fair value option to financial or servicing assets and liabilities.

The agencies believe that the proposed information is necessary to more accurately assess the impact of fair value accounting and fair value measurements for safety and soundness purposes. The collection of the information on Schedule Q, as proposed, will facilitate and enhance the banking agencies’ ability to monitor the extent of fair value accounting by branches, including the elective use of fair value accounting and the nature of the inputs used in the valuation process, pursuant to the disclosure requirements of ASC Topic 820. The information collected on Schedule Q is consistent with the disclosures required by ASC Topic 820 and consistent with industry practice for reporting fair value measurements and should, therefore, not impose significant incremental burden on branches.
