currently approved by the OMB under the PRA and displays a currently valid
OMB Control Number. In addition, notwithstanding any other provisions of
law, no person shall generally be subject to penalty for failing to comply with a
collection of information if the collection of information does not display a currently valid OMB control number. See 5 CFR 1320.5(a) and
1320.6. The DOL obtains OMB approval for this information collection under
OMB Control Number 1218–0095. The current OMB approval is scheduled to expire on December 31, 2010; however, it should be noted that information collections submitted to the OMB receive a month-to-month extension while they undergo review. For
additional information, see the related notice published in the Federal Register
on September 30, 2010 (75 FR 60490). Interested parties are encouraged to
send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within 30 days of publication of this notice in the Federal Register. In order to ensure the appropriate consideration, comments should reference OMB Control Number 1218–0095. The OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Occupational Safety and Health Administration (OSHA).

Title of Collection: Concrete and
Masonry Standard.
OMB Control Number: 1218–0095.
Affected Public: Private sector:
Businesses or other for-profits.
Total Estimated Number of
Respondents: 145,040.
Total Estimated Number of
Responses: 145,040.
Total Estimated Annual Burden
Hours: 11,603.
Total Estimated Annual Costs Burden:
$0.
Michel Smyth,
Departmental Clearance Officer.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
[Notice: (10–171)]
Notice of Information Collection
AGENCY: National Aeronautics and
Space Administration (NASA).
ACTION: Notice of information collection.
SUMMARY: The National Aeronautics and
Space Administration, as part of its
continuing effort to reduce paperwork and respondent burden, invites the
general public and other Federal agencies to take this opportunity to
comment on proposed and/or continuing information collections, as
3506(c)(2)(A)).
DATES: All comments should be
submitted within 60 calendar days from the date of this publication.
ADDRESSES: All comments should be
addressed to Lori Parker, National
Aeronautics and Space Administration,
Washington, DC 20546–0001.
FOR FURTHER INFORMATION CONTACT:
Requests for additional information or
copies of the information collection
instrument(s) and instructions should
be directed to Lori Parker, NASA PRA Officer, NASA Headquarters, 300 E
Street SW., JF000, Washington, DC
20546, (202) 358–1351,
Lori.Parker@nasa.gov.
SUPPLEMENTARY INFORMATION:
I. Abstract
NASA seek to provide engaging experiences to the public to educate
them about NASA technology that they use in their life and change their
attitudes about NASA based on the interaction. Pre and post customer
satisfaction surveys will be administered to measure the effectiveness of these efforts.
II. Method of Collection
Electronic.
III. Data
Title: NASA Exhibit Surveys.
OMB Number: 2700–xxxx.
Type of review: Regular.
Affected Public: Individuals or households, Federal Government.
Number of Respondents: 100,000.
Responses per Respondent: 1.
Annual Responses: 100,000.
Frequency of Report: Annually.
IV. Request for Comments
Comments are invited on: (1) Whether
the proposed collection of information is
necessary for the proper performance of
the functions of NASA, including
whether the information collected has
practical utility; (2) the accuracy of
NASA's estimate of the burden
(including hours and cost) of the
proposed collection of information; (3)
ways to enhance the quality, utility, and
clarity of the information to be
collected; and (4) ways to minimize the
burden of the collection of information
on respondents, including automated
collection techniques or the use of other
forms of information technology.
Comments submitted in response to
this notice will be summarized and
included in the request for OMB
approval of this information collection.
They will also become a matter of
public record.
Lori Parker,
NASA PRA Clearance Officer.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
[Notice: (10–170)]
Notice of Information Collection
AGENCY: National Aeronautics and
Space Administration (NASA).
ACTION: Notice of information collection.
SUMMARY: The National Aeronautics and
Space Administration, as part of its
continuing effort to reduce paperwork and respondent burden, invites the
general public and other Federal agencies to take this opportunity to
comment on proposed and/or continuing information collections, as
3506(c)(2)(A)).
II. Method of Collection

Electronic.

III. Data

Title: Women in STEM High School Aerospace Scholars (WISH) is a pilot project for FY11. Applicants will apply voluntarily to be considered for this opportunity. This data collection is solely for identifying interested, qualified applications to participate in the multi-month online curriculum delivery and those who successfully complete the on-line curriculum will be invited to participate in a one-week experience at Johnson Space Center.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

NATIONAL SCIENCE FOUNDATION

Notice of Intent to Seek Approval to Reinstate an Information Collection

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request clearance of this collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104–13), we are providing opportunity for public comment on this action. After obtaining and considering public comments, NSF will prepare the submission requesting OMB review and considering public comment. NSF will conduct an OMB review and considering public comment.

DATES: Written comments on this notice must be received by February 28, 2011 to be considered. Comments received after that date will be considered to the extent practicable.

FOR ADDITIONAL INFORMATION OR COMMENTS: Contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230; telephone (703) 292–7556; or send e-mail to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TTD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday. You also may obtain a copy of the data collection instrument and instructions from Ms. Plimpton.

SUPPORTING INFORMATION:

Title of Collection: The Industry/University Cooperative Research Centers Program (I/UCRC).
OMB Number: 3145–0088.
Expiration Date of Approval: Not applicable.
Type of Request: Intent to seek approval to reinstate an information collection.

Abstract: The Industry/University Cooperative Research Centers Program was initiated in 1973 to develop long-term partnerships among industry, academe and government. The National Science Foundation invests in these partnerships to promote research programs of mutual interest, contribute to the Nation’s research infrastructure and enhance the intellectual capacity of the engineering or science workforce through the integration of research and education. As appropriate, NSF encourages international collaborations that advance these goals within the global context.

The I/UCRC program seeks to achieve this by:
1. Contributing to the nation’s research enterprise by developing long-term partnerships among industry, academe, and government;
2. Leveraging NSF funds with industry to support graduate students performing industrially relevant research; and
3. Expanding the innovation capacity of our nation’s competitive workforce through partnerships between industries and universities.

The national’s research enterprise to remain competitive through active engagement with academic and industrial leaders throughout the world.

The centers are catalyzed by a small investment from NSF and they are primarily supported by other private and public sector center members, with NSF taking a supporting role in the development and evolution of the I/UCRC. The I/UCRC program initially offers five-year Phase I continuing awards. This five-year period of support allows for the development of a strong partnership between the academic researchers and their industrial and government members. After five years, centers that continue to meet the I/UCRC program requirements may request support for a second five-year (Phase II) period. These awards allow centers to continue to grow and diversify their non-NSF memberships during their Phase II period. After ten years, a Phase III award provides a third five-year award for centers that demonstrate their viability, sustainability, and which have had a significant impact on industry research as measured through annual reports, site visits, and adherence to I/UCRC requirements. Centers are expected to be fully supported by industry, other Federal agencies, and state and local government partners after fifteen-years as an I/UCRC.

The centers are catalyzed by a small investment from NSF and they are primarily supported by other private and public sector center members, with NSF taking a supporting role in the
