(viii) Date Report Delivered to Congress: DEC 21 2010

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

India – AGM-84L HARPOON Block II Missiles

The Government of India has requested a possible sale of 21 AGM-84L HARPOON Block II Missiles, 5 ATM-84L HARPOON Block II Training Missiles, Captive Air Training Missiles, containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor representatives' technical assistance, engineering and logistics support services, and other related elements of logistics support. The estimated cost is $200 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-India strategic relationship and to improve the security of an important partner which continues to be an important force for political stability, peace, and economic progress in South Asia.

India intends to use the missiles on its Indian Navy P-8I Neptune maritime patrol aircraft which will provide enhanced capabilities in effective defense of critical sea lines of communication. India has already purchased HARPOON Block II missiles for integration on the Indian Air Force Jaguar aircraft and will have no difficulty absorbing these weapons into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be The Boeing Company in St. Louis, Missouri, and Delex Systems Incorporated in Vienna, Virginia. Details of a potential offset agreement in connection with the proposed sale are not known as of the date of this transmittal.

Implementation of this proposed sale will require annual trips to India involving U.S. Government and contractor representatives for technical reviews, support, and oversight on for approximately five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 10-66

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act

Annex
Item No. vii

(vii) Sensitivity of Technology:

1. The AGM-84L HARPOON Block II missile system is classified Confidential. The HARPOON missile is a non-nuclear tactical weapon system currently in service in the U.S. Navy and in 28 other foreign nations. It provides a day, night, and adverse weather, standoff air-to-surface capability and is an effective Anti-Surface Warfare missile. The AGM-84L incorporates components, software, and technical design information that are considered sensitive. The following components being conveyed by the proposed sale that are considered sensitive and are classified Confidential include:

a. The Radar Seeker
b. The Guidance Control Unit GPS/INS System
c. Operational Flight Program Software
d. Missile operational characteristics and performance data

These elements are essential to the ability of the HARPOON missile to selectively engage hostile targets under a wide range of operations, tactical and environmental conditions.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
