On August 31, 1999 the Department of Energy (DOE) issued Order No. EA-216, which authorized TEMUS to transmit electric energy from the United States to Canada as a power marketer for a two-year term using existing international transmission facilities. The electric energy that TEMUS proposes to export to Canada would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. The existing international transmission facilities to be utilized by TEMUS have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.
